Selector[®]

Music Scheduling

The best
use the
best.[™]

"I love Selector. This program has always been easy to use and easy to understand. I love that my clients can send me their RCS backup and in a matter of moments, I can tell if their station is on track or not. Why wouldn't you want to have the best rotation system possible?"

Mike McVay
President, McVay Media

RATINGS REPORT

Market Index

The top 293 markets ranked by Arbitron are listed on one page, with the page number on which each appears in this directory. Market ranks are provided in parentheses after the market and state. **Page 2**

National Format Shares

A quick overview of radio's formats, comparing overall numbers on a national basis. **Page 4**

How To Use The Ratings Information

This step-by-step guide will help you use and understand R&R's comprehensive ratings data. The National Rep Firm abbreviation key is also on this page. **Page 6**

Market Ratings

R&R includes all the markets rated by Arbitron. The top 100 markets have one-year trends and are ranked in five key demos. Ownership info and rep affiliations, along with 12+ cume numbers are included for each station listed. Metros 101+ contain top 10 stations, formats, owners and a two-book trend. **Page 7**

Eastlan Ratings

R&R also includes ratings information provided by Eastlan Ratings for additional markets. **Page 106**

DIRECTORY

The radio and record industry's most comprehensive compilation of companies and organizations.

How To Use The Ratings Information

As you examine the ratings section of the R&R Directory, Vol. 1, '05, you'll find the following highlights featured in the detailed breakdowns for markets 1-100:

1 SHARE TRENDS

All stations in the top 50 markets that earned at least a 1.0 share and the top 10 stations in markets 51-100 (according to the fall '04 Arbitron) are listed. Trends read left to right, with the most recent results on the right. Up to five rating periods are included in any market's trend report, which covers the past year. Stations are ranked according to their Monday-Sunday (total persons 12+) Average Quarter-Hour share.

2 STATION/FORMAT

The call letters are printed in bold type. The format is listed in the column next to it.

3 FREQUENCY/POWER

The frequency and power for each radio signal are shown as listed in the fall '04 Arbitron.

4 AUDIENCE RANKINGS

The six rankings to the right of the frequency/power column will help you determine a station's core strength. The first listing shows the 12+ cume in thousands, followed by five AQH demo ranks.

5 TIME SPENT LISTENING

This column shows the average number of hours and minutes the audience spent listening to the station each week. Based on 12+ total-week listening.

6 OWNER & REP INFORMATION

Station owners (as of March 9, 2005) and their national rep affiliations are shown as listed in the fall '04 Arbitron report.

7 NOTATIONS

Updates are listed noting format and call-letter changes, as well as LMA activity.

8 OWNERSHIP SHARE

At the end of each top 50 market page are three bar graphs ranking owner share. Owner totals are computed by combining the respective fall '04 Monday-Sunday AQH numbers of the companies.

9 MARKET POPULATION

The 12+ population for each market is shown, with the Black and Hispanic percentages in parentheses. In those markets where the ethnic populations do not achieve established thresholds, the code N/A is used.

Population: 15,283,000 (Black: 17.5%; Hispanic: 19.1%)

- ◎ Cost-effective and Durable ◎
- ◎ Perfect for concerts, events and giveaways ◎
- ◎ Will beat or match competitor's pricing* ◎

Roll-a-Sign™ disposable plastic banners are a cost effective way to promote your station, company or special event. Each banner is printed on high quality, weather resistant, 6 mil plastic film. We can print up to four spot colors of ink per banner. Depending on the configuration of your logo, you can get anywhere from 169 to 340 banners on a 1,000' roll.

It's easy to use ... just roll off the desired length and cut! Indoor or outdoor, Roll-a-Sign™ gets your message across and is ideal to give away at concerts and other public events.

Fax us your logo along with the specific color separations and size, and we will give you a free quotation. If you have questions, please contact Roll-a-Sign™ TODAY!

Visit our website today for more information or call to place an order!

THE RADIO INDUSTRY HAS CHANGED A LOT SINCE 1981... but one thing hasn't changed: For 25 years, market-leading radio stations have consistently worked with Film House.

Film House is the world leader in marketing radio stations on television because we focus on RESULTS.

Creators of

- Direct TV® Birthday Game campaign
- Good Time Oldies® • Sing-A-Longs®
- Celebrity campaigns with Teri Garr & Janine Turner
- Listener Testimonials shot in your market
- ... and much more.

“Isn't it
amazing
how everybody
at this
music test
seems to know
each other?”

Not really. If it seems like the people at your music test are all friends who have done this many times before, that's because they are. They haven't taken this test before, but many of them participate in similar tests every day. They've been recruited from a list of “research regulars” who take tests of one sort or another on a frequent basis to supplement their income. They are, in a sense, professionals.

