KY WLGC-FM	Greenup	to 105.7 B from 105.5 A

WASHINGTON THIS WEEK

The FCC has amended its rules to allow licensees to modify authorizations to specify a new community of licence. The new procedure will allow a license to specify a different city of licence in a rulemaking procedure. The change will only be approved if the new facility will be mutually exclusive with the existing facility and the change can not deprive a community of its sole existing broadcast station. Under the present rules any change in city of licence would open the procedure to competing applications. The FCC will monitor requests to move from rural areas to suburban communities in order to ensure that the new procedure will not result in a migration of service to urban areas.

Because of apparent abuses of the financial certification process, the FCC has begun a program of random checks on the financial qualifications of applicants for new broadcast facilities. The first request for verification of financial qualifications has gone to Creative Educational Media, Inc., an applicant for approximately 45 FM translator frequencies.

The FCC has amended its rules to allow the broadcast of lottery information and advertisements for certain Indian gaming activities as specified in the Indian Gaming Regulatory Act. To qualify for broadcast the game must (1) be conducted on Indian lands; (2) be owned by an Indian tribe or grandfathered pursuant to the statute; (3) be permitted by law in the state where it is held, and (4) in the case of "banking" games (where participants play against the "house") the state and Indian Tribe have entered into a compact to permit such games and all requirements of that compact are met. Five states ban all gaming: Arkansas, Hawaii, Indiana, Mississippi and Utah. To determine if a game is being conducted pursuant to the act contact Michael Cox at the Department of the Interior, his number is (202) 343-9331.

The FCC has reaffirmed the dismissal of a proposal to allot 99.5 MHz to Santa Isabel, PR, over the objections of Pablo Rodriguez and Amor Family Broadcasting Group.

The Commission has affirmed the Mass Media Bureau action granting Tri-Valley Broadcasting's WYRY-FM, Hinsdale, NH, a waiver of the short-spacing rule. The grant was affirmed over the objection of WXLO-FM, Fitchburg.

ELSEWHERE

The Satellite Music Network will add another format this September when KNIX(AM) in Phoenix, AZ, begins producing a traditional country format. This will be SMN's second country format. Earlier this year SMN began uplinking a pre-1964 gold format from KOOL(AM) also in Phoenix. This brings the total number of SMN formats to ten.

WASHINGTON THIS WEEK

The FCC has revoked the license of KRGL(AM) in Myrtle Creek, OR. The station went silent in 1986 and had never notified the FCC.

WJRW, Richmond, VA, known for most of its life as WLEE on 1480 KHz has let its application for renewal be dismissed. The station had gone silent and had no plans to return to the air.

The Commission denied petitions for reconsideration of its action allotting 96.1 MHz to Morgan Hill, CA, and substituting 107.5 MHz for 95.9 MHz at Freedom, CA.

Chief Administrative Law Judge Thomas B. Fitzpatrick will retire on June 20th. Judge Fitzpatrick has been with the FCC since 1950.

According to the FCC the current count of licensed radio stations (not including CP's) reads as follows: AM 4950, FM 5582, and FM translators 1722.

The latest version of Title 47 of the Code of Federal Regulations is now available. It can be ordered direct from the Government Printing Office, Washington, DC, 20402 or in local Government Printing Office stores. You can also order by phone at (202)783-3238.

INTERNATIONAL BROADCASTING

High Adventure Ministries has applied for new station to be licensed to Piti, Guam. They plan to broadcast with 100 Kw.

**WASHINGTON THIS WEEK**

The FCC has granted Larry L. Cummings' appeal and reinstated his application for a new AM station on the condition that he specify either Sun City or Youngstown, AZ, as his community of license. If no city is selected the ALJ is authorized to dismiss the application.

The Commission has approved the RKO settlement agreements for WRKS(FM), New York, for 50 million, KRTH AM/FM, Los Angeles, for 30.35 million, and WFYR(FM), Chicago, for 21 million.

The Commission orderd that the comparative renewal proceding for WOR, New York, be held in abeyance pending consideration of a proposed settlement agreement.

The FCC has granted a waiver to WNZK, Westland, MI, to allow them to file an application to split day and night frequencies. WNZK had been denied its original request for 690 KHz, 5000 watts days and 680 KHz with 2,500 watts nights. WNZK is prevented from going full time on either frequency by itself due to interference it would cause to CBF in Montreal and CFTR in Toronto.

The new FCC telephone directory has been released. Copies can be obtained from the Washington Information Group at (202)463-7323.

WASHINGTON THIS WEEK

Annual FCC Employment forms (#395-B) are due by May 31st. If you do not have the form give the Mass Media Bureau, EEO branch a call at 202-632-7096.

The FCC has denied the appeal by Radio Group, Inc., of the dismissal of their application for a new FM at Killington, VT.

The Technical Subgroup of the Advisory Committee on Radio Broadcasting will hold a meeting on June 14th at the National Association of Broadcasters, Wasilewski Room, 1771 N Street, N.W., Washington, D.C. The topics to be covered include adjacent channel interference standards for AM, engineering standards for FM, and any other business relating to radio. The meeting is open to the public, more information can be obtained from Wallace Johnson, Chairman of the Technical Subgroup, at 703-824-5660.

ELSEWHERE

Garrison Keillor will return to American Public Radio as host of a new show. The American Radio Company of the Air will originate its shows from New York. Garrison's stories of Lake Wobegon are also set to return.

OH WBJY(CP)	Shadyside	to 95.7 B1 from A

WASHINGTON THIS WEEK

The FCC has conditionally granted the renewal of WSBY/WQHQ, Salisbury and Ocean City, MD. Although no petitions to deny or informal objections were filed against the station renewals, the Commission after review on the stations' EEO program and performance, concluded that the renewals should be granted for less than the full term and be subject to reporting conditions. The FCC also ordered Woolfson Broadcasting Corp. to forfeit \$15,000 for failure to comply with the FCC's EEO provisions. The Commission also granted the transfer of the stations to HVS partners. The fine will be imposed on Woolfson but HVS must comply with the reporting conditions.

The Commission denied the request of WQHL, Live Oak, FL, for reconsideration of its request to substitute 97.7 C2 for 97.7 A, and the request of WZDK-FM, Chester, SC, for reconsideration of its request to substitute 95.7 B1 for 95.7 A.

Effective June 1st, 1989 the Mass Media Bureau and Dockets Reference room will be open Monday - Friday 9:00am to 4:30pm. The Reference Room is located at 1919 M Street (room 239)

ELSEWHERE

Drake-Chenault/Jones second format will debut June 1st. The new service is a very uptempo AC/oldies mix. The service is available 24hrs a day on a cash basis. The format covers all breaks and does not require clearing any commercials.
