WASHINGTON THIS WEEK

Two more station owners have been fined and had EEO reporting conditions added to their licence renewals. WTMA/WSSX-FM, Charleston, SC, has been fined \$20,000 for failure to comply with the FCC's EEO provisions. WBBE/WMGB-FM, Georgetown, KY, have received permission to assign their licenses to Kentucky Radio Partners but must pay \$18,000 also for failure to comply with EEO provisions. The new owners of WBBE/WMGB-FM are now subject to the reporting conditions added to the stations licence renewal.

The FCC has granted the application for license renewal of Empire State Broadcasting Corp. for WWKB, Buffalo, NY, and denied the competing application of Bursam Communications to increase power of WTBE, Mineola, NY.

The FCC also granted the application of Royce International Broadcasting to renew the license of KWOD(FM) in Sacramento, CA, and denied the competing application of Wong Communications, LP.

Keffco, Inc. has had its petition for reconsideration for a FM channel substitution at Creswell, OR, denied.

WASHINGTON THIS WEEK (cont'd)

The Commission has denied a request by Midwest Broadcasting Company, Inc. KOTV, Inc. and Demaree Media, Inc. to amend the FM table at Broken Arrow and Bixby, OK as well as at Coffeyville, KS.

The application for renewal of licence for KMAX(FM)'s booster in West Hollywood has been dismissed.

The FCC's 54th Annual Report is available from the Government Printing Office. The price is \$4.25 and the stock number is 004-000-00481-7. Phone orders go to (202) 783-3238 and written requests go to, superintendent of Documents, GPO, Washington, DC, 20402.

In news from the NAB:

The NAB is working to help stations damaged by Hurricane Hugo. Stations that can help with needed equipment should contact the NAB Science and Technology department at (202) 429-5346

The NAB in a filing with the FCC has asked the Commission to clarify its new rules allowing some Class A FM stations not meeting distance separation requirements to increase their power. The NAB is urging the FCC to reconsider its policy of allowing class A stations to judge interference to other station by using signal contour measurements instead of mileage separation.

ELSEWHERE

Arbitron has released its 1989 edition of the Radio Metro Map. The map is a great aid in keeping track of the 260 markets served by Arbitron. For more information on the map contact the Arbitron representative for your area.

WASHINGTON THIS WEEK

The Commission has taken the first step in the possible revocation of a broadcast licence of a convicted drug trafficker. The FCC is requesting comment from parties on whether an order to show cause to revoke Williamsburg County Broadcasting's license for WKSP(AM) in Kingstree, SC should be issued. The FCC stated that the felony conviction for drug dealing raises character qualifications questions under its 1986 Policy Statement on Broadcast Character Qualifications.

Legacy Broadcasting of Detroit, Inc., licensee of WLLZ in Detroit, MI, has been issued a Notice of Apparent Liability for a broadcast of a recording entitled "Walk with an Erection." The song was broadcast on January 21st, 1988 at 9am. The action carries a fine of \$2000.

The FCC will hold a special En Banc hearing to look into AM broadcasting and what improvements can and need to be made. The hearing will be open to the public and will be held Thursday, November 16th, 1989. Items to be covered include 1. AM improvement and the future of AM radio; 2. Uses of the expanded AM band (1605-1705 KHz); 3. AM technical improvements and station assignment policies; 4. AM stereo transmission and its impact on AM technical criteria and assignment policies; 5. The importance of receiver quality to the future of AM Service. The format and schedule of the meeting will be announced. For more information contact William Hassinger at (202) 632-6460.

The Technical Subgroup of the Radio Advisory Committee will meet next on Wednesday, October 25th. The meeting is open to the public, for more information contact Wallace Johnson, Chairman, at (703) 824-5660.

The NAB is asking the FCC to improve some provision of the Emergency Broadcast System in order to increase the systems reliability and usefulness. In its filing, the NAB called for a shorter EBS attention signal, revision of the test script, further automation of the systems operations, and a rule making proceeding to explore these and other system improvements.

M Street Comment

In a letter being sent to FM broadcast construction permit holders by the Trinity Broadcasting Network it states that they are seeking to purchase broadcast CP's. The reason they want the CP's is "... in order to expand its (Trinity's) network of translators." With all the work that goes into an FM assignment and the the required showings of service to the community, not to mention all the concern of Congress, the FCC, the NAB, special interest groups and the listeners, it seems strange to consider a new broadcast service as a big translator. Perhaps it is time to either open the AM & FM band to all, in a free market system or to start making community service a real requirement. The present system of paying only lip and legal service to community service while doing what you please in reality, is not working. In a phone call to Trinity no one could be found who wished to comment on their letter.

M Street Format Counts

The M Street Database tracks formats for all radio stations in the United States. M Street divides stations into over 750 formats and combinations. The following list groups stations into their base formats as of October 6th, 1989. Full and custom reports of the information in The M Street Database is available.

