WASHINGTON THIS WEEK

Roy J. Stewart has been named Chief of the FCC's Mass Media Bureau. The Bureau is responsible for administering FCC rules and policies for commercial and noncommercial AM, FM and TV broadcast services as well as cable and direct broadcast satellites. The appointment is effective October 1st.

Commissioner Sherrie Marshall has announced three of her staff members, they are Lisa A. Hook, Diane J. Cornell and Peter D. Ross. Hook will be Senior Legal Advisor, Cornell will be Legal Assistant for common carrier matters and Ross will be Legal Assistant for mass media issues.

The FCC has dismissed a petition by Radio South, Inc. for reconsideration of a report and order allocating 92.5 A to Trinity.

The Commission denied Mark A. Perry's appeal of ALJ John M. Frysiak's Order dismissing his application for a new FM at Crossville, TN.

The NAB along with 16 other media and public interest groups, has asked a federal appeals court to decide its appeal to strike down a 24 hour ban against the broadcast of "indecent" material and not return the case to the FCC as the agency has requested.

Also from the NAB comes the announcement that their Radio Tele-Service will begin on November 1st, 1989. For more information on tele-marketing of NAB services and membership give Donna Leonard, VP Radio, a call at 202-429-6400.

* * * *

The 1989 M Street Radio Directory is at last back from the printer and shipping!

The directory includes information on station ownership, address, telephone numbers, formats, technical information, markets, and many more items of interest for every radio station in the U.S. We have also included Arbitron & Birch 12+, Mon.-Sun., 6am-12mid, percent figures for every rated station. Over 600 pages of station and market listings, frequency and call letter cross references as well as pending AM & FM station applications. There is also a section on Canadian radio and U.S. short-wave stations.

If you have already ordered your copy look for it soon, if you need a copy give us a call at (703) 684-3622.

--------	-------------	-------------

WASHINGTON THIS WEEK

The FCC was closed on Monday September 5th, resulting in fewer releases last week. However the call letter department managed to get caught up and released the long list you see reported this week.

The Commission has released a study on "Electric and Magnetic Fields and Contact Currents Near AM Standard Broadcast Radio Stations". The study looks into RF radiation near AM towers and is intended to provide additional information for determining guidelines for safe human exposure. Copies of the study are available from the National Technical Information Service at 1-800-336-4700.

The FCC has denied Iowa Radio, LP review of an ALJ dismissal of its application for a new FM at Ankeny, IA.

The application this week of WKOL(AM) on 1570KHz to move to Ballston Spa, NY, from Amsterdam, NY, will if approved allow the proposed new owner, Gateway Broadcasting Corp. to keep its co-located WCSS(AM) on 1490KHz in Amsterdam.

New FCC counts show 10,600 radio stations, 1,424 TV stations, 1,778 translators/boosters, and 558 LPTV stations.

FM ALLOCATIONS: DISMISSED AMENDMENTS

NY WNGZ	Montour Falls	to 99.5 A from 104.9 A
---------	---------------	------------------------

WASHINGTON THIS WEEK

The Technical Subgroup of the Advisory Committee on Radio Broadcasting will hold its next meeting on Tuesday, October 3rd, 1989, at 10am. The Group will consider: adjacent channel interference standards for AM stations, the proposed U.S./Mexican expanded AM band agreement, and other radio business. The meeting is open to the public and will be held in the McCollough Room of the NAB, 1771 N. Street, N.W., Washington, D.C.

The NAB has asked the FCC to dismiss the request of Gerard Turro to program his translator in Ft. Lee, N.J. with original programming. Turro maintains his area is under served by near by stations and is in need of local programming. The NAB's view is that Turro's claim is not documented and that existing stations do serve his community. The NAB said that if the FCC does consider the request it should be done only in the context of a future rulemaking proceeding which should address a wide range of FM translator related issues.

Also from the NAB comes the word that a new issue of "A Broadcasters EEO Handbook" is available. The book provides a working knowledge of the requirements and prohibitions of federal laws, as well as suggestions for avoiding and defending against discrimination claims. With the FCC's current campaign on EEO issues this book may come in handy. It is available to both NAB and non-NAB members by calling (800)368-5644.

WASHINGTON THIS WEEK

The FCC has extended to October 4th the date for filing replies on the requested waiver of W276AQ in Fort Lee, NJ, to originate local programming.

The FCC has released a reminder to broadcast station managers and engineers to make sure they are familiar with the rules pertaining to the Emergency Broadcast System. Items on a suggested reading list issued by the FCC are: Section 73.926, Participation in the EBS, Section 73.935, Day to day emergencies, Sections 73.936 & 73.937, EBS operation is a state/local emergency, Section 73.1250, Broadcasting emergency information, Section 73.1635, Special Temporary authorizations, and Section 73.1680, Emergency antennas. Over the past few months the FCC has released several of these reminders to stations and most have been followed up with actions against non-complying stations.

The NAB and the Electronic Industries Association Consumer Electronics Group have agreed to enter into a joint program to promote high-quality AM sound. The two plan to push the use of the NRSC standards to improve AM radio transmission and reception quality. A logo will be developed for the faceplate of high-quality AM receivers to promote the use of the NRSC standard in the units construction.

M STREET

The 1989 M Street Radio Directory is now available. It is over 600 pages, 6x9, softbound and a very handy guide to all the stations in the United States. If you would like a copy or need additional copies the cost is \$29.95 + \$2.50 (S&H) and can be ordered by check at Box 3568, Alexandria, VA, 22302 or for Visa/Mastercard orders give us a call at (703)684-3622. For orders in groups of 6 or more the cost is \$24.95 each.
