## DESCRIPTION OF COLUMNS AND TERMS USED IN THIS LIST:

**H:** Use this column to track Mexican Stations which you have heard.

**FREQ:** This is the assigned frequency of a station on the AM Band

**CALL:** This is the call letters assigned to the station in the AM Band.

**CITY/STATE:** Exact city-of-license is given where known. The following abbreviations are used for Mexican states:

Agua - Aguascalientes	Chia - Chiapas	Hdgo - Hidalgo	NL - Nuevo León	Son - Sonora
BC - Baja California	Chih - Chihuahua	Jal - Jalisco	Oax - Oaxaca	Tab - Tabasco
BCS - Baja California Sur	Coah - Coahuila	Mex - Estado de México	Pueb - Puebla	Tama - Tamaulipas
Camp - Campeche	Col - Colima	Mich - Michoacan	Qtro - Querétaro	Tlax - Tlaxcala
CDMX- Ciudad de México	Dur - Durango	Mor - Morelos	QRoo - Quintana Roo	Ver - Veracruz
	Gjto - Guanajuato	Nay - Nayarit	SLP - San Luis Potosí	Yuc - Yucatán
	Guer - Guerrero		Sin - Sinaloa	Zac - Zacatecas

**POWERS:** "-1" = station power is unknown. Other negative numbers indicate presumed, suspected, or estimated powers. Many of these listings are a result of the fact that stations seldom publicize their night powers, and night powers are often missing from station license documents and construction permits ("CPs"). Directional antenna patterns (U2, U3, etc.), when known, are listed in the "Notes" column.

**SLOGANS:** May include frequently-used network names. For new CPs, the licensee organization is listed here if known. For FM frequencies, the decimal point "." is *punto*. Some stations will identify by their call letters, and this is not always listed under slogans.

**SCHEDULES – ALL TIMES ARE IN UTC** (Coordinated Universal Time), also known as GMT (Greenwich Mean Time), except for the supplemental spreadsheet where local times are used to describe the time(s) at which stations broadcast the national anthem. All Mexican states use UTC minus 6 hours (GMT-6) except Quintana Roo (GMT-5), Baja California Sur, Nayarit (except Bahía de Banderas), Sinaloa, and Sonora (GMT-7); and Baja California (Norte) (GMT-8). **Note that all of Chihuahua has changed to GMT-6/CST, and Mexico no longer observes Daylight Savings Time, except for Baja California (Norte) and certain cities along the US border** (Ciudad Acuña and Piedras Negras in Coahuila, Anahuac in Nuevo Leon and Matamoros, Nuevo Laredo and Reynosa in Tamaulipas; for stations in these cities, subtract 1 hour from listed schedules from the second Sunday of March (2 AM local time) to the first Sunday of November). ">" in place of a dash means that the station stays on later than the second time listed, but exact sign-off time is unknown. Similarly, "<" indicates that the station is on the air by the first time listed, but the exact sign-on time is unknown. Many stations in Mexico now broadcast 24hours a day. However, many also sign on at 0500/0600 hours local time and run to 2300/2400 hours local time. The schedule column has been updated when a schedule is known. Please keep in mind that this column isn't absolute in some cases and the actual schedule may differ from the listed schedule.

## FORMATS:

AC - Adult Contemporary	EDU - Educational	MER - Merengue	ROM - Romántica (Love Songs/ Ballads or Pop AC)
BAL - Ballads	EX - Exitos (classic hits – S	NEW - New Age/Light "Jazz"	S: - Spanish Language

E: - English Language Announcers or songs		ROK - US Classic Rock music	

Music may be in English (E), Spanish (S), or English-Spanish (E/S). "STUNTING"= temporary programming between format changes.

**NETWORKS:** The networks below range from satellite-fed simulcasts (eg, Radio Fórmula) to stations which do not simulcast but use identical jingles and promotional announcements (eg Nucleo Radio Mil). Smaller regional networks of 2 to 5 stations may simulcast at times. These networks are often identified by a common slogan in the "Slogans" column (e.g., Radio Sistema Zacatecas). Groups of stations which merely use the same advertising agency (Corporadio, Sociedad Mexicana de Radio) are no longer listed as networks, because the names of these "networks" are virtually never mentioned on the air. There are many more minor local ownership groups and networks than listed here, but these have been selected mostly because they may be mentioned on air.

Regional affiliates and lesser-known national affiliates are listed in the "Notes" column. SA, "EH-she ah," is widely used in corporation names in Mexico, and means roughly the same as "Inc" in the US or "Ltd" in Canada.

**NOTES:** This column includes regional networks, FM parallels, and other details to help identify a station, as well as the station's FM migration status if known. The following abbreviations are used in the "Notes" column:

- |                            |                                 |                               |                |
|----------------------------|---------------------------------|-------------------------------|----------------|
| // - parallel to simulcast | ex- - formerly                  | kW - kilowatt, 1000 watts     | SW - shortwave |
| + - plus or minus          | FB - football                   | OC - open carrier, "dead air" | w - Watts      |
| 24h - 24 hours a day       | FM - FM band (88.1 – 107.9 MHz) | R - radio                     |                |
| BB - baseball              | freq - frequency                | s/off - sign off              |                |
| CP - construction permit   |                                 | s/on - sign on                |                |

The following abbreviations describe directional antenna patterns:

- |                                      |  |                                    |  |
|--------------------------------------|--|------------------------------------|--|
| U = unlimited time                   | U2 = unlimited, DA at night only                 | U5 = unlimited, DA day, ND night   | All stations in Mexico operate with U1 unless noted. |
| D = daytime only                     | U3 = unlimited, same DA day and night            | D1 = daytime only, non-directional |  |
| DA = directional antenna             | U4 = unlimited, two different DA's day and night | D3 = daytime only, directional     |  |
| ND = non-directional                 |  |                                    |  |
| U1 = unlimited time, non-directional |  |                                    |  |

In 2008, Mexico adopted IBOC as the standard for digital radio, and initially authorized 11 AM stations and 10 FM stations to use it. At present, no Mexican AM stations are believed to still be broadcasting in IBOC, but it is definitely used by a number of FM stations.

Obtaining accurate information from BC Sur and the Rio Grande Valley ("RGV") is challenging. Most stations in these regions have little or no web presence. Some have web pages that have not been touched in years, and web streams that have not worked in a long

time. The Brownsville, Texas SDR which helped us monitor RGV stations, finally returned to good reception just before this edition of the Log was going to press, only to go offline again. The situation in BC Sur remains as frustrating as ever.

### WHAT'S NEW THIS YEAR?

The following new station has reportedly come on the air: XEVREP-1250 (a rare target in the state of Veracruz!).

