WHOLESALE

Largest Radio Parts Jobber West of Chicago
ONLY THREE STATIONS IN SOUTH AFRICA

South Africa has only three broadcasting stations and these operate on low power and thus serve small areas. Consul Cecil M. P. Cross, of Cape Town, has reported to the Department of Commerce. The stations are located at Durban, Cape Town, and Johannesburg, and all are owned by a single company.

Most of the broadcasting is in English although parts of every program are given in Afrikaans, which is the language most widely used in the farming communities. Talent is limited and phonograph records are still largely relied upon.

The stations are financed largely by license fees on the receiving sets. Advertising forms only a small portion of the income and consists chiefly in the reading of announcements.

APPELLATE COURT UPHELD AS SUPER-COMMISSION

The Court of Appeals of the District of Columbia is in effect a Super-Radio Commission, whose decisions in radio matters are administrative rather than judicial and not subject to review, the United States Supreme Court held in dismissing the Commission's appeal in the WGY case.

A hint of the attitude of the Supreme Court had been given several months previously when the Justices declined to hear argument of the General Electric counsel on the ground that it was unnecessary. This was the first opinion the court has rendered concerning the regulation of radio.

This view of the Appellate Court has already been incorporated in the Cauzens Bill for the creation of a Communications Commission. A provision in the measure specifies that only in matters of law can radio cases be carried higher than the District Court.

The opinion, written by Justice Van Devanter, closes one of the most notable and longest radio cases on record. It dates back to the first general reallocation order of the Radio Commission in November, 1928. WGY was then reduced to limited time on the 790 kilocycle channel, on which Station KGO, of Oakland, Calif., also a General Electric station, was placed on full time. The Schenectady station took an appeal to the Court of Appeals, which reversed the Commission's decision.

STATION TAKES BLAME FOR LATE CHANGES

Instead of leaving the Radio Editors "high and dry", as is frequently the case when radio stations make late changes in their schedules, Station WAIU announcers at Columbus, Ohio, explain on the air that it is not the fault of the press when the printed announcements and the actual program do not agree. When a change that is too late to get in the papers is made, the following announcement is placed on the air:

"Because of an emergency, WAIU has been forced to make a change in its schedule as announced to the press, and therefore, it is through no fault of the Radio Editors that this station's schedule appears incorrectly.

Western Broadcasters please note.

NEWSPAPER PLANS TELEVISION UNIT

The Milwaukee Journal, which now operates Station WTMJ, has applied to the Federal Radio Commission for authority to erect a television station as well. The application specifies the 2800 kilocycle channel in the continental short wave band.
The New Falck

TABLE MODEL

Complete with Tubes and full DYNAMIC SPEAKER

$59.50

Never before has such a high-grade set as this Model 77 FALCK, complete with tubes and Dynamic Speaker, sold for a price anywhere near as low as $59.50.

It is a set that will blend with its surroundings and that anyone should be proud to own. The cabinet, in beautiful rubbed walnut, is of a striking modern design.

Here are the specifications:
1. Completely licensed under RCA, Hazeltine, and La Tour patents.
2. Complete with all A. C. tubes.
3. Equipped with full Dynamic Speaker.
4. Illuminated kilocycle reading dial.
5. Unusually sturdy, completely shielded chassis.

Don't fail to see this fine set before buying a radio.

ADVANCE ELECTRIC CO.
Established 1915

1260 West 2nd St. Los Angeles, Calif.
The melodic voices of the Dare Sisters are not the only attractive things about these two KMTR artists, as you will quickly see by glancing at our cover this week. Dorothy and Mary Dare have been singing lilting melodies for quite some time over local broadcasting stations and for the last eight months exclusively over KMTR. You may enjoy these entertaining young ladies every Sunday evening between 9 and 10; Saturday nights on the Mickey Mouse program; Thursday evening at 8, and other times, not on regular schedule, over the Hollywood station.

KFWI, San Francisco, announces the removal of its studios to the Bellevue Hotel, Geary and Taylor Streets, San Francisco. KFWI, also of the northern city, recently changed its call letters to KROW, retaining former frequency, power and location.

To all Charlie Hamp fans—we have it on good authority that the "cello-voiced" radio entertainer is leaving California for Cleveland, where he has signed a long term contract with a Cleveland station.

