Federal Swine and Poultry Remedies

THE Remedies are the outgrowth of Dr. Geo. R. Miller's experience as a practicing Veterinarian. After subjecting these Remedies to wide tests in his own practice, Dr. Miller conceived the idea of manufacturing them for general use. The growth of the Federal and the widespread use of its products are proofs of his wise decision. Federal Remedies are now proven aids in raising healthy Swine and Poultry, over a wide territory radiating from York, Nebraska.

Federal Dona Vita (Give Life)

An all liquid Remedy for the prevention and treatment of intestinal and lung diseases of Swine. This remedy does not have to be force fed. Hogs will eat it after they have refused other food. It is a powerful and sure corrective of the common ills that afflict Swine.

Necrotic Enteritis and Swine Flu: Dona Vita is both a protection against and remedy for these diseases. It acts quickly and effectively. It destroys Necro and Swine Flu, corrects digestive faults and, if used in time and according to our directions, will keep herds free from contagion and those diseases that are epidemic.

Our Guarantee

If after seven days treatment, given according to our specific directions, Dona Vita does not do what we say it will, we will gladly return your money.

We prescribe one gallon of Federal Dona Vita to each ten pigs. This will be a sufficient quantity to protect them from Necro, Swine Flu and Worms until they are large enough to be immune from these diseases.