It is extremely difficult to recruit normal listeners for an auditorium music test. Normal listeners don't want to go to a strange hotel at night to take a test. Would you? Of course not. That's why it is nearly impossible for local research companies to recruit for an auditorium music

test without access to a database of regulars they can count on. These professional test-takers do not accurately represent your normal listeners from all over your metro.

Music-Tec does not utilize local research companies, lists, or regular participants — people are recruited 100% at random. No matter how wide-ranging your metro or how complex your demographics, Music-Tec makes it easy, convenient, and even fun for normal listeners to rate the songs.

That's why hundreds of radio stations nationwide have used Music-Tec tests for over eight years. Get more than your fair share of ratings. Call Music-Tec today!

Music-Tec

America's Number One Music Testing Company

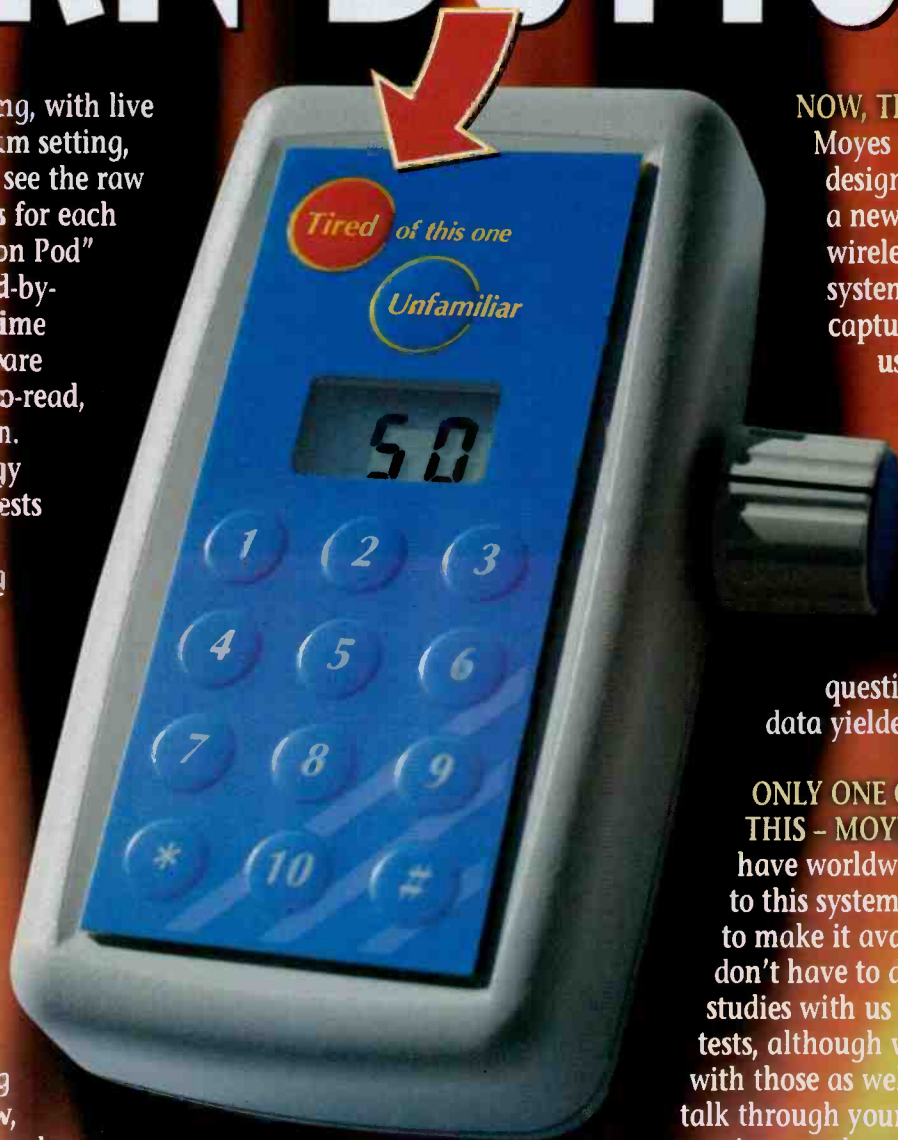

480.966.9146

www.musictec.com

FINALLY! THE DIAL WITH A BURN BUTTON!

Digital Dial Music Testing, with live listeners in an auditorium setting, works well because you see the raw feelings of your listeners for each song tested, each "Station Pod" played. You get a second-by-second readout in real time and *The Analyst*™ software delivers results in easy-to-read, easy-to-manipulate form. Digital Dial methodology yields fast turnaround tests with solid data. That is why Digital Dial Testing is preferred by many respected programmers.

