Zion Radio Log and Call Book

Valuable for Daily Use

Priceless Keepsake for the Future

IN this book are the following useful classifications: First, broadcasting stations in the United States, Canada and Mexico are listed by call letters in alphabetical order. These stations are cross-indexed under the name of the city, arranged in alphabetical order. Thus, you can quickly turn to the listing of any station given in your daily newspaper's radio program or which you may happen to tune in while searching for new stations.

You will soon recognize the convenience of having the call listings combined with blank space for "logging" the station. Do not fail to make use of the wave length or kilocycle columns to aid you in "feeling out" new stations that you have never previously logged. So much for the handy everyday use of this log and call book.

Don't overlook a thing which will bring you pleasant memories years from now. Use the blank pages in the separate section allowed for that purpose to record such unusual events as:

Your first reception of a foreign station.

Other unusual distance.

Freaks of the air.

Important national events such as

The President's speeches, Inauguration, etc.

Important news events.

Many facts worth recording for the future will suggest themselves as you keep this nightly record of your radio. Thus, this little book combines in its covers concisely all the information you need to locate and log stations today. In addition it can be kept as a permanent radio record which will entertain you greatly in years to come when you think back to the days when you were one of radio's first amateur listeners.

THE ZION RADIO LOG

Broadcasting Stations in the United States, arranged
alphabetically by Call Letters

Call Letters	City	State	Power (watts)	Wave Length	Kilo-cycles	First Dial	Second Dial	Third Dial
KDKA	East Pittsburgh	Pa.	Var.	309.1	970