The new Russian Gypsy Orchestra, under the brilliant leadership of Gregory W. Golubeff, formerly concert master of the Imperial Russian Balalaika Orchestra, will be heard each Sunday evening from KYA between the hours of 5 and 6.

KHJ announces that Anthony Euwer, the distinguished poet, artist, lecturer and radio personality, will talk a little about most everything to the air audience daily, 7:30 to 7:45 a.m. Mr. Euwer gained radio recognition as the Bard of the Air and Philosopher of the Cross Roads on the old ABC chain. He has a rare power of description gilded with humor; his approach to the world is entirely human and sympathetic. On Sundays, Mr. Euwer's chat is scheduled for 8:45 in the morning.

The Happy Chappies, dressed identically, debonair, and with the undefinable poise born of long years on the stage, have joined the featured artist ranks of KFI-KECA. They are Nat Vincent and Fred Howard, song writers, singers and pianists. Two numbers only from the hundreds of hits which they have written are sufficient to endear them to the hearts of the radio public. "I'm Forever Blowing Bubbles" and "When the Bloom is on the Sage."

It is not too late to get the gist of the inhuman and supernatural new mystery serial, "The Haunted House of Kil-dare," by Gene Homer Griffith, which is being given over KMP every Tuesday night at 9.

Dick Dixon purveys some brilliant organ melodies six nights a week at 11 p.m. over KGER, Long Beach. This is known as the "Quiet Time Tunes" and as such carries no announcements except the station call letters.

Seymour Hastings, well known in all fields of radio in Southern California, is now conducting a series of interesting talks entitled "Seeing Southern California." His schedule is as follows: Tuesday, Wednesday and Friday over KNX at 9:10 a.m.; KFWB, 10:45 a.m.; KECA at noon; KFI, 12:30; and KFOX, 3:45 p.m.

If your interest is intrigued by oddities, you will be entertained by KOL's Friday night program. It is called "Would You Believe It?" and the time is 7:30 p.m.

The Tuesday Noon Club of KYA brings Tex Frolich to the microphone with thrilling tales of adventures in the air. Out of 10,000 flying hours which Tex has to his credit, approximately 3000 of them were obtained during the World War. Flying enthusiasts as well as lovers of thrilling stories will enjoy these talks by a man who thoroughly knows his subject.

**Questions & Answers**

*Weekly Department Conducted by K.G. Ormiston, IRE*

**QUESTION**—I notice that some sets advertise an "automatic volume control." Will you explain what is meant by this, and does it eliminate the usual volume control knob?

H. T., Los Angeles.

**ANSWER**—This is a method of controlling the grid bias on the RF amplifier tubes, by means of an additional tube. In operation, it has two advantages. The first is that it prevents local stations from blasting in with very heavy volume when you pass over one with the volume control set for a weaker station. For example, assume that you live near Los Angeles. You are listening to KPO, and then want to tune up to KFSD. As you pass over KFI, it is unnecessary to touch the volume control, because, automatically, KFI will have no greater volume than KPO and KFSD. And as you run up and down the dial, practically all stations will come in with the same volume. The sensitivity of the set is automatically reduced when you strike a strong local signal, and increased when you come to a weak signal. The second advantage is that it eliminates fading to a large extent. You have noticed how semi-distant or distant stations fade in and out while you are listening to them, without your touching the set at all. This is a natural phenomena, due to a shifting of the Heaviside Layer, and until now there was nothing that could be done about it, unless you kept your hand on the volume control and kept pace with the fading by raising and lowering the volume. With the automatic volume control, however, this is done automatically, so that the signal is reproduced with an even volume. When the signal has a tendency to fade below the volume for which you adjusted the set, the sensitivity will automatically increase just as though you had manually turned up the control, and will again decrease when the signal surges back strongly.

Of course, when the fading is so bad that the signal fades out entirely with the volume control wide open, the automatic feature will not bring it back any more than you could build up an inaudible signal after your manual volume control is already wide open.

**QUESTION**—Will you please explain what is meant by "Tone Control" as incorporated in radio receivers?

H. T., Los Angeles.

**ANSWER**—This is a variable filter circuit connected in the audio amplifier channel which serves to suppress either the high end of the frequency range or the low, as the case may be. It enables the set operator to thus alter the overall frequency characteristics of the set, to produce music of a nature pleasing to his particular ear. It is based on the assumption that there is a variation in the human ear in its response to music frequencies, and that, therefore, the matter of personal taste enters into the question of tone fidelity. In other words, does the listener want reproduction, which is as nearly accurate as it is possible to make it, or does he want what best suits his own ear and his own conception of how the music should sound. Some manufacturers take the former stand, and some provide the tone control which, by the turn of a knob, causes either the high or low frequencies of the music to predominate. This knob can be adjusted for the normal full-range reproduction, of course, when desired.

