July 1983

THE NEW FAT ALBERT SHOW

ON AIR: Begins its twelfth season on the CBS Television Network in the fall
Saturdays, 1:00-1:26 PM, ET

ORIGINATION: New York (film)

ORIGINAL PREMIERE: September 9, 1972

HOST: Bill Cosby

FORMAT: Actor-comedian Bill Cosby presents his familiar Fat Albert character in visual form as an animated cartoon personality in an entertaining format that also provides a learning experience for children of elementary-school age. Through each episode, in which Cosby appears as himself to set up the story and to underscore what has been learned from the tale, it is hoped that children will better understand themselves, the world in which they live, and the problems they face every day. The series is peopled by the friends with whom Cosby grew up, with Fat Albert serving as the focal point. Cosby will continue to be heard as the voice for the animated character, "The Brown Hornet," a very special kind of problem-solver. Producer Lou Scheimer also presents "Mudfoot Brown's Fairy Tales," a delightful, symbolic look at some of the problems confronting children

PRODUCED BY: Filmmation Associates
