FM ALLOCATIONS: DISMISSED AMENDMENTS

KY WHUB-FM Cookeville to 98.5 C2 from 98.3 A

WASHINGTON THIS WEEK

The FCC has proposed a new class of FM station to be called C3. A C3 would have a maximum ERP of 25,000 watts at 328 ft and would be allowed in Zone II. The proposal also increases the maximum power for class A stations to 6,000 watts. The FCC has estimated between 200 and 300 class A stations would qualify for C3 status.

Also proposed by the FCC is a plan to reduce interference to AM stations by looking into revising emission standards and use of a mandated audio standard. In addition the commission has proposed giving AM stations the option of proposing facilities whose coverage would be subject to interference from other stations. Currently such permission is only granted to the first station proposing to provide service to an unserved community. (Now if they could only get my neighbor to turn off their TV set when I want to listen to AM)

A settlement agreement for RKO's WHBQ, Memphis, TN as been approved. Step one - RKO's renewal application will be dismissed, two - First City Communications, Inc.'s application will be granted, three - Flinn Broadcasting will acquire the assets of WHBQ from RKO, four - First city will assign the license of WHBQ to Flinn. RKO will receive \$525,000 from Flinn and First City \$225,000.

The request of Mid-State Media has been granted and the action to establish a filing window for 102.9 A at Garden City has been stayed pending Mid-State's request for reconsideration.