The following stations have reportedly left AM and/or finally surrendered their AM licenses after being silent for some time: XEHL-550 (AM license surrendered at renewal time 12/23, had been silent for several years), XECCQ-630 (AM license surrendered 9/23), XEVILL-650 (station reportedly has no programming source, operated sporadically in 2023, and was off by 1/24), XECSE-750 (confirmed off by local listener), XEZN-780 (license surrendered 10/23 but had been silent since late 2017 or early 2018), XEMEX-950 (AM license surrendered 3/24, years after turning off the AM; their FM is now also silent), XEOZ-960 (AM license surrendered 9/23), XEWM-1190 (reported to have turned off its AM after the mandatory 1-year FM simulcast period ended 3/21), XEZT-1250 (AM license surrendered 9/23), XEOG-1260 (station had stayed on for a few years after their AM license expired, but a local listener confirmed 2/24 that the AM had been turned off), XEAPM-1340 (license surrendered 2/22 but not announced until 3/24), XEBK-1340 (license surrendered 8/23 after station was sold), XEUPG-1390 (see note below), XEKC-1460 (6/23 but not announced until 3/24; station had been silent for several years).

XEHT-810, which had continued to operate their AM without a license since 2020, was reported silent by local listeners 5/24.

XESAL-1220, which appeared to have been abandoned a few years ago, was logged by a DXer in early 2024 and has been re-added to the Log. It is unclear how they could be unlicensed for a long time and then get reinstated without the IFT's usual insistence on a new call sign.

XECT-1190 is the latest station to fail to apply for license renewal on time. Their existing license expires in August 2025. The IFT has been very diligent in dropping the licenses of stations that fail to apply for renewal on time but has not been successful in getting most of the stations with expired licenses to actually go off the air.

XERI-810 and its FM have been off the air for a few years following the death of the owner and difficulty finding parts to repair the FM transmitter. The FM finally got back on the air in May, but no mention has been made of the AM. A somewhat similar situation exists with XEVILL-650, which had been off the air after the termination of a lease agreement, and as of May 2024 was still unable to source the parts needed to repair its FM transmitter. There was also a report that they were experiencing labor problems. Their AM license expired years ago, and it has yet to reappear in the IFT listings.

XEJUA-640 was granted a call change to XELOVE and is planning to be //a new FM station, XHLOVE-104.7, which is to be a "rimshot" from Ciudad Juárez. A pirate station is currently blocking 104.7FM in this area.

XEPBSD-620, which has had a Facebook page for a few years that seemed to imply the station was on the air, is not on the air per local listeners. This is somewhat surprising, as they were believed to be planning to use the existing facilities of the old station they replaced (XEWZ).

Licenses continue to be granted for new stations of all types\*:

Freq	Call	State	City	Licensee/Notes
?	?	MEX	Huixquilucan de Degollado	New frequency for XEANAH-1670? See "Article 90" note below.
?	XECC??	TAMA	Reynosa	Commercial station.
?	XECP??	SON	Nogales	Public station.
?	XECS??	CHIA	Berriozábal	Social station.
980	XECCCM	NAY	Compostela	Commercial station. Not far from the former XEXT in Tepic.

Freq	Call	State	City	Licensee/Notes
1200	XECCMM	MICH	Morelia	Commercial station.
1230	XECPCV	TAMA	Cd. Victoria	Public station.
1280	XECPVC	VER	Cosamaloapan	Public station.
1330	XECCCA	TLAX	Calculalpan	Commercial station.
1360	XECCGZ	GUER	Zihuatanejo	Commercial station.
1390	XECPPC	CAMP	Polar	Public station.
1390	XECPC	CHIA	Comitán de Domínguez	Public station.
1460	XECPAS	BC	Aislado El Salitral	Public station (south of Ensenada).
1480	XECPGZ	AGUA	Goyo Zavala	Public station (northern part of state).
1480	XECCIZ	TLAX	Ignacio Zaragoza	Commercial station.
1490	XECCGA	GUER	Atenango del Río	Commercial station.
1570	XECPAV	BC	Aguaje Vargas	Public station (west of Guerrero Negro, BCS; transmitter to be located on Cedros Island, making it a nice target for DXers on the west coast).
1570	XECCGH	GUER	Huitzucó	Commercial station.
1580	XECPZT	TLAX	Zacatelco	Public station.
1650	XECPXM	CDMX	Cd. de México	Public station for federal Congress. Original filing was for XECPX-1690, but this CP was granted instead. (An article in El Economista mentioned that allocations of 1610 and 1630 kHz were also available in Mexico City for future applicants).

\*Social licenses can be distinguished from social/community licenses as follows: Any station with a XECS\*\* call sign (that is not XECSA, XECSIA/B/C, or XECSGU) is social. XECSIA/B/C are classified as social/indigenous. Stations whose call signs begin with XECS\*\* are social/community. Notes in the by-frequency listings have been corrected as needed. Thanks to Raymie Humbert for helping us understand these groups correctly.

The 5 station types are as follows:

1. Commercial.
2. Public (government agencies and public educational institutions at all levels).
3. Social (private people in some cases, civil associations, and private educational institutions).
4. Social community.
5. Social indigenous.

Community and indigenous stations have to meet certain extra requirements (indigenous concessions must be owned by indigenous communities; community stations by civil associations that pledge to meet various standards). In exchange, they get:

- Availability of spectrum in the Article 90 reserved band (1610–1700 kHz + 106–108 MHz) (that's Article 90 as in the chapter of the LFTR that created it).
- Access to a pie of 1% of government advertising spending not available to "pure" social stations (XECSxx).
- Can file for a station any time of year, including if the IFT has not formally designated a frequency for their area, instead of for given frequencies in specified filing windows.

The following social CPs (some of which were mistakenly referred to as social/community CPs in last year's Log) have been abandoned by Radio Rural Mexicana:

- XECSAW-AM 560 Cihuatlán, Jal.
- XECSBU-AM 730 Loreto, BCS
- XECSCF-AM 780 Autlán de Navarro, Jal.
- XECSAQ-AM 870 Irapuato, Gto.
- XECSQY-AM 920 Lázaro Cárdenas, Mich.
- XECSDO-AM 1030 Ciudad Juárez, Chih.
- XECSEF-AM 1160 Chilpancingo, Guer.
- XECSFO-AM 1480 Taxco de Alarcón, Guer.
- XECSFQ-AM 1480 Salvatierra, Gto.

5 additional CPs for social stations were abandoned by other licensees:

- XECSDC-AM 930 Xalapa, Ver.
- XECSAM-AM 990 Teziutlán, Pueb.
- XECSAB-AM 1140 Morelia, Mich.
- XECSAL-AM 1140 Tehuacán, Pueb.
- XECSFJ-AM 1430 Querétaro, Qto.

Other social licensees have officially abandoned the following CPs, citing failure to buy suitable land to construct the necessary facilities:

- XECSAA-810 Cuernavaca, Mor.
- XECSDL-1000 León, Gto.
- XECSAH-1010 Ensenada, BC
- XECSAN-1040 Xalapa, Ver.
- XECSAG-1050 Buena Vista, Tab.
- XECSAZ-1100 Moroleón, Gto.
- XECSAE-1260 Zamora, Mich.
- XECSAD-1280 Pátzcuaro, Mich.
- XECSAF-1350 San Quintín, BC
- XECSFV-1520 San Felipe, Gto.
- XECSGO-1600 Salamanca, Gto.

