WASHINGTON THIS WEEK

In response to information indicating that its processes may have been abused by Sonrise Management Services, Inc. the FCC has instituted an investigatory proceeding pursuant to Section 403 of the Communications Act. The information before the Commission raised questions as to whether Sonrise, its applicants, and their attorneys, consultants and advisors have engaged in a pattern of conduct that constitutes an abuse of the Commissions processes and may also violate the Criminal Code.

The FCC has denied Catocotin Broadcasting Corp. reconsideration of its decision denying Catocotin's applications for renewal of the license for WBUZ, Fredonia, NY. Catocotin has asked the FCC to reconsider its decision based on the granting of a settlement agreement in the RKO KHJ-TV case. The FCC rejected the argument stating that the public interest considerations that weighed in favor of the approving of the RKO settlement were not present in the WBUZ case.

The FCC is seeking comments on a request by Gerald Turro for a waiver of section 74.1231 to permit his translator W276AQ in Fort Lee, NJ to provide local programming. Gerald is seeking to program the translator 24hrs a day with entertainment, news, and public service broadcasts. Gerald states in his request that Bergen County, NJ, has no local commercial FM service and the translator will provide needed local service not available from near by New York City stations and will be supported by local advertisers who can not afford to advertise on "out of state, full service stations". Comments should be filed before September 5th, 1989, replies to the comments must be filed by September 20th.

Changes in BC DOCKET 81-742 relating to settlement agreements, transfers, transmitter site availability and other policies arising in the renewal and comparative renewal proceedings have been approved by the OMB. All applicants not yet designated for hearing that have relied upon the availability of the transmitter site of an existing licensee against whom they are competing will have an additional 30 days to amend their applications in accordance with the new policy to show reasonable assurance of site availability.

As part of the proceeding to amend the FM table of allocations for Kentucky and Tennessee the FCC has ordered WHHT, Cave City, KY and WCKQ, Campbellsville, KY to show cause why their licenses should not be modified to operate on new channels.

The FCC has deleted the window for 296A in Belzoni, MS. The FCC had issued a notice of the window after "inadvertently canceling" an existing permit.

WASHINGTON THIS WEEK

The FCC's new Commissioners, Sherrie Marshall, Andrew Barrett and the new Chairman Al Sikes have all been approved by the Congress. Sikes first action was to name Charles Schott as Chief of Staff. With the addition of two new members the Commission is at its full five members for the first time since 1987.

Dennis Patrick has referred to the Justice Department, for determination of whether criminal prosecution is warranted on findings from a year long investigation into abuses of its processes by Dr. Barnard Boozer. In a letter from Patrick to the Justice Department, Patrick stated evidence supported allegations that Boozer filed over one hundred applications containing fictitious names and forged signatures.

It is official the FCC has amended its rules to allow for non-commercial FM translators feed by satellite and terrestrial microwave. The action became effective August 9th.

The Commission has granted a permanent waiver to Great American TV and Radio of the one-to-a-market rule. This will allow Great American to keep its interest in WKRC-AM & TV, WKRQ(FM), in Cincinnati, OH, and WDAF AM & TV, KYYS(FM), in Kansas City, MO.

The FCC has affirmed the decision by the Review Board granting the applications of Tucson Community Broadcasting, Inc. for a new FM station at Tucson, AZ, and denying the competing application of Tucson FM Broadcasting Corp.

The FCC dismissed a request by Contemporary Broadcasting, Inc. seeking reconsideration of changes in the table of allocations at Palmyra, MO, and the returning as unacceptable their petition for changes at Columbia, MO.

Current FCC station counts show as of July 31st there were 4,965 AM stations, 4,222 commercial FM stations and 1,397 educational FM stations, CP's are not included in the FCC count.

TX new	New Ulm	add 92.3 A, "first Come/First Serve" Aug. 14

WASHINGTON THIS WEEK

An added note to last weeks dismissal of an application for renewal of licence for WLTA, Clarkesville, GA. The station will transfer as a new station to Clara Morris Martin. It remains on the air with a gospel format. Martin had filled a competing application for WLTA earlier this year.

The FCC has affirmed their initial decision and granted the application of Kent County Radio, LP for a new FM at Smyrna, DE. and denied the remaining four competing applications.

In a case dating back to 1983 the Commission has granted the application of Comstock Broadcasters, Inc. for a new FM station at Sparks, NV, and denied the competing application of Pepper Schults. Exactly what facilities this station will have is not clear as we show no applications pending for Sparks in either our database or our copy of the FCC database.

The FCC denied a petition by Donald E. Hilgendorf for reconsideration of an order remanding to the ALJ the proceeding involving his application and the competing application of Tran Broadcasting Corp., Inc. for a new FM at Brookfield, WI.

The FCC has also denied Bushland Radio Specialties' request for reconsideration of changes to the FM table at Chippewa Falls. The FCC had denied WCFW's request to move to 106.1 C2 from 105.5 A.

INTERNATIONAL BROADCASTING

WWCR, Nashville, TN, has had its application to make changes in its antenna system dismissed.

ELSEWHERE

In radio related news Jeff Smulyan of Emmis Broadcasting along with another Indianapolis businessman has bought the Seattle Mariners baseball team. Smulyan stated he would keep the team in Seattle.

WASHINGTON THIS WEEK

The FCC has initiated enforcement actions against three broadcasters for "indecent broadcasts". The Commission sent letters to: Evergreen Media Corp. for portions of the "Steve and Gary Show" on WLUP(AM), Chicago, IL. Narragansett Broadcasting Co. of California for portions of the "Perry Stone Show" on KSJO-FM, San Jose, CA. Great American TV and Radio Co. for portions of the "Bob and Tom Show" on WFBQ-FM, Indianapolis, IN. The actions were initiated after review of complaints and supporting materials received by the FCC. The Three stations have 30 days to explain their actions, after receiving their responses, the Commission will decide whether a violation has occurred and, if so, what sanction to impose.

The construction permit for KINW in Wallace, ID, for a new FM on 100.7 MHz has been canceled and the call sign deleted. The licensee for KINW was John W. Kendrick.

WEYS(FM), Institute, WV, has had its application for a "licence to cover" dismissed. The station was on 90.9 MHz and licensed to Kanawha Economic Development Corp.

FCC Commissioner Patricia Diaz Dennis has expected as resigned effective September 30th. Ms. Dennis will take a position with a local law firm.

A reminder that the FCC's revised forms 301 and 340 must be used as of September 1st, 1989. the forms can be obtained from the FCC's Operations Support Division, Services and Supply Branch, Room B-10, 1919 M Street, NW., Washington, DC, 20554, their phone number is 202-632-7272.

ELSEWHERE

The Transtar Radio Networks, The Research Group and The United Stations Networks have merged to form The Unistar Network. The new network will repackage station groups for sales purposes but has not announced any programming or staff changes.

Birch Radio has announced they will add continues measurement (four reports per year) to markets 110 to 160. These markets had been surveyed two times per year.
