# Directory of the Radio Industry in Rhode Island

## NOTE

The following list of Manufacturers, Wholesalers and Retail Dealers of Radio Equipment was compiled from information secured from actual canvases.

In a publication of this kind there are bound to be some omissions and errors, but we have endeavored by careful canvases to make this booklet complete and authentic and believe it to be nearly 100 per cent correct up to the time of going to press. Individuals making sets or dealing in radio supplies, with no other address than their home, we have not attempted to list.

While the Publishers will not be held responsible for errors or omissions that may occur, they will appreciate having them called to their attention so that they may be corrected in the next edition of this publication.

C. De Witt Wason Co., Publishers

# BETTER APPARATUS

Radio manufacturers realize, and perhaps what is more important, Radio Fans realize, that the parts that go to make a radio set must be instruments carefully designed and carefully executed. A radio set is a marvel of delicate achievement. Each part must function properly or the whole radio system is impaired. A set is only as good as the parts that go to form it.

It is our pleasure to represent the following manufacturers of quality merchandise:

A. C. Eletron Co.	Adams-Morgan Co., Inc.	Kochler Machine & Tool Co.
American Hard Rubber Co.	"Paragon Sets"	Frontier Electric Co.
Bay State Copper Co.	Kierman Magnets Corp.	Fullmore Mfg. Co.