Some of the above abandoned CPs had taken over the AM continuity obligations of stations that previously occupied (or pretended to occupy!) these AM channels. Since in some cases the previous licensee had already vacated the AM channel (e.g., in the case of XECSAL-1140 above, old licensee XETE has already turned off their AM), some people living in isolated rural areas may now have no viable radio or TV signal. Some potentially good DX targets in hard-to-hear states were also lost. In some cases, the IFT list has reverted to the prior licensee and calls, but getting those licensees to actually resume operating their AM stations may prove difficult.

Hurricane Otis knocked every AM and FM station in Acapulco off the air. It should be noted that the AM/FM combo stations in this market (which include AMs XEBB-600 and XEAGS-1070) have no obligation to keep their AMs on the air, thus it seemed unlikely that these AMs would be rebuilt; however, XEAGS-1070 informed us 12/23 that they were going to try to get the AM back on the air. In April 2024, Grupo ACIR announced that it was ceasing operations in Acapulco. XEBB-600, still silent at this time, was an ACIR affiliate. As Grupo ACIR pulled out of this market, Radiópolis began operating the stations. XHMAR-98.5 has switched from Amor to La Ke Buena and has allegedly turned their AM (XEMAR-710) back on. XHBB-101.5 is now running W Radio, and the logo in their press release implied that XEBB-600 had also returned to the air. IDs on the stations' web streams 7/24 indicated that both XEBB-600 and XEMAR-710 were back on. Interestingly, XEAGR-810 was still included in a Radio Fórmula promotion 4/24, but the station had told us 7/23 that they had switched off their AM, and liners heard on the station's web stream 7/24 made no mention of AM. The Radio Fórmula web site, which has done a good job reflecting whether their AM stations are on or off, also makes no mention of 810 AM.

XECSAG-1390 changed calls to XEUPG 11/23 (correcting an IFT foul-up where the same calls had been assigned to two different stations), then turned in its license 12/23 after failing to obtain funding to continue operating.

XEITE-830 changed to owner Capital Media's Lokura FM format 8/24, after the lease from Radio Omega was not renewed.

As part of the re-licensing process associated with a transmitter site move, XEBA-820 temporarily became a 10kW non-directional daytimer. In 4/24 they were finally granted a new night authorization with a surprisingly low 20 Watts night power (non-directional). This station is currently a rather useless simulcast of two other local AMs (XEAV-580, XEHL-1010). XEMR-1140 was recently re-licensed as a daytimer, dropping from 50kW to 20kW. It would not be surprising if they received some kind of authorization for night operation (presumably at lower power) in the future. Unlike its predecessor, the SCT, which for many years was completely negligent in honoring the treaty to negotiate with the US FCC regarding night operations for any station located within 250 miles of the US border, the IFT in recent years has been re-negotiating night powers with the US anytime any Mexican station goes through a facilities change, no matter how far from the US border the station is located.

The situation with PSN stations in Tijuana has changed substantially, mostly for the better. We no longer have 7 AMs simulcasting political talk. XEPE-1700, XEC-1310, and XEWW-690 are now using separate slogans Radio Tijuana 1700, Radio Enciso 1310, and La Gigante 690. XEAZ-1270 is using the slogan "Romántica" since 8/24, despite the new format actually being automated Mexican oldies. The license for XEPE-1700 was renewed, and the station flipped to TuDN Deportes programming 8/24. No word on the fate of sister stations XESS-620 and XESDD-1030, which have remained off the air since May 1<sup>st</sup>, 2023 (both have been removed from the Log for now). Long-time DXers may recall that back in 2004, these 3 stations were illegally cloned and moved to new frequencies and cities without the necessary negotiation with the US FCC as required by treaty. Of the 3, only XEPE-1700 was remotely legitimate, once it eventually settled on the frequency of 1700 (which had been formally allocated to Tecate via treaty back in the 1990s) after moving from its legal frequency of 1600 (as XEKTT) to two illegal frequencies, 550 and 560. XEXX-1420, which had been simulcasting the 6 other PSN AMs, is now Radio Ranchito, La Doble X with ranchera music and recuerdos (oldies/nostalgia). They announce 10kW but it is unknown if they have actually raised their power from their licensed 2kW. As this edition goes to press, XEWW-690 and XEC-1310 were the last 2 AM stations in Tijuana to simulcast PSN political talk, and XEWW has applied for permission to run US-based English language sports talk programming. XEWW now announces 100kW. We are unaware of any such CP but given PSN's operator's history of running stations above their licensed powers, we cannot dismiss the possibility. The most bizarre aspect of this situation is that PSN and Grupo Enciso are now leasing stations in the same market to each other!

Tijuana also has possibly the most improved station in México this year in XERCN-1470. After several years running endless promos and several more years running basic Catholic liturgy, this station now has an excellent variety format //XED-1050 and the web stream of XENK-620. This is the beloved "Radio 6-20" format that ran on XENK-620 for years before the station was leased to Esne Radio this year. (If you are trying to identify XENK-620 by checking its web stream, you will be unsuccessful, but you can use this web stream to identify XED-1050 and XERCN-1470.) This format includes a very eclectic mix of US music, from the big band era to more recent rock hits, plus news blocks and other features throughout the day. One odd feature of this station/format is that they frequently overlay a rather anemic rooster crow about every 3½ minutes during the music programs, generally landing in the middle of the songs.

On August 1<sup>st</sup>, 2024, XEPRS-1090 abruptly changed from "The Mightier 10-90" English language sports talk to Spanish Catholic programming from Monte María Radio, terminating their 5-year lease of the station after 4 years. Afternoon host Scott Kaplan (the only holdover from the old "Mighty 10-90" format that collapsed in 2019) said the lack of a local sales staff made it too difficult to bring in the ad revenue to keep the format going. Kaplan's partner in this venture was Bill Hagen of Out The Window Marketing in Flagstaff, Arizona, whose (only?) prior radio venture was the very unusual Fox Sports 16-50 ("KBXZ-LP") in Flagstaff, a station which appeared to have used a TIS transmitter on the roof of his office in Flagstaff and was even listed as an official Fox Sports affiliate for a time. The Monte María schedule doesn't currently fill 24 hours, so a few hours per day have been filled with Mexican oldies, and the long-running "Let's Talk Hook-Up" English fishing talk show remains on Saturday and Sunday mornings, at least for now. The conversion of XEPRS-1090 to Spanish programming somewhat marks the "end of an era" inasmuch as for the moment (until such time as XEWW-690 is approved to run English sports talk) there are technically no "border blasters" on AM (i.e., no stations in México with English-language

programming intended for US audiences). Of course, there are still FMs in border markets that continue to offer programming in English, but for now, AM DXers will have to do without the government PSAs that have been so poorly translated into English for the last 40 years or more. For now, we will not be treated to incomprehensible "word salads" trying (and failing) to describe the functions of individual sub-agencies within the judicial system, or the legendary mis-translations of the relatively simple messages from individual government agencies or political parties, such as these two classic examples:

1. For COFECE, an agency somewhat similar to the US FTC: "With competence, we all win!" (Spanish *competencia* mis-translated as "competence" instead of "competition.")
2. For an individual political party: "We will introduce paid time off to attend school reunions!" (Spanish *reunión* mis-translated as "reunion" instead of "meeting;" they were trying to promise paid time off for parents to attend parent-teacher conferences at their children's schools).

