WASHINGTON THIS WEEK

The FCC has affirmed a review board dismissal of an application by McCall Broadcasting for a new FM in Columbus, Ohio, for "willful and repeated failures to comply with the ALJ's discovery orders."

ELSEWHERE

TNNR (The Nashville Network) has decided to cease operation of its full time, satellite-delivered country format June 30. The company, a joint venture of Group W Satellite Communications and Opryland USA, will continue to offer special and weekend radio programming; its cable television operations are unaffected by the move. As of June 1, TNNR had approximately 30 full time affiliates.

Communications lawyer Thomas Root pleaded guilty on Tuesday in Washington to five felony counts of forging and counterfeiting federal documents. He was scheduled for sentencing on August 6. Meanwhile, North Carolina authorities this week charged Root and three associates with 2,695 securities-related counts in conjunction with his efforts to defraud the FCC, clients and investors.

After a hiatus of nearly ten years, Herb Jepko has returned with a new national nighttime talk network based in Salt Lake City. In the late 1970's Jepko hosted Mutual Radio's overnight talk show before Larry King. He has tried several times to reassemble a network for his program after leaving Mutual in the early 80's. There is no word as to whether sidekick Tinkerbelle has also rejoined the program.

The National Association of Broadcasters has released a new report on broadcast technology. The report, based on a survey of 322 TV and 589 radio stations in late 1989, includes information on facility usage, auxiliary and subscriber services, and opinions on developing technology. For information, call NAB services at (800) 368-5644 or (202) 429-5376.

M STREET

The response so far to our new, 1990 edition of the M Street Radio Directory has been great! If you haven't gotten your copy yet - or if you need six more for the office - they're still available at the special price of only \$20.00 (plus \$2.50 shipping & handling) to M Street Journal subscribers. Write, fax or phone today: Box 3568, Alexandria VA 22302; (703) 684-3622.

If you have gotten your copy, we hope you'll take the time to look over the listings for stations in your area and let us know of any changes or corrections. We're constantly updating our database, but we still depend on you, our readers, to keep us up to date on local radio across the country.

MO new	Halfway	add 93.1 A, window opens July 24, closes Aug. 23

WASHINGTON THIS WEEK

The FCC has amended its rules to modify the forfeiture amounts that can be imposed by the Commission. Under a new Congressional amendment to the Communications Act, fines for broadcast licensees can now range up to \$25,000 per violation or per each day of a continuing violation, provided the total amount does not exceed \$250,000 for any single act or failure to act.

McCall Broadcasting was denied review of an FCC decision in a case involving six mutually exclusive applications for a new FM in Columbus, Ohio.

The FCC released the following count of licensed station totals (not including new station construction permits) as of May 31, 1990:

AM Radio	4,979
FM Radio	4,308
<u>FM Educational</u>	<u>1,430</u>
Total	10,717

ELSEWHERE

Rawlco Communications, owner of CFGO-1200, has been granted a new FM license in Ottawa, Ont. Unfortunately, since the CRTC (licensing) and Dept. of Communications (technical facilities) are operated separately, Rawlco must still identify and engineer a frequency, power, tower height and location for the new station. It is not expected to be on air for at least a year.

Also in Ottawa, Radio & Records reports that the DoC and the Canadian Association of Broadcasters begin testing this week on testing of digital radio broadcasts. Rapid development of digital technology has raised the possibility of the complete replacement of AM and FM broadcast technology in the next decade; the Ottawa tests will be the first measurement in North America of digital broadcasting's performance over actual terrain.

JULY BFM CALENDAR NOTES

By July 10th, stations should place the quarterly Issues/Programs List for April 1-June 30 in your public inspection files; and stations with tower lights should conduct your quarterly tower light inspection and record the results in station logs.

State Association Meetings: Colorado, July 19-21; Idaho, July 21-23.

M STREET

In addition to our great publications, M Street can also provide customized data for your research, mailing or marketing project (e.g., labels & lists). We can create any combination of variables from the information you see in this newsletter or in the M Street Radio Directory. For more information, call us: (703) 684-3622.

**WASHINGTON THIS WEEK**

In a move that could change the way the FCC determines first service to a community and what exactly constitutes a community for licensing purposes the FCC reversed its Review Board's selection of South Jersey Radio's application to go one on one with RKO for the facilities of KFRC, San Francisco. South Jersey had specified in its application that it would move the station to Richmond, CA a San Francisco suburb. The Commissioners determined that Richmond did not qualify as a distinct and separate community and as such South Jersey should not be given preference over the remaining applicants. The specifying of a suburb as a new community of license has been used many times to demonstrate first service to a community for the purpose of adding FM Allocations and for major AM improvements. With the FCC decision the case will head back for more hearings to determine the outcome of RKO's last station.

The FCC has handed down more fines for EEO and tower lighting violations. KPSL(AM) was fined \$10,000 for failure to comply with FCC tower lighting rules. KPSL is currently off the air, even so a silent station is still required to comply with all FCC rules.