**NBC Acquires KTAR**

Outstanding stars of the radio world will be heard by the radio audience, Sunday, June 8, when station KTAR of Phoenix, Ariz., becomes associated with the National Broadcasting Company.

"Arizona on NBC Parade" is the gala program arranged in celebration of the inaugural in which New York, Chicago and the Pacific Coast divisions will participate.

Broadcast through the nation-wide network of NBC stations. The program will begin promptly at 7:15 PST, and continue until 8 o'clock.
The Majestic Chicago Trip
By K. G. O.

Chicago, Ill.—Two special trains, snaking their way speedily over mountains and across deserts, plains and fertile valleys, brought to Chicago 250 Majestic radio dealers from Southern California and Arizona. It was the second annual pilgrimage, sponsored by Ungar & Watson, Majestic distributors, and Grigsby-Grunow Company of Chicago, manufacturers.

With joy rides at Salt Lake City and Cheyenne, pajama parades at Ogden and Omaha, with the band and serenaders, the movies each night, the entertainment provided by the inimitable Harry James, etc., the boys had a wonderful time. In fact, Sheriff Hatfield was kept mighty busy trying to prevent the lads from taking some of the towns to pieces along the way. As it was, the second train, known as the "Bill Bouldin Special," arrived in Chicago just two hours late for some undetermined reason. Possibly they sidetracked at Cicero, in order to finish a game of dominoes!

The dealers were the guests of Grigsby-Grunow Company at the Lake Shore Athletic Club, where the Sales School was conducted. Here they attended seven sessions of instruction, where they heard lectures on every phase of radio merchandising. They saw the new Majestic models for the coming season and the Majestic Power Refrigerator. They were instructed in everything, from the technical and engineering standpoints, to the best methods of window dressing. They took notes on every lecture; they sang at every session; they played and worked and slept (a little), and finally were examined. Those who passed, first as men, then as salesmen, and finally as Majestic salesmen, were awarded the red Majestic ring, which is the identifying symbol, making its wearers welcome when he "pulls" your doorbell.

The lads went through the great plants where 5000 Majestic receivers are manufactured daily; they witnessed a baseball game at the Cubs home field; they dined at the famous "Terrace Garden;" they saw Chic Sales, of "The Specialist" fame, in "Hello, Paris;" they shook Bill Grunow by the hand; they (Continued on Page 47)

A Page from the Life of Ray Paige

A rigid baton directed by a flexible brain occupying the skull of Raymond Paige, Musical Director of KHJ, has accomplished what has been called impossible in the past. Heaven, to the manager of a radio station, is a place where radio orchestras can play symphonies, grand operas, musical comedies, jazz and popular ballads with equal facility. Probably every major station has experimented hopefully with orchestras and directors in the hope of creating such a heaven on earth. But Raymond Paige, if the records of radio history are complete and accurate, is the first mortal to make the splendid little idea work smoothly. Therefore, Mr. Paige automatically becomes an immortal—although he is still subject to colds, chills, stomach aches and the various disappointments of life. Let us be very blunt about the whole matter: The KHJ orchestra, when directed by Raymond Paige, can play all types of music with equal facility. And what are you going to do about it? Tune in, possibly.

William S. Paley, chief of the Columbia Broadcasting System, was deeply impressed by the really glaring virtues of Los Angeles on his recent visit. But the shock from which he is now recovering came when he discovered that the same orchestra and director which he had heard playing a Loheugrin Opera Miniature at eight o'clock one evening was battling out a hot, fast dance broadcast at nine the same night—with convincing distinction in both cases. According to Mr. Paley, it really isn't being done in the East.

Although Mr. Paige would win the musical decathlon at the Olympic games, he insists that there are directors who would break the tape first in any single event. It is just too bad that the leaders of the great symphony orchestras—many of them, at least—can't even get off their marks when it comes to playing even the light classics, let alone jazz and musical comedy.

And it is equally sad for the managers of radio stations that our geniuses of syncopation give up when confronted by anything cooler than 175 degrees fahrenheit—let's say, centigrade—easier to spell—or born before 1910.