Several INPI stations still appear to be off the air, including XEZON-1360, XEJMN-750, and XETPH-960. XEQIN-1160, which had been off the air after copper theft, was reported back on the air by 6/24. XETLA-930 seems to be running very little indigenous content in 2024. They even reverted to one of the standard Spanish-language versions of the national anthem used by many non-indigenous stations. (Most INPI stations use anthems sung by small children in indigenous languages, as XETLA previously did).

NTR (Radio Cañon) stations (the former ABC stations, including XEABC-760) were subject to major layoffs in July, presumably implying there will be more automation and fewer locally-produced programs on these stations.

XEGL-1270 was taken silent in March 2024 when their transmitter site was burglarized and vandalized. The event was believed to be a direct attack on the station, which is owned by a newspaper. It was reported that all of the copper at the site was stolen, including high voltage power lines leading to the transmitter site, which were active at the time of the theft. Somehow they were back on the air in less than a month. XEFCR-1670 was taken off the air by transmitter site vandalism in July 2024 but was back on the air by September 1<sup>st</sup>.

The IFT has proposed new regulations regarding planned and unplanned outages for radio stations. Under the proposed new rules, a station would be required to notify the IFT within 3 days of an unplanned outage, and at least 15 days before a planned outage. If an alternate transmitter site is used, the coverage area from the alternate site must not exceed the station's normal coverage area. Stations would be required to notify the IFT within 3 days after returning to normal operation. If passed, this would be a step toward reducing the longstanding problem of stations remaining silent for years without consequence.

Lastly, the IFT itself is facing an uncertain future, as different political factions debate whether or not it needs to continue to exist as an independent organization, or whether control should revert to the SCT. While it is true that the IFT has been very bureaucratic in its approach, and may have made a critical error in terms of granting licenses to pirate operators (leading to a predictable huge increase in pirate stations, mostly on FM), it also appears to have done quite a bit of good (managing the FM migration, allocating spectrum space for community and social stations, and streamlining the process for applications for those stations). It is hard to imagine the 2021 AM compliance audit taking place under the SCT, and it is hard to imagine that the 2004 scandal with the now-PSN stations in Tecate, Tijuana, and Ensenada would have been covered up by the IFT the way the more politically-driven SCT seemed to have done. The IFT has re-established compliance with the US-Mexican AM allocation treaty (in recent years they have actually been coordinating with the US much more than the treaty requires), whereas the SCT had completely ignored the treaty for many years. Although the IFT's AM/FM station lists are not perfect, they provide a level of transparency we did not see under the SCT's administration. The IFT seems to have improved year after year, whereas the SCT seemed to be getting worse before the IFT took over about a decade ago.

## GENERAL NOTES:

The issuance of CPs for existing AM stations to move to FM has seemingly stopped, as almost everything that can be done to make room for existing AMs on the FM dial has been done. Applications for brand-new AM licenses are still being accepted and granted, and new AM allocations are still being added. In addition to the periodic IFT auctions, social community and indigenous applicants can file new applications at any time. If a station's move to FM would leave even one person with no viable radio or TV signal at their home, the station is required to leave their AM on the air after activating their FM. This is known as a "continuity obligation." These obligations are re-validated from time to time. A station may transfer their AM continuity obligation to a social license applicant or can seemingly even place their AM in an IFT auction in the hope that someone will bid for it.

National newscasts are far more common today than they were even ten years ago, and government PSAs airing nationwide often promote tourism in individual states that need help bolstering their tourist industry. DXers with little or no Spanish language skills are especially cautioned not to fall into the bad habit of hearing (for example) "mentions of Chiapas" on a station and concluding that the station heard was the one in Chiapas. Mis-identification of Mexican stations by DXers with poor Spanish language skills is more common than many of us would like to believe. DXers who rely on web streams to help them identify stations are cautioned not to use this method on late Sunday nights (especially the 10pm Central Standard Time hour), when about 90% of the stations in Mexico are running the National Hour and other related programs.

DXers are further cautioned not to use the FCC database (or popular web sites which primarily get their data from the FCC database) as a source for information on Mexican stations. The FCC database only accepts Mexican station information directly from the Mexican government, and over the decades, the flow of this information has been extremely sporadic. Thus, even though it may contain some up-to-date information, and may even contain information about proposed new Mexican stations before the IFT has published the same information on its own web site, the FCC database is also riddled with old allocations (some dating back to the 1950s), never-built CPs, and recent proposed allocations that may have since been abandoned or changed to a different call sign and/or frequency. DXers with marginal Spanish skills have unfortunately used these lists to "log" stations that never actually existed.

Information in this Log (and the supplemental spreadsheet described below) is updated to **September 7, 2024**. Thanks to all the DXers who report their loggings to the IRCA, NRC and ABDX. Those loggings were used to help verify slogans and FM migration status. Some data, especially night powers and the status of several stations in BC Sur, continue to be elusive. Stations with missing/unknown powers were re-checked against publicly available IFT documents on September 1, 2024. In most cases, the IFT had not still published those missing values.

**SUPPLEMENTAL SPREADSHEET** – With this edition of the Mexican Log we are once again adding a spreadsheet with supplemental information that may be useful to DXers trying to identify weak signals from Mexican stations. This spreadsheet comes from the editor's personal station list. It shows the URLs (when known) for each station's web page, live stream, Facebook page, and program schedule page (if any), as well as any phone numbers found on those pages. The links can be especially useful for DXers using SDRs on their own laptops, to quickly check a web stream (or program name) to see if it matches a signal being heard on the radio. Phone numbers can be useful since they may be numerically close to the numbers heard in the station's ads. Although México is on the same area code system as the US and Canada, phone numbers are often still recited in traditional Latin American fashion, one or two digits at a time (eg, "5-55-12-12" instead of "555-1212"). Users are cautioned that we have occasionally found station web sites to be hacked, and it is the sole responsibility of each user to ensure they have adequate virus protection on their computers before clicking on any link in this spreadsheet. A good number of these URLs change each year, due to web site overhauls, re-branding, changes in a station's choice of streaming vendors, etc. The spreadsheet also reflects the editor's efforts (through DXing with beverage antennas in Chula Vista CA and near Baker NV, as well as monitoring station web streams and listening to the Brownsville, Texas,

Durango, and Juriquilla, Querétaro SDRs) to learn what type of national and/or state anthems each station plays in the morning and evening (typically, but not always, around 6 am and/or Midnight local time). With some frequencies having only a few stations left, knowing the type of anthem played on each station can be valuable in helping to identify the station being heard. Users are cautioned not to employ this technique on Sunday evenings, when most stations air a common version of the national anthem from the National Hour program around 11 pm local time, and to remember that there are a few US stations such as KNRV 1150 and KNUV 1190 which also air the Mexican national anthem as part of the Radio Fórmula network feed from México. Finally, we have noted that web streams for Mexican stations may perform very poorly (excessive buffering), have extended outages, be well out of synch with the on-air broadcast, and not work on mobile devices. Please note that (just as in the US and Canada), some web streams (especially those hosted by iHeartRadio) often cut away from the station's actual programming during ad breaks (and top-of-hour ID breaks!), substituting ads that are local to the listener's perceived location. For such stations, SDRs may be more useful than the stations' live streams (or perhaps using a VPN that allows one to pretend to be in some distant part of the world, for which no local ad content would be available?).

