FOREWORD

This edition of the NNRC BCB Log supercedes the October, 1948 edition and contains all changes for stations in the United States, Canada, Cuba, Mexico, and other countries under the provisions of the North American Regional Broadcasting Agreement.

In this issue there are many address changes in Cuba and Mexico, and subscribers will do well to note these changes as they have been received recently from authorities in these two countries. Where a station address is noted the slogan has been omitted. Those stations where addresses are unknown are listed with the slogan.

It is planned with the next edition to include the broadcasting schedules of all stations that are possible, including those of Daytime stations where known for each month of the year. The latter depends on certain factors. If you live in the area served by one of these stations, forward the schedule for the entire year to the editor at 2800 Alden Road, Parkville-14, Maryland. It has to be for the year or it is of no value in compiling such a schedule.

All inquiries regarding subscriptions, comments, and corrections are to be addressed either to the editor's home address or to: NNRC PUBLICATIONS, P. O. Box 7073, ROSEVILLE STATION, NEWARK-7, NEW JERSEY, U. S. A. Your comments are always welcome.

EXPLANATION OF LISTINGS

Stations are listed according to frequency and power in use at the time this edition is published. Outstanding Construction Permits are listed in parentheses. Where a frequency change is involved, the station is also listed on the proposed frequency with the symbol 'P' to show that a permit for these new facilities is held. The power listed is that in use for Nighttime transmitting (excepting those stations with permits to broadcast Daytime Only). Where increased power is permitted during the Daytime hours, this is shown in parentheses. All Power is listed in Watts, except in the cases of increased power which is listed in Kilowatts.
