DIRECTIONS

To get the most satisfactory results, tune in a familiar station. Find the wave-length for this station in the alphabetical list on pages 2 to 12. Then turn to pages 22-23 and record your dial markings opposite the wave-length of this station. If tuned during the hours of transmitting and if within the range of your set. All Stations Grouped Under This Wave Length Will Be Received on the Same Dial Marking. Proceed to mark pages 22-23 for other familiar stations, and you will see that Wave Lengths Are Arranged so the Highest Dial Marking Will Be Recorded at the Beginning of Page 22 and Decrease Consecutively Until the Lowest Dial Marking Will Be Recorded at the End of Page 23. Therefore any wave length not yet marked with dial settings, will tune in between the dial settings of the nearest wave lengths already recorded.

* Daytime only; s, Sunday only; † Higher power daytime; T At the top of last column on Pages 2 to 12 is the division of time the stations broadcast on such as: Eastern, Central, Pacific, Mountain and Atlantic Time. Call letters in Italics Construction Permits.

This is a detailed black and white map of the United States and Canada. The map shows state and provincial boundaries, major cities, and geographical features like the Great Lakes and the Gulf of Mexico. The word "Canada" is prominently displayed at the top. The map is framed by a grid of latitude and longitude lines. The map includes labels for all 50 U.S. states and the provinces of Canada. Major cities are marked with dots and labeled. The Great Lakes are shown in the upper central part of the map. The Gulf of Mexico is at the bottom. The map is oriented with North at the top.