**NOTES FOR SUPPLEMENTAL SPREADSHEET:** The following abbreviations are used in the "WEB", "LIVE", "FB" and "SCHED" columns:

- Defunct - Last time we checked, web site was no longer there (or owner had not paid annual domain registration fees?).
- DJ - The station does not seem to have a current Facebook page; the page in this link belongs to an individual announcer.
- EMPTY - The last time we checked, this web page was essentially "empty" (contained no useful information).
- FB - (LIVE column): This live stream must be accessed via Facebook.
- FM - This site is for the station's FM, and may or may not contain useful information about the AM.
- IHR - This live stream is on iHeartRadio, and has the bug described above; try mouse-copying the URL into your browser.
- INDIV - Station has set up an individual Facebook page instead of a business page.
- MENU - This feature is reached via a menu on the given web page.
- NET - Page or live stream is for the entire network or ownership group, not just this station.
- NEWS - The page is for the station's news department.
- NG - The last time we visited this URL, it was not working. Generally this implies the page has worked in the past.
- STALE - The last time we checked, this site seemed well out of date. Watch for format/slogan changes and new pages.
- UC - Web page was under construction the last time we checked.

We welcome your comments, suggestions, additions, and corrections regarding this list. Please write to Mexican Log editor Tim Hall at [TimHall1@gmail.com](mailto:TimHall1@gmail.com). Thank you!

H	Call Freq XE-	State	City	Day Power	Night Power	Slogans	Schedule UTC/GMT	Formats	Nets	Notes
☐	540 SURF BC	Tijuana		25000	-1	Radio Zion 5-40 AM	24h	REL/E:TLK		//KXOR 660AM. No FM. COFETEL says 100 watts nights, but actual night power must be higher. Still runs syndicated talk shows in English (fishing, bicycling) on Sunday nights as of 6/24.
☐	TX Chih	Nuevo Casas Grandes		3900	700	La Ranchera de Paquimé, La Mera Mera, La T-X	24h	RAN	GBM/RASA	//XHTX 90.5FM. Staying on AM per IFT, and still active on AM 6/24 per SDR monitoring. Announces 3kW 6/24.
☐	WF Mex	Tlalmanalco		20000	2500	La Bestia 5-40, La Bestia Grupera	????-0602	GRU	RAMA	No longer //XHDL 98.5FM. Still active on AM 2/24 (logged by DXer) and included in 8/24 IFT list. Reverted to old "Bestia Grupera" format after lease to Heraldo Radio ended.
☐	HS Sin	Los Mochis		5000	2500	La Mejor	24h	REG	MVS	//XHHS 90.9FM. Staying on AM per IFT. Still active on AM 4/24 (logged by DXer) and included in 8/24 IFT list.
☐	WA SLP	San Luís Potosí		150000	150000	Los 40, Music Inspires Life	24h	T40	TVR	//XHEWA 103.9FM. Staying on AM per IFT, but has been operating sporadically on AM. Reported back on the air by local listeners 5/24. They are probably running nowhere near their licensed 150kW power.
☐	550 PL Chih	Ciudad Cuauhtémoc		5000	150	91.3 La Líder, La Súper Estación, Tu Mejor Compañía	1100-0800	VAR/IND		//XHEPL 91.3FM. Staying on AM per IFT. Active on AM as of 2/24 (logged by DXer), but may be operating intermittently. Station confirmed 7/23 that the AM was on. German Mennonite and native language programs in the evenings. During this programming they sometimes give 5 800Hz time pips shortly after the top of the hour. The current (8/20) schedule on the station's web site lists a broadcast day of 1100-0800, with Mennonite programming in the evenings (6:50pm-11pm local time). Still included in 8/24 IFT list.
☐	GNAY Nay	Tepic		2500	150	Radio Aztlán, La Radio Cultural de Nayarit, La Radiodifusora Cultural del Gobierno del Estado de Nayarit, Nayarit Comunica, Radio Nayarit	1300<0705	CLA/CUL/VAR		//XHTNY 100.3FM (testing 1/23). Still active on AM 4/24 (logged by DXer) and included in 8/24 IFT list. Pre-recorded IDs and slogans are often played over Mariachi/folkloric music which often includes a shout of "Viva México!" Frequently gives automated time checks (male and/or female voices) punctuated by an 8-note Westminster-style grandfather clock chime. IDs frequently as "XEG-Nay." Schedule on web page indicates they operate from 6am-12:03am local time, but web stream monitoring indicates the station is on the air before 6am. Had been reported as directional during the day, but their new antenna (7/19) is a single tower, and a review of their license 7/23 confirmed that the station is non-directional (as with most Mexican licenses, the night power was missing).