<u>Primary Format</u>	<u>Commercial</u>	<u>Non-Commercial</u>

FM ALLOCATIONS: DISMISSED AMENDMENTS

CA new Beaumont add 101.7 A

WASHINGTON THIS WEEK

The FCC was closed on Monday October 9th, to observe Columbus Day. This weeks actions reflect FCC activity from Tuesday the 10th through Friday the 13th.

After several attempts the FCC has apparently granted the application of Resort Broadcasters to transfer WWTR AM/FM, Bethany Beach, FL, and WETT AM, Ocean City, MD, to Holmes P. Harden, Trustee and in turn to KAT Broadcasting.

The Commission has denied an appeal by Glory FM, LP over the denial of Glory's application for a new FM at Calhoun, TN.

The FCC station counts for September show 4,695 on AM, 4,240 on FM, and 1,407 translators.

The NAB and the Broadcast Financial Management Association have published the 1989 Radio Financial Report. The report includes a set of more than 100 tables for 1987 and 1989 showing various revenue and expense categories by station type. Advertising revenues from the average station come from, 77.9% local, 20.4% national/regional, and 1.7% network. The expenses came from, 41% general and administrative, 21.3% production, 19.4% sales, 9.9% advertising and promotion, 4.4% engineering, and 3.9% news. the report is available from NAB Services at (800) 368-5644.

ELSEWHERE

The FCC's office in Dallas, Texas has the following new numbers:

Recording number: 214-235-3369
Public numbers: 214-767-4827 and 4828

INTERNATIONAL BROADCASTING

High Adventures Ministries has been granted a new short-wave station at Piti, Guam. The call letters are KURN and it will broadcast with a maximum power of 100 Kw.

M Street

A reminder that the new M Street Radio Directory is now available. At over 600 pages and with listings for every radio station and market in the United States it is a great desk reference book. It can be ordered by check at our address or by Mastercard or Visa at (800)248-4242. The price is \$29.95 + 2.50 (S&H).

WASHINGTON THIS WEEK

Bryon F. Marchant has been named as Mass Media Advisor to Commissioner Andrew C. Barrett. Marchant is currently an attorney with the Washington D.C. office of Sidley and Austin, A Chicago-based law firm, where he works on mass media, private radio and corporate matters.

The FCC has affirmed the return of Emmy Hahn, LP's application for a new FM station at Irondequoit, NY. The application was originally returned because of its short-spacing to WPCX(FM) in Auburn, NY.

The San Francisco office of the FCC has new phone numbers to report.

The public numbers are: 415-705-1101 & 1102
The recording number is: 415-705-1100

A correction to last weeks Washington this week, WWTR(FM) is in Bethany Beach, DE.

ELSEWHERE

Arbitron has announced they will not produce a fall 1989 Radio Report for Charleston, SC, due to the effects of Hurricane Hugo. Local clients were offered a choice of an abbreviated report, a substitute report or as chosen to skip this report. The next report for Charleston will come in Spring 1990.

M Street

In answer to the question most asked this week - YES - we do offer custom reports of the format information we ran in the Oct. 9th, issue.

We offer custom listings of all our station information. Our computer can include just the fields of information you need printed in any sort order you want and include any background text needed. Available now are mailing labels, dial cards, city/market/state/area and national reports, format listings and many more. Prices depend on the service.

For a pre-printed copy of our data we offer our 1989 Radio Station Directory. Available for the very reasonable price (if we do say so ourselves) of \$29.95 plus \$2.50 shipping. It contains the most often ask for information from our database. At over 600 pages it has a lot to offer.

For more information on any of our services give us a call at 800-248-4242.

WASHINGTON THIS WEEK

The Mass Media Bureau has taken action on its backlog of 95 indecency complaints filed over the last two years. 51 of the complaints were not pursued because they occurred outside daytime hours; fourteen complaints were dismissed as defective; twenty-one were dismissed as not meeting the legal standards for indecency; and one was dismissed as moot because the complaint was withdrawn and the station's license was renewed earlier this year.

Enforcement actions were instituted against eight stations. Four stations were issued notices of apparent liability for monetary forfeitures. The stations are WIOD, Miami FL (\$10,000); WZTA-FM, Miami FL (\$2,000); KLUC-FM, Las Vegas NV (\$2,000); and KFI, Los Angeles CA (\$6,000). Four other stations - KCCL AM/FM, Paris AR; KSD-FM, St. Louis MO; WWWE, Cleveland OH; and WXRK, New York NY - have been mailed inquiry letters seeking their comments on the complaints.

ELSEWHERE

After an initial sale agreement fell through, Ragan Henry has apparently succeeded in selling WXTR-FM La Plata MD (in metro Washington). For approximately \$33 million, the new owner is Radio Ventures I, which has also bought WWNC/WKSF Asheville NC and WMXB Richmond VA.
