WASHINGTON THIS WEEK

The FCC and the Bankruptcy Court have approved the dismissal of Marr Broadcasting Company's licence for KQOK, Galveston, TX, 106.5 MHz and the issuance of a CP for the same facilities to KQOK, Inc. (formerly San Jacinto Broadcasting Corp.). Along with the dismissal of KQOK came the dismissal of its CP to change its studio and transmitter location. KQOK, Inc. will modify its application to specify the facilities of KQOK.

WVCH Communications has had its application to modify WVCH, Chester, PA, and for waiver of the FCC rules concerning overlapping contours approved, over the objections of Gore-Overgaard Broadcasting, Inc. This action reverses a decision by the Mass Media Bureau dismissing WVCH's application as patently defective. WVCH while increasing overlap with one station will eliminate overlap with two others and reduce overlap with two more. The Commission agreed with Gore and that the array should be classified as critical.

The FCC has revised form 301 by requiring additional financial, ownership and integration information from applicants. The FCC hopes to reduce the number of "sham" applications.

The Commission has adopted rules establishing another class of FM stations. Class C3 will allow Zone II class A stations that meet the requirements to increase power to a maximum of 25,000 watts at 328 feet. The protection for C3 stations will be approx. 24 miles (39 kilometers). At the same time the FCC deferred consideration of a proposed increase in class A stations from 3,000 to 6,000 watts, stating that additional technical analysis of the proposal is needed. The FCC will in one action reclassify approx. 150 stations that can increase class without changing transmitter locations. If you would like a listing of the stations involved drop us a note or give a call.

The FCC has imposed EEO reporting conditions on WRGI, Naples, FL, licensed to All Communications of Naples, FL. The reporting conditions will apply to H & D communications when it takes over WRGI.

The transfer of WNEW, New York, NY, to a partnership consisting of Westwood One Stations and Metropolitan Broadcasting has been approved. The transfer was approved over the objection of Philip E. Galasso who stated the transfer violated the FCC's multiple ownership rules and that a proposed format change by the station was against public policy.

WASHINGTON THIS WEEK

FCC Chairman Dennis Patrick has announced his resignation. Patrick will return to the private sector after the appointment of his successor. There has been no announcement from the White House on who the new Chairman might be.

Three groups have come forward in the wake of the FCC's announcement that they are willing to entertain the possible granting of waivers to the cross ownership rules. Capital Cities/ABC, Inc. on March 15th, ask for waivers to allow them to keep WABC AM/TV and WPLJ(FM) in New York, NY, KABC AM/TV and KLOS(FM) in Los Angeles, CA, WLS AM/TV and WYZ(FM) in Chicago, IL, and KGO AM/TV in San Francisco. Great American Television and Radio Company on March 10th, ask for waivers on WKRC AM/TV and WKRC(FM) in Cincinnati, OH and on WDAF AM/FM and KYYS(FM), Kansas City, MO. Fisher Broadcasting has announced it wishes to purchase KZOK(FM) Seattle, WA and add it to KOMO AM/TV also in Seattle. Anyone who would like to submit comments on the Capital Cities/ABC or Great American requests to the FCC has until May 7th to do so.

The FCC has adopted the National Radio Systems Committee (NRSC) emission limitation known as NRSC-2 as a new AM broadcast standard, beginning June 20th, 1990. The commission also announced that until June 20th, 1994, stations adhering to NRSC-1 audio pre-emphasis will be presumed to comply with NRSC-2, in the absence of specific information to the contrary.

In a FCC Public Notice the Commission has advised applicants filing forms 301 and 340 and wishing to take advantage of the Commission's changes in the rules pertaining to short-spaced FM station assignments, that all applications requesting short spacing will be returned if filed prior to the effective date of the rules. The effective date will be the same as the approval date for the pertinent amendments of FCC forms 301 and 340 by the Office of Management and Budget.

The Commission has implemented several reforms in the broadcast renewal process. Specifically the Commission has 1) banned all settlement payments in return for withdrawing competing applications prior to the initial decision stage of a comparative hearing, and thereafter, limited to the expenses of the applicant; 2) limited payments in exchange for withdrawing petitions to deny to the legitimate and prudent expenses of the withdrawing petitioner; 3) required prior FCC approval of all citizens' agreements reached in exchange for withdrawing petitions to deny; 4) eliminated the Cameron doctrine that allowed competing applications in a renewal proceeding to presume that they could acquire the incumbent licensee's transmitter site.

The Application of KIFM Broadcasting, LP for the facilities of KIFM, San Diego, CA, has been granted. KIFM is on 98.1 MHz with 28,200 watts at 640 feet.

The Commission has approved a settlement agreement and dismissed with prejudice the application of Mesa Broadcasting to upgrade KQIL, Orchard Mesa, CO. and granted the application of Western Indian Ministries to upgrade the facilities of KHAZ at Tse Bonito, NM.

ELSEWHERE

Drake-Chenault has teamed with Jones Intercable to begin a live satellite country format. The 24hr. service has no commitment to carry network commercials and will be supported by a monthly fee. In addition to the satellite service stations can (at no additional charge) receive a taped music library for local dayparts. Offices for the venture are in Albuquerque, NM and the studios are in Denver, CO. Drake/Jones plan to add two AC formats soon with more formats to be announced.

WASHINGTON THIS WEEK

The NAB has asked the FCC to reconsider its recent decision on FM directional antennas and not to implement its new FM translator rules.

INTERNATIONAL BROADCASTING

KCBI, Dallas, TX has proposed a transfer of control from Criswell Center for Biblical Studies to Interamerican Community Church, Inc.

M Street

Next weeks issue will be a day or two latter than usual to accommodate the NAB's 67th Annual Convention and 43rd Annual Engineering Conference in Las Vegas, NV, April 28th to May 2nd.