■	560 OC	CDMX	México	1500	1500	Radio Chapultepec, La Estación Con Mas Salsa	24h	TRO		No FM. Still active on AM 2/24 (logged by DXers) and included in 8/24 IFT list. Transmitter: Ixtapalapa. Grupo Radio Digital
■	GIK	Coah	Monclova	1400	250	La Acerera 88.1, Sonando Como Tú Quieres	24h	EX/GRU/NOR/NWS/SPT	RASA	//XHGIK 88.1FM (ex-106.3). Acereros beisbol 2023. Staying on AM per IFT, and included in 8/24 IFT list, but AM 560 references were removed from Facebook page in May 2013. Transmitter: Ciudad Frontera, Coahuila. Rarely gives call letters in IDs; usually gives only slogan and station phone numbers.
■	SRD	Dur	Santiago Papasquiaro	10000	1000	La Tremenda Santiago, T 89.3, Al Cien Con La Raza	24h	GRU		//XHSRD 89.3FM, Grupo Garza Limón. Staying on AM per IFT and included in 8/24 IFT list. Station confirmed 8/20 that AM is remaining active. Still active on AM 2/24 (logged by DXers).
■	CSAX	Qroo	Chetumal	-5000	-1000	Cadena Azul 95.7 FM, Fundación Educacional de Medios		TLK/VAR	AZUL	CP (2023) for new social station to replace XEQAA, which moved to FM years ago. To be //XHATF 95.7FM. Unknown if it will use XEQAA's old facilities.
■	YO	Son	Huatabampo	1000	500	Radio Lobo	1200-0500	POP/NWS		//XHYO 102.1FM. Noted back on the air 9/22, despite not having been licensed for some time (AM and FM have both been missing from IFT lists since at least 6/21). Station has no web presence except for a FB page which they seldom update. 560 AM no longer appears in station logos, and was last mentioned on FB page 6/22.
■	570 LQ	Mich	Morelia	2000	1700	Candela Morelia	Not 24h	REL?		To be replaced by XECSAY per 5/23 license transfer (new social licensee is Michael Jonathan Alvarado Cuéllar). Still active as XELQ (and //XHLQ 90.1FM) 8/24 per local listener. Silent for a few hours overnight 7/23.
■	TD	Nay	Tecuala	5000	1000	La Patrona [Escuinapa/92.5 FM y 5-70 AM]	24h?	REG		//XHETD 92.5FM. Moved to FM prior to 2019 (confirmed by station), but was supposed to stay on AM per IFT, and the AM returned to the air before 8/22, after being caught silent on the 8/21 IFT audit. (It was reported silent again 9/22, and appears not to have been logged by DXers since). Escuinapa, Sinaloa market.
■	BJB	NL	Monterrey	5000	500	La Voz	24h	REL/CCR		This channel is being leased, and currently has no web presence. ABC Noticias format moved to XEVB 1310AM in 2023. No longer //XHGBO 92.1FM General Bravo. Still active on AM 2/24 (logged by DXer), but noted falling off the air repeatedly 6/23 per SDR monitoring.
■	OA	Oax	Oaxaca	5000	2500	La Mexicana [570/94.9 FM], Música de Ayer, Hoy, y Siempre, Grupo As Comunicaciones	1100-0600	RAN/REG/REC/GRU	RAMA	//XHEOA 94.9FM. Staying on AM per IFT, and still active on AM 8/21 per IFT audit (logged by DXer 2/24). Announcements on web stream still mention 570 AM 10/23.
■	580 LRDA	Coah	Piedras Negras	5000	2500	La Rancherita del Aire, La Estación Sin Fronteras	24h	RAN/ROM		//XHEMU 103.7FM. Still active on AM 11/23 (logged by DXer). Re-licensed as XELRDA after repurchasing its old AM frequency at auction, but IDs only include XHMU 10/20.

Occasionally IDs about 3 minutes after top-of-hour, or after 6am anthem, which may start 3-4 minutes late. ID on web stream still includes AM 8/23. Slogan is read as "93 Punto.... Uno-Mix." Still included in 8/24 IFT list. Morning program Panorama Informativo from Noticias 88.9 in México City. Mentions iHeartRadio.
☐	590	PH	CDMX	México	25000	10000	Sabrosita 5-90 y 14-10, La Mas Caliente, Sabrosita Digital	24h	TRO	NRM	//XEBS 1410AM. No FM. Still active on AM 7/23 per local monitoring, and included in 8/24 IFT list.
☐		E	Dur	Durango	1000	1000	Radio Fórmula Durango	24h	NWS/TLK	ORF1	//XHE 105.3FM. Still active on AM 9/24 per local SDR, and still included in 8/24 IFT list, but AM 590 references were removed from web page by 6/20 and webstream ID 7/23 mentions only XHE-FM. Facebook page still actively promotes AM 590 9/24.
☐		GTO	Gjto	León	10000	250	Éxtasis Digital, El Soundtrack de Tu Vida, Los Mejores Éxitos "Oldies" en Inglés	1200-0600	AC/ROK	RAMA	//XHGT 95.9FM. Still active on AM 8/24 per local monitoring, and still included in 8/24 IFT list. Facebook posts consistently mention 590 AM 8/24.
☐		FD	Tama	Río Bravo	5000	500	La Mejor 5-90 Aquí Nomás	24h	REG	MVS	Not moving to FM. Still active on AM 8/24 per SDR monitoring and included in 8/24 IFT list. IBOC authorized.
☐	600	OCH	Chia	Ococingo	10000	500	K'in/Quién Radio, Sistema Chipaneco de Radio y TV		VAR		No FM. Transmitter location unknown. Web stream was down 8/24, but the stream for XERA 760AM (same web page) was working.
☐		BB	Guer	Acapulco	5000	1000	W Radio	24h?	TLK/VAR	W	//XHBB 101.5FM. Still active on AM 7/23 (confirmed by station) and included in 8/24 IFT list. Knocked off the air by Hurricane Otis a few months later, but new operator (Radiópolis) apparently got the AM back on the air by 7/24.
☐		HW	Sin	Mazatlán	5000	1000	La Mejor 102.7 FM 600 AM, Aquí Nomás	1300-0500	REG	MVS	//XHHW 102.7FM (ex-101.9). Staying on AM per IFT, and still active on AM 8/21 per IFT audit (logged by DXer 4/24). No longer mentions 600AM on Facebook (since 4/21) or in logos, including employee uniforms. City-of-license = Chametla?
☐	610	SORN	Coah	Saltillo	1000	900	Viva Saltillo, Rompiendo con el Ordinario, Grupo M Radio	24h?	VAR/NWS/ROM		New station on the air 9/18; replaced XESAC which moved to FM. Logged by DXer 11/23. Top-of-hour non-ID gives slogan and station address, but no call letters.
☐		UF	Mich	Uruapan	5000	1000	La Auténtica, Stereo Mía Uruapan, La Zeta [Noticias], [Su/Tu] [Radio] Estación Favorita.	SILENT	POP:E/S		//XHUF 100.5FM. AM was silent for part of 2022, but back on the air by 7/23 (confirmed by station and a local listener). They are believed to be silent again in 2024. Still included in 8/24 IFT list. In early 2023, the IFT granted them 1kW non-directional night power, which they have already had for many years. Still runs La Zeta Noticias 8/21.