THERE IS ONLY ONE PROBLEM. Smart programmers want to measure "burn" of the songs they test. As much as a listener may like a song, they may be tired of hearing it. A P.D. may inadvertently hurt TSL by over-playing "burnt" songs. Until now, no Digital Dial system has been able to track and measure "burn."

NOW, THERE IS A SOLUTION. Moyes Research has designed and developed a new, breakthrough wireless Digital Dial system. In addition to capturing real time scoring using the usual rotary dial, this system measures "burn" and unfamiliarity using special buttons. The respondents' reactions are measured one question at a time, and the data yielded is more complete.

ONLY ONE COMPANY OFFERS THIS - MOYES RESEARCH. We have worldwide exclusive rights to this system, and we'd be happy to make it available to you. You don't have to do your perceptual studies with us to utilize these music tests, although we'd love to help you with those as well. Just call us. We'll talk through your needs, answer your questions, and quote you an attractive price for your next music test.

**DIGITAL DIAL MUSIC TESTING
THAT GETS ALL THE
INFORMATION YOU NEED.**

“Uh oh.
Our auditorium
test
only attracted
listeners from
two of our
hot zips.”

Most radio stations have 15 to 18 “hot zips” dispersed throughout their metro area. These are zip codes that consistently return diaries in the station’s format, book after book. Since this information is used to determine how the station performs in the ratings, making listeners in these hot zips happy with your product is critical to your success.

Obviously, people from these hot zips need to be represented in your station’s music test. That is, unfortunately, impossible in traditional auditorium music tests. Test participants are predominantly from zip codes near the hotel where the test is held. This limited “draw area” may include only one or two of your

station’s hot zips, adversely affecting your ability to survey listeners you know consistently return diaries.

Music-Tec recruits participants from your entire metro area and every one of your station’s hot zips. Listeners are recruited 100% at random. No matter how wide-ranging your metro or how complex your demographics, Music-Tec makes it convenient, easy, and even fun for normal listeners to rate the songs.

That’s why hundreds of radio stations nationwide have used Music-Tec tests for over eight years. Get more than your fair share of ratings. Call Music-Tec today!

“I’m so
tired of
this. It seems
like these
auditorium
tests
never end.”

That’s a sentiment you hear often at traditional auditorium music tests. Auditorium tests seem to drag on and on. The simple explanation? They do drag on and on – usually at least two full hours and sometimes longer.

As test participants become increasingly fatigued, impatient or restless, song scores tend to drop dramatically. In fact, the last 200 songs score ten or more points lower, on average, than the first 200. This skews the results of testing and severely degrades the quality of data gathered. Making good programming decisions is hard enough. Why base decisions on bad information when there is a better way?

Music-Tec delivers dependable scores on 100% of the titles you test. Participants can test your music in small segments, so they don’t become bored or fatigued, and each person tested hears the music hooks in a different order, completely eliminating order bias.

No matter how wide-ranging your metro or how complex your demographics, Music-Tec makes it easy, convenient, and even fun for normal listeners to give you accurate feedback.

That’s why hundreds of radio stations nationwide have used Music-Tec tests for over eight years. Get more than your fair share of ratings. Call Music-Tec today!

PURE MARKETING
The Leader
filmhouse

THE RADIO INDUSTRY HAS CHANGED A LOT SINCE 1981... but one thing hasn't changed: For 25 years, market-leading radio stations have consistently worked with Film House.

Film House is the world leader in marketing radio stations on television because we focus on RESULTS.

Creators of

- Direct TV® Birthday Game campaign
- Good Time Oldies® • Sing-A-Longs®
- Celebrity campaigns with Teri Garr & Janine Turner
- Listener Testimonials shot in your market
- ... and much more.

HOW TO USE R&R'S PROGRAM SUPPLIER GUIDE

R&R's "Program Supplier Guide" is a compilation of more than 2,000 listings of syndicated programs, radio networks, automated and satellite formats, production music libraries, jingle packages, and song categories. Each listing contains detailed programming and technical information, a brief description, and the name of the distributor and its phone number.

✓ **To Browse Through A Specific Product Category:**

1. Consult the **Table of Contents (Page 1)**. Choose a category and turn to the indicated page.
2. Programs and products are listed alphabetically by title within each category.

✓ **To Find Out What Programs Or Products Offered By A Particular Company:**

1. Turn to the **Index**, which begins on **Page 447**.
2. Every company that offers a product in the "Program Supplier Guide" is listed alphabetically, each with an alphabetical listing of the products it offers.

✓ **To Contact The Distributor Of A Program Or Product:**

1. Each listing contains a phone number to call for more information.

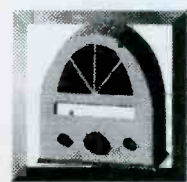

✓ **To Find A Specific Program Or Product:**

1. Turn to the **Index**, which begins on **Page 447**.
2. Complete information on the program or product will be found on the page number indicated.