For all this, there's a reason. You might as well know the whole truth now. When little Raymond was 14 years old, Chicago thought it saw through its smoke another fiddle genius. The lad was clever with the bow. One night, in a fairly conspicuous recital, a four-year-old Russian with large ears was pushed in on a kiddie kar and made our boy look like a ham without mustard. For six weeks, Raymond didn't feel like eating. Then he made a second discovery: That the four-year-old had, in turn, been completely outclassed by a Bulgarian, age three and three-quarters. Immediately, this being an age of specialization, the future musical director of KHJ determined to specialize in generalizing. He wandered or ran from one field of music to another and with his tremendous power of absorption, unusual physical and mental vitality, an amazing enthusiasm, gathered experience. Playing in symphony and grand opera orchestras; attending hundreds of rehearsals under the great conductors of grand opera and symphony; learning musical comedy at the feet of Victor Herbert and going on the road as concert master of a musical comedy show; headfirst into the show business; making the Orpheum and Pantages circuits; in charge of routing, revision, coaching acts for the Publix houses; drilling dancing and vocal choruses, preparing jazz band novelties; learning dance music from the big jazz boys and conducting his own bands in big hotels and theaters; and finally into the lap of radio and KHJ. Musically speaking, Raymond Paige has been everywhere and is at home everyplace. He is a glutton for experience and saves and catalogues everyone of them for future use. In radio, future use means tonight or tomorrow at the latest. Six nights a week, KHJ draws heavily upon his knowledge of symphony music, musical comedy, jazz and showmanship. Raymond Paige is a rare leader, a demon for any form of punishment, a (Continued on Page 44)

BRING YOUR RADIO BACK TO LIFE

The NEXT BEST to a MAJESTIC RADIO is a set of Majestic Matched Tubes!

Any radio is better with Majestic Matched Tubes. If the reception of your present instrument is "fuzzy," weak, distorted or just ordinary, the fault undoubtedly lies in the tubes. Install a complete set of Majestic Matched Tubes and note the amazing difference. These superior tubes cost no more. Your nearest Majestic dealer has a fresh supply. Insist on Majestic Matched Tubes ... the same tubes used in every Majestic radio.

FREE TUBE TESTING ... without obligation. It makes no difference what make set you own ... your nearest Majestic dealer will gladly send a service man to your home and test every tube in your set. There is no charge. This is a typical Majestic Service to help you get more radio enjoyment.

**Raymond Paige**

(Continued from page 15)

spouting fountain of ideas and, as far as KHJ is concerned, is the pink pearl of radio. He believes that all the hard knocks and handsprings which experience has dealt him in the past have merely been smoothing off the rough edges and preparing him for radio. His ambition is to be musical director of KHJ—but a bigger and much better musical director of a bigger and much better KHJ.

FREEMAN H. TALBOT

www.americanradiohistory.com
Ralph E. Hetzel, formerly in charge of production of the Zaney-Gill Corporation, manufacturers of the "Music Box" and then in charge of production for the Davison-Haynes Corporation, manufacturers of the "Angelus," is now in charge of engineering and production for the Keller-Fuller Manufacturing Company, who manufacture the popular "Radiette."

Mr. Hetzel has installed all the necessary equipment, benches and machinery to manufacture in excess of 100 sets a day and expects to reach this quota within a very short time.

Mr. Fritz Falck, president of the Advance Electric Company, is now in San Francisco visiting the trade and making plans to get additional distribution in the Northern California territory.

According to reports the Advance Electric Company have more than tripled their production and are looking forward to a very busy season.

The entire sales force of the Los Angeles house of Kierulff & Ravenscroft have been on a vacation during the last week. Many of the boys have spent their time trout fishing in the High Sierras.

Mr. Al Ravenscroft, president of the company, is expecting plenty of pep from his salesmen after they get back from their vacation.

Mr. Paul V. Parker of the Radio Electric Shop, 3834 Main street, Culver City, breezed in the other day looking very happy and contented with his lot in life. He said that he was enjoying a nice business and was selling lots of Radiola 33's and, best of all, he was keeping his customers satisfied.

A post card came in the other day from Niagara Falls, New York, from Barrie Bloedon, the Eastern representative of the Zaney-Gill Corporation of Los Angeles. Mr. Bloedon reported an excellent trip so far and that his faithful Chevrolet sedan had carried him East without a mishap.

He will be in Atlantic City during the week of the R. M. A. Convention and then intends to start West, arriving in Los Angeles some time in July.

C. W. Smith of the Griffin-Smith Manufacturing Company, manufacturers of the Royal Portable and Mantle sets, has just returned from ten days in San Francisco and Northern California. Mr. Smith reports that he was able to arrange very satisfactory sales outlets in Northern California and expects to do a large volume of business in that territory.

Mr. James Dean of Prest and Dean of Long Beach, left with the Majestic dealers for Chicago to attend the Grigsby-Grunow Company's dealer convention.

Jimmie is an expert saxophone player and is one of the main stays of the Majestic band. We hope that he and all the other dealers not only have a good time on this trip but will come back full of pep and optimism.

Another one of the Los Angeles radio fraternity who is now in the East is Mr. Harry Keller of the Keller-Fuller Manufacturing Company. Mr. Keller will not only attend the R. M. A. convention in Atlantic City but expects to visit all the large cities in the East and Middle West before returning to Los Angeles.

Breakfast Club June 12

The Radio and Music Trades Association members and guests will gather on June 12th at the Breakfast Club, Riverside Drive, Los Angeles, for their monthly get-together. This Thursday meeting, which was postponed from June 2nd, is sponsored by the Radio Broadcasters, with Naylor Rogers, Manager-Director of KNX, as chairman. Pierre Mellonino, Program Director of KNX, will again display his genius for providing the best in the way of entertainment, by presenting the following outstanding radio personalities: From KNX, Margit Hegedus, Hungarian violinist, will do the honors; KJ will be represented by Elvia Allman, Nelle Larsen and Gene Byrnes, in the character of Standard McWebster. Tom Terris, the Vagabond Movie Director from KFI, The Ranch Band from KTM, Bennie Light and Mark Cook from KMPC, and a Dance Orchestra from KGFJ, will all be there to out-do themselves in the way of entertaining.

Mr. Sol Zaney, president of the Zaney-Gill Corporation of Los Angeles, is now in the East in attendance at the R. M. A. convention. Zaney-Gill has a booth at the show and will exhibit their latest models of Music Box Clarions.

Since the midget manufacturers have been installing dynamic speakers in their receivers, Mr. C. E. Flynn, Southern California representative for the Magnavox Company, has been kept busy getting shipments of their famous dynamic speaker out of the Oakland plant and on the way to Los Angeles. Both Magnavox and Mr. Flynn deserve their excellent business as the speaker is exceptionally well made, and Mr. Flynn is a tireless worker.

The Sunset Manufacturing Company, manufacturers of the popular Sunset Aerial and Ground, have moved their plant and sales offices to 1114 North Sycamore Avenue, telephone number GRanite 0401.

Mr. Fred J. Vondenbosh is now managing both the production and sales.

Mr. Ray Stolle, of the Flint Radio Company, is now in the East visiting his sources of supply and expects to get everything in shape to do an unprecedented business in Flint Radios this season.

Mr. Stolle expects to be in Atlantic City during the week of the R.M.A. convention.

The new compact Rola dynamic speaker has "clicked" with the midget manufacturers and is in great demand, according to Mr. Lloyd E. Holten, sales manager of the Rola Company. "We expect to do an enormous business on this type of speaker during the coming year and have equipped our factory to take care of the demand," said Mr. Holten.

The Majestic Chicago Trip

(Continued from Page 14) rode in the Majestic hydroplane; and . . . watta time they had!

The vision of a manufacturer and distributor who pulls a stunt like this can only be rewarded in a vast increase in business, not only because of the increased efficiency of the dealer organization, but also to the unshakable dealer confidence and enthusiasm which is bound to result. These dealers have seen the factory and have been inspired by the magnitude of the thing, they KNOW Bill Grunow, the dynamic figure who is directly responsible for the tremendous success of Majestic, they know the engineers, the sales manager, the advertising manager, and they have been in close and friendly contact with the officials of their local distributing concern. Bill Wilson, who awards and cancels Majestic dealer franchises in the home territory, and had charge of one of the trains, is no longer the ogre behind the manager's desk,—he is a friend!

The dealers left Chicago on Decoration Day, encouraged a bull fight at Jauruez, and are now back on the job. We predict that this crowd of radio dealers are so strongly sold on Grigsby-Grunow Company, Unger & Watson, Inc., themselves, and Majestic Radio, that nothing can stop 'em now!