☐	610 GS	Sin	Guasave	25000	1000	La G-S, La/Tu Superestación, Desde 1948 en el Aire, La Primera Estación Radiodifusora Que Le Dió Voz al Corazón Agrícola de México, Guasave, Sinaloa, Cubriendo Todo el Pais, Grupo Chávez Radio	24h	GRU	GCR	//XHGS 104.7FM (ex-106.1FM). Staying on AM per IFT, and still active on AM 8/21 per IFT audit. Station confirmed 7/23 that the AM was still on, but reports of this station, which had been widely heard throughout the western US for years, have dropped off sharply in 2022 and 2023. They have been heard by a DXer as recently as 4/24. Day power has dropped from 50kW to 25kW per ID 6/23; night power may have been reduced as well.
☐	UM	Yuc	Valladolid	10000	200	La Nueva Candela [FM/Rasa] Valladolid, Está Que Arde	24h?	NWS/RAN/TRO/GRU/T40/CAT	RASA	//XHUM 92.7FM. Staying on AM per IFT. ID on web stream still includes AM 7/23. Still included in 8/24 IFT list, and found to be active on AM during 8/21 IFT audit. In past web stream monitoring, announcers used a mix of Spanish and native languages, often changing language in mid-sentence.
☐	CCBS	Zac	Fresnillo	10000	-1000	TV Zacatecas, S.A. de C.V.			W?	CP (2022) for new commercial station to replace XEEL, which finished moving to FM. For some reason, this license appears 7 times in the IFT lists, with 7 different cities of license, all in the state of Zacatecas.
☐	620 NK	CDMX	México	50000	5000	La Guadalupana, Esne Radio	24h	CAT	ESNE	No FM. Still active on AM 1/24 per local monitoring. Leased to Esne Radio, but the old XENK programming (which still airs as a web stream on RASA's web site, and on XED 1050AM and XERCN 1470AM in BC) was reportedly still broadcast on the AM signal on weekends 2/24. Stereo.
☐	PBSD	SLP	Soledad Diez Gutiérrez	2500	500	Super Stereo Miled 620 AM, Radio Miled San Luis Potosi, Radio de Ayuda, Origen radio				New station has a Facebook page implying it is on the air, but it has apparently never actually been on the air, per local DXers 7/24. Replaces XEWZ, which moved to FM in 2015. Appears to be using old XEWZ transmitter site.
☐	GMSR	Tab	Villahermosa	2500	1000	Grupo Multimédios Sin Reservas, Panorama Sin Reservas, 620 AM, La Radio Que Se Ve			NWS/TLK/POL	New station, replaced XEHGR which moved to FM. Confirmed active by local DXer 8/24.
☐	GH	Tama	Río Bravo	1000	250	La Lupe 89.1 FM [y 620 AM], Solo Música Inolvidable, Cerca de Ti, Radio United	SILENT	REC		//XHCAO 89.1FM. Still active on AM 8/24 per SDR monitoring. Silent 9/24 per SDR monitoring, but live announcers on web stream continued to mention 620AM. Still included on 8/24 IFT list.
☐	630 PBGJ	Jal	Guadalajara	10000		J-B Jalisco Radio	1200-0100	CLA/CUL		//XEJB-FM 96.3FM, XHCGJ 107.1FM, . Directional antenna. Still active on AM 4/24 (logged by DXer), but as of 11/23 the station is operating as a daytimer 6am-7pm. The series of 6 doorbell chimes at top of some hours (C-E-G, G-C-E) which made this station easy to identify in the past are very rarely heard now, but were noted 10/23 about 2 minutes after the top of the hour.

☐	630 FB	NL	Monterrey	10000	10000	Acústik Radio, Arre en Acústik	24h?	NWS/TLK/VAR	ACU	No FM. Returned to the air 7/23 with Acústik Radio programming (moving here from XEMN 600AM, whose license had already expired before the original lease to Acústik had even begun), but seemingly operating sporadically ever since, with very poor audio quality. Logged by DXer 2/24. Directional antenna.
☐	ERO	Tama	Altamira	1000	150	Radio Tamaulipas	SILENT?	GOV	TAMA	//XHVIC 107.9FM, XETUT 1280AM, XEVIC 1480 AM (all had been silent in recent years, and XEERO was reported still silent 10/22, but only XEVIC was still silent as of 6/23, per the station). No FM. State government station.
☐	FU	Ver	Cosamaloapan	10000	750	La F-U 103.3 FM, La Fuerza Que Te Mueve, La Voz Amiga de la Cuenca del Papaloapan, Grupo Emisoras de Sotavento	1100-0500	VAR		//XHFU 103.3FM. AM is still active 3/24 (logged by DXer), and still included in 8/24 IFT list, but they still have no web presence at all as of 8/24, except for a Facebook page they last updated 10/23. Lots of liners by deep-voiced male announcer, with lots of mentions of 103.3FM. Time checks were 3 minutes slow on web stream 7/23.

☐	810 EMM Gjto	Salamanca		1000	500	La Salmantina 810, La Mas Prendida	1200-0602	VAR		No FM. Still active on AM 4/24 per SDR monitoring, and included in 8/24 IFT list.
☐	RB QRoo	Cozumel		2500	250	Sol Estéreo [89.9], Tu Nuevo Amanecer, Grupo Sipse, Siempre Cerca de Ti	24h	POP:E/S/TRO/TLK/ VAR		//XHRB 89.9FM. Still active on AM 7/23 (confirmed by station), and AM is still included in 8/24 IFT list. Facebook page now mentions AM again. Early morning show "Tropimañana" includes "rooster" sound effects between songs produced by a novelty store rubber chicken. Logged by DXer 2/22. Station takes a lot of requests, and runs many live and pre-recorded announcements which often recite the station phone number in an unusual manner: 9-87-87-2-0-9-48. info@sol899.com.
☐	HT Tlax	Huamantla		5000	1000	Radio Huamantla [Estéreo/106.9], La H-T, La Radio Que Te Mueve	SILENT	VAR/TRO	RAMA	//XHHT 106.9FM, stereo. Still active 7/23 per local and SDR monitoring (seemingly without a license, as it has not been found in IFT lists since at least 10/20), but reported silent 5/24 (was 1200-0600). An unconfirmed report states that the University of Tlaxcala and perhaps one or more social broadcasters may be interested in taking over this frequency. Facebook page no longer mentions AM 810 after 11/23.
☐	820 ABCA BC	Mexicali		3500	500	La Ke Buena	24h	GRU	TVR	//XHABCA 101.3FM. Staying on AM per IFT per renewed order 9/21, to avoid leaving 2(!) people with no radio/TV coverage due to the reduced range of the FM. Still active on AM 10/23 (logged by DXer). Night power is surely higher than listed 500w. Station probably no longer runs a few minutes of barnyard noises at 6am local time.
☐	CPCG Guer	Coyuca de Catalán		1000	-1	RTG 820 AM, Experiencia Radiofónica Total	1200-0500?	VAR	RTG	Still active 4/23 (logged by DXer). License re-granted (with new calls, ex-XEGRC) 6/23. Seemingly licensed as a daytimer, but schedule on web site says they operate 6am-11pm local time. Web stream does not come online until as late as 7am each morning.
☐	BA Jal	Guadalajara		10000	20	Radio Cañón	24h	VAR/NWS/POL	ABC	//XEAV 580AM, XEHL 1010AM. Night power reduced to 20 Watts at new transmitter site. Still active on AM 4/24 (logged by DXer). (XEBA-FM 97.1 predates the current FM migration). Station has had no real web presence since it was sold 9/19.
☐	BM SLP	San Luis Potosí		10000	1000	Ke Buena 105.7 FM y 8-20 AM	SILENT	GRU	TVR	//XHBM 105.7FM. A DXer traveling through the area found the AM silent again 4/24, and a local listener confirmed 5/24 that the AM transmitter had been damaged. Still included in 8/24 IFT list.

☐		PUR	Mich	Cherán	8000		LV de los Purépechas	1200-0100	IND	INPI	No FM. Still active on AM 3/22 per local monitoring, and included in 8/24 IFT list. Programming in Spanish & Purepecha languages.
☐		LN	NL	Linares	5000	250	La Caliente 105.7, La Que Te Prende	1200-0600	GRU	ORO	//XHR 105.7FM (result of an odd call swap between XHLN 104.9FM and XHR 105.7FM). Staying on AM per IFT, still licensed per 8/24 IFT list, and logged by DXer 1/24, but this AM license was included in the IFT-8 auction. Mutimedios web player page, which lists other active AMs, no longer lists XELN. Station almost never IDs, but they frequently give their (FM only) slogan. At the top of the hour there is an automated time check followed by a brief station theme song and FM slogan liner.
☐		TLX	Oax	Tlaxiaco	6000		La Poderosa [de Tlaxiaco] 100.5 AM / 830 AM	1200-0030	VAR/GRU/NWS	RASA	//XHTLX 100.5FM. Still active on AM (confirmed by station 8/20 including hours of operation, and logged by DXer 2/22). AM 830 is featured prominently on the station's web site and Facebook page, but the AM has been missing from IFT lists since at least 5/18.

