DEPARTMENT OF COMMERCE,
BUREAU OF NAVIGATION,
Washington, August 1, 1919.

To collectors of customs, radio inspectors, and others concerned:

This publication, which was discontinued during the war, is issued monthly by the Bureau of Navigation, Department of Commerce, and distributed to the United States officers engaged in or concerned with the enforcement of the radio laws for their guidance and instruction, and to those concerned with the operation of Government and commercial radio stations for their information.

The Radio Service Bulletin supersedes the quarterly supplements to the List of Radio Stations of the United States and contains information concerning Government, commercial, and special stations only.

The Bulletin contains tables of new stations, alterations, and corrections under headings, so that the List of Radio Stations of the United States and the List of Radiotelegraph Stations, published by the international bureau at Berne, may be brought up to date. Additions, alterations, and corrections should be entered in these two publications promptly on receipt of the Bulletin.

Amendments to or changes in the Radio Laws and Regulations of the United States (edition of July 27, 1914) are printed in this Bulletin in such a manner that they may be clipped and pasted in their proper places in that publication.

Items of general interest concerning the enforcement of the radio laws are printed in the Bulletin from time to time, as occasion warrants.

E. T. CHAMBERLAIN,
Commissioner of Navigation.

Approved:

WILLIAM C. REDFIELD,
Secretary of Commerce.

ABBREVIATIONS.

The necessary corrections to the List of Radio Stations of the United States and to the International List of Radiotelegraph Stations, appearing in this Bulletin under the heading "Alterations and corrections," are published after the stations affected in the following order:

Name = Name of station.

G. loc. = Geographical location: O=west longitude, N=north latitude, S=south latitude.

Call = Call letters assigned.

System = Radio system used and sparks per second.

Range = Normal range in nautical miles.

W. L. = Wave lengths assigned: Normal wave lengths in italics.

Service = Nature of service maintained:

PG = General public.

PR = Limited public.

P = Private.

O = Government business exclusively.

Hours = Hours of operation:

N = Continuous service.

X = No regular hours.

m = a. m. (12m = midday).

s = p. m. (12s = midnight).

Rates = Ship or coast charges, in cents: c = cents. (The rates in the international list are given in francs and centimes. For approximate purposes, 1 franc equals 20 cents and 5 centimes equal 1 cent.)

Notes = Refer to notes in the Berne list.

LA PALMA STATION IN OPERATION.

Herewith is printed a copy of circular received from the Executive Office of the Panama Canal:

Circular No. 643-60.

BALBOA HEIGHTS, CANAL ZONE,
July 11, 1919.

The U. S. naval radio station La Palma, located on Stanley Island, at the head of San Miguel Bay (latitude $8^{\circ} 26' 00''$, longitude $78^{\circ} 08' 30''$) is now in operation. The station is located $1\frac{1}{2}$ miles from the town of La Palma, R. P., in the Darien District, Province of Panama.

La Palma is operated by the U. S. Naval Communication Service and is prepared to handle United States and Panamanian Government dispatches free of charge. The station also handles commercial traffic at rates which may be obtained from the naval radio station, Balboa, Canal Zone.

The following daily schedule of watches will be maintained by La Palma Radio: 5 to 10 a. m.; 12 noon to 3 p. m.; 5 to 8 p. m. All messages for this station will be handled via Balboa radio on above schedules. Messages received at Balboa at any time outside of schedule can not be transmitted until the following schedule.

(Signed) CHESTER HARDING,
Governor.

RESTRICTIONS ON RADIO AMATEURS REMOVED.

Effective October 1, 1919, all restrictions on amateurs and amateur radio stations are removed. This applies to amateur stations, technical and experimental stations at schools and colleges, and to all other stations, except those used for the purpose of transmitting or receiving commercial traffic of any character, including the business of the owners of the stations.

The restrictions on stations handling commercial traffic will be removed as soon as the President proclaims that a state of peace exists.

Attention is invited to the fact that all licenses for transmitting stations have expired and that it will be necessary for amateurs to apply to the Department of Commerce, Bureau of Navigation, for new licenses.

NOTIFICATIONS FROM THE BERNE INTERNATIONAL BUREAU.

CANADA.

Beginning July 24, the restrictions concerning radio telegrams have been raised. Consequently, conditions which existed before the war have been reestablished.

GREAT BRITAIN.

Under date of August 7, the General Post Office at London advised the Berne bureau that it has raised the restriction affecting transmission of private radio telegrams bound for or from a coast station or a ship station under British authority in the waters of the Mediterranean Sea.

ITALY AND ERYTHREE.

On August 15, the following coast stations were opened to general public communication: Genoa, Naples, Cape Sperone, Vittoria, San Cataldo, Bari, Ancona, Venezia, and Massaua.

AMATEUR RADIO OPERATORS.

Before operating transmitting stations it is necessary to take an examination and secure an operator's license and have on file with the district radio inspector a formal application for station license. If there will be delay in issuing your station license, the radio inspector can assign radio call letters when the application is received.

All amateurs should be familiar with the Radio Laws and Regulations. This publication can be procured from the Superintendent of Documents, Government Printing Office, Washington, D. C. Price, 15 cents.

All transmitting sets should be inductively coupled. Stations having what is known as plain aerial, or the spark gap directly in the antenna circuit, will not be licensed where they do not comply with regulations 3 and 4 of the act of August 13, 1912.

The List of Radio Stations of the United States, edition of June 15, 1919, does not contain amateur stations. This publication can be procured from the Superintendent of Documents, Government Printing Office, Washington, D. C. Price, 10 cents.

A list of amateur stations may be published about the 1st of January, 1920.

Any additional information required by amateurs may be obtained from the radio inspectors of their districts. Their addresses follow:

Radio Inspector, Customhouse, Boston, Mass.
 Radio Inspector, Customhouse, New York, N. Y.
 Radio Inspector, Customhouse, Baltimore, Md.
 Radio Inspector, Customhouse, New Orleans, La.
 Radio Inspector, Customhouse, San Francisco, Calif.
 Radio Inspector, Federal Building, Detroit, Mich.
 Radio Inspector, Federal Building, Chicago, Ill.
 Radio Inspector, 205 Citizens Bank Building, Norfolk, Va.
 Radio Inspector, 2301 L. C. Smith Building, Seattle, Wash.

The territory covered by each district is shown on page 68 of the Radio Laws and Regulations. Amateurs in the fourth district (headquarters, Savannah, Ga.), should address their communications to the Radio Inspector, Customhouse, Baltimore, Md.