The FCC granted a short-term renewal of license and fined Dakos Broadcasting \$18,000 for it's failure to comply with FCC EEO rules. Dakos operated WAPG & WCKD in Arcadia, FL. The Commission has denied Dwyer Broadcasting's request to lower the fine for failing to comply with EEO rules at WOOJ AM & FM in Lehigh Acres, FL. Dwyer had maintained it had made some effort at EEO and should only pay \$5,000 of it's \$15,000 fine. The FCC said it takes into consideration all EEO activity before it sets the fine.

The FCC is serious about EEO and is sensitive to items relating to the FAA, such as tower lighting. Take the time to check on your station or groups status now, it may save you thousands.

The FCC has upheld and reaffirmed its people in several cases: Reaffirmed the decision approving the settlement agreement of James U. Steele and Dale Bell for a new FM at St. Simons Is., GA. Upheld the Review Board decision granting the application of Kent County Radio, LP for a new FM at Smyrna, DE. Upheld the Mass Media Bureau action returning the application of Chester County Broadcasting's petition to amend the FM table at Chester and Wedgefield, SC. Affirmed ALJ Edward Kuhlmann's denial of a request by Crescent Radio, LP to disqualify himself from the Avalon, CA, FM proceeding.

An increasing number of station sales are failing (due to financing or other difficulties) after the license transfers receive FCC approval. Often there is no notification by the FCC that these sales never closed - so we need your help in tracking them. If you know of sales that did not go through or were called off, please let us know: phone or fax 703-684-3622, or drop a note to Box 3568, Alexandria VA 22302.

FM ALLOCATIONS: GRANTED AMENDMENTS

IL WTAO	Murphysboro	to 105.1 B1 from 104.9 A
---------	-------------	--------------------------

WASHINGTON THIS WEEK

In a surprise decision Wednesday, the Supreme Court upheld FCC and Congressional policies favoring women and minorities in distress sales and new license

WASHINGTON THIS WEEK (Cont'd)

applications. By a 5-4 vote in cases involving a Connecticut distress sale and a new Florida TV station, the court ruled that these affirmative action policies do not unfairly discriminate against white males. The decisions were not expected in light of recent rulings against affirmative action and political pressure to repeal the FCC's policies.

The FCC released a list of FM Class C2 and C facilities subject to downgrading. C2 stations with less than 25,000 watts and a radius within the 1 mv/m contour of less than 39 km will be subject to reclassification to Class C3 or A, as appropriate; Class C FMs with over 100,000 watts but a 1 mv/m radius of under 72 km will be downgraded to Class C1 or C2, as appropriate. Stations must apply by June 3, 1991 for at least minimum facilities for their current Class; if no application is received by that date, the station will be automatically downgraded.

**M Street has the list of approximately 200 stations subject to downgrading. For a copy of the list, send \$3.00 to M Street, Box 3568, Alexandria VA 22302.**

More EEO fines: The FCC has granted license renewal, with reporting conditions and a \$10,000 forfeiture, to WAVW in Vero Beach, FL. The FCC has also notified KSJO, San Jose CA, of a notice of apparent liability for \$20,000 for violations of obscenity guidelines on the station's former morning show.

Comments are being sought by the FCC in two recent filings. Two petitions for reconsideration have been filed against the FCC's Policy Statement and Order on Character Qualifications in Broadcast Licensing; comments are due by July 7, 1990. An additional pleading has been received in the FCC's FM directional antenna proceeding; parties wishing to file pleadings in response must do so by July 20.

In other decisions this week, the FCC: denied Tri-State's request for reconsideration of the FCC's denial of license renewal for KUKQ/KUPD Tempe, AZ; affirmed a decision by an ALJ judge who declined to recuse himself from an Avalon, CA FM proceeding; denied review of the grant of a new FM in Smyrna, DE to Kent County Radio, LP; denied reversal of the dismissal of a new station application in Key West, FL by South Star Communications; and upheld the grant to Yeary Broadcasting of a new FM station in Lebanon, VA.

The FCC has a new zip code in Detroit! The correct address for the FCC's Detroit office is now: 24897 Hathaway St., Farmington Hills MI 48335-1552. There is also a correction to the previously run phone number for the FCC's Denver office; the correct number is 303-969-6497.

ELSEWHERE

A U.S. District Court jury in Chicago has awarded three former WXEZ air personalities over \$100,000 each in damages and back pay. The three - ages 59, 57 and 61 - had filed suit against Century Broadcasting after WXEZ, seeking a "more youthful image," fired the three during its 1988 switch from easy listening to soft AC.

M STREET

A tally of formats in M Street's radio database puts the number of AM stations fully simulcasting their FMs at an all-time high of 625 stations. This represents 21% of all AMs that have an FM sister station, or more than 1 of 5 stations; and 12% - 1 out of 8 - of all AM stations. The total does not include AMs simulcasting only part of the day (e.g., nights, or a morning drive show.)