AM is still included in 8/24 IFT list, but last mention of AM 840 on Facebook page was in 2013. Web stream monitoring indicates this station virtually never IDs (even before/after anthem), but the IDs and other liners only mention FM. "Y" in call sign is pronounced as traditional "i-griega."
☐	850	ZF	BC	Mexicali	1000		850 AM, [La] Buenísima [del Valle de Mexicali]	1400-0230	ROM/REC	RAMA	This license appears to have been put up for auction 8/19, but the station was still Buenísima as of 2/24. ■		RF	Coah	Ciudad Acuña	100000	100000	La Poderosa, El Poder de la Música	24h	GRU/NOR/NWS	IMER	//XHRF 103.9FM. Staying on AM per IFT. Coahuila state anthem after national anthem at Midnight and 6am local time.
■		CSGG	Gjto	Comonfort	-1	-1	Radio Lacustre				CP (2023) for new social station.
■		CCGH	Guer	Huitzucó	-1	-1					CP (2024) for new commercial station.
■		CCAZ	Hdgo	Tepeapulco	400		Radiodifusoras Mars				CP (2022) for new commercial station.
■		CSGH	NL	Monterrey	20000		Edeysi Yolisea González Roblero		REL?		CP (2023) for new social station. This frequency assignment seems very odd, especially since the relatively clear channel of 1370 was vacated by XEMON in this market.

<input type="checkbox"/>	1580 CPZT	Tlax	Zacatelco	-1	-1			PUB/VAR		CP (2024) for new public station.
<input type="checkbox"/>	1590 VOZ	CDMX	México	20000	10000	Buenisiima [15-90], Lo Mejor de la Salsa y Cumbia	24h	SAL/CMB	RAMA	Still active on AM 7/23 per local monitoring. Format/slogan has been duplicated on XEUR 1530AM (conflicting reports have been received as to whether the two are actually simulcasting). "V" in call letters is pronounced as UV ("oo-veh"). Still included in 7/23 IFT list. IFT has authorized the station to move (again?!) to N 19-40-34 W 99-06-32, but only as a 20kW directional daytimer until negotiations with the US FCC are completed.
<input type="checkbox"/>	CCBB	Gjto	San Francisco del Rincón	6000		Radio Cañón, S.A. de C.V.		GRU?	TVR?	CP (2022) for new commercial station. Night power to be negotiated with US FCC.

Still active on AM 5/24 per SDR monitoring. Web streams for XEGEM and XETUL only ID as XEGEM, usually about 3 minutes before top of hour.
<input type="checkbox"/>	CCBC	Pueb	Ciudad Serdán	5000		La [Más] Peligrosa	24h	TRO/GRU/VAR		CP (2022) for new commercial station, not yet active 7/23 but probably very close to being on the air, as it is actively promoted on XECCBI 1370AM's web page. To be //XECCBI 1370AM.
<input type="checkbox"/>	1620 CSCGU	Chih	Guachochi	1000		CREO Radio, Columna y Baluarte de la Verdad	1400-0200	REL/CCR		The acronym of the licensee's organization is CREO, Spanish for "I believe." This stands for Centro de Rehabilitación El Olivo, A.C. Transmitter coordinates are approximate (Google Maps has not been updated since the transmitting antenna was built). As of 8/21 they were operating as a daytimer with 1kW until a new 2kW transmitter could be obtained. They have operated at night in the past, and presumably will again. Still active on AM 4/24 (logged by DXer).
<input type="checkbox"/>	CSIA	Mich	Pátzcuaro	-1	-1	La Voz de Ajuno		IND		CP (2020) for new social/indigenous station. Still not on the air as of 6/23.

No longer included in IFT lists. Schedule posted on web page says 6:50am-Midnight but top-of-hour ID on web stream says 24h. Transmitter location unknown, but allegedly located on campus per web stream ID (possibly a longwire or other small antenna not visible on Google Earth?).

# A QUICK GUIDE TO THE SPANISH LANGUAGE

By Bill Hardy, revised by Guillermo Glenn Hauser, 2019

When you hear Mexican radio stations, you may hear letters, numbers and slogans. If you know a little basic Spanish, you'll be ahead of the game. Spanish pronunciation in Mexico is fairly straightforward. While ``long`` vowels in English are actually diphthongs, in Spanish each vowel letter has one pure sound: a = "ah", e = "eh", i = "ee", o = "oh", u = "oo",

Consonants mostly resemble their English language counterparts, with some notable exceptions. "H" is silent. "J" sounds like our "h," but stronger, as in "José". "X" may sound like our "x," as in "éxitos," but in Mexican place names such as México (MEH-hee-koh) or Oaxaca (wah-HAH-kah), it sounds like our "h." "ñ," enye, has the "ny" sound of "Señor" (seh-NYOR). Double "l" sounds like "y," as in "Vallarta" (bah-YAR-tah). "B" and "V" sound the same in two different ways depending on whether they are initial in a word: like our B; or amid a word, like our V. R is slightly trilled especially if initial, and more trilled if double. Like "radio" (RAAH-dhee-oh). D unless initial sounds like "th" in our word "the". Better rendered as "dh", also as in "ciudad" (twice).

The sounds of some consonants depend on the next letter. For instance, "g" can sound like the hard "g" sound of "Gómez" (ga, go, gu) or our soft "h" sound of the Spanish "j" (ge, gi). "C" can sound like "k" (ca, co, cu) or "s" (ce, ci). "Cu" plus a vowel (cua, cue, cui) makes a "kw" sound, as in "frecuencia." "Ch" equals English "ch," as in "mucho." "Qu" (que, qui) sounds like "k".

Accents in Spanish are very regular. A word ending with a vowel (a, e, i, o, u), or "n" or "s," is stressed on the next-to-last syllable, such as "cinco" (SEEN-koh) or "Variedades" (bah-ree-eh-DHAH-dhehs) without any acute accent mark. Words ending with any other consonant are stressed on the last syllable, such as "festival" (feh-s-tee-VAHL) or "Ciudad" (cee-oo-DHAHDH). If a word is stressed on any other syllable, an accent mark is required, such as "éxitos" (EX-ee-tohs).

On this page are charts of Spanish letters and numbers. These should help you pronounce station call letters, plus numbers such as "5-70" (cinco setenta) in the slogan column. Note that B and V sound alike, and there are two ways to pronounce the letters V, W and Y. Also note that numbers 21-29 are compound words and not separated by a "y" (and). This combining applies only to the 20's (21-29)

Letters of the alphabet as they are individually pronounced in callsigns:
