A QUARTER CENTURY OF SERVICE TO THE HEART OF INDUSTRIAL AMERICA
ON THE OCCASION

OF OUR

25th ANNIVERSARY

... we at WWVA wish to express our deepest gratitude to our many friends whose confidence and loyalty have played such an important part in our continuous growth over the past twenty-five years.

Today; pleasant memories of that past are mingled with hopeful anticipation of greater happiness to come ... of peace and fulfillment for the peoples of our mighty land.

Since our first broadcast twenty-five years ago, we have come a long way ... but not alone.

Our thanks, then, to you ... our steadfast companions at this cherished milestone.
President

The characteristic foresight and thoughtful management of Mr. George B. Storer has been the vital factor in the rise of WWVA from a small 50-watt station in 1926 to one of the nation's outstanding 50,000-watt broadcasters. Mr. Storer's thorough conception of modern broadcasting dates back to 1927 when as an advertiser he used radio station WTAL in Toledo, Ohio. Late in 1927, visualizing the possibilities and future of radio broadcasting, Mr. Storer purchased the Toledo Broadcasting Company, owners of WTAL, changing the call letters to WSPD, which is now one of the important stations in the Fort Industry group.

In March, 1931, the broadcasting interest had grown to such a point that it was decided to expand and the company purchased Radio Station WWVA, in Wheeling, W. Va., then owned by the West Virginia Broadcasting Corp.

The Fort Industry Company now operates seven AM radio stations, five FM radio stations, and four television stations in Miami, Atlanta, Fairmont, Cincinnati, Toledo, Detroit, San Antonio, and Wheeling. Each of these stations is operated on a local basis to best serve the individual community.

During World War II, Mr. Storer took time out from his broadcasting activities to serve as a Commander in the U. S. Navy.

Since 1948, The Fort Industry Company has had a television application on file for Wheeling with the FCC. Every effort is being made to provide outstanding television service just as soon as it is possible.

SENIOR VICE PRESIDENT AND TREASURER

Mr. J. H. Ryan, who with Mr. Storer has guided the destinies of WWVA since the station was purchased in March, 1931, is Senior Vice-President and Treasurer of the Fort Industry Company. Very few organizations are favored with a finer inspiration to achieve than that which has radiated through the years from the friendly and thoughtful personality of Mr. Ryan. He has seen WWVA grow out of its swaddling clothes into its present man-size operation. During World War II, Mr. Ryan was selected as the radio broadcaster in charge of the Radio Division of the U. S. Dept. of Censorship, and in 1944 he was honored by election to the Presidency of the National Association of Broadcasters. Mr. Ryan's influence on the Friendly Voice From Out the Hills of West Virginia has been far reaching.
VICE PRESIDENT AND WWVA MANAGING DIRECTOR

William E. Rine, Managing Director of WWVA, is also Vice-President of the Fort Industry Company in charge of the Central district, and has under his direction in addition to WWVA, the activities of Radio Station WMMN, in Fairmont, W. Va. Known to advertisers, talent, staff and general public alike as "Bill", he has been with WWVA since December, 1932. He became Managing Director of WWVA on May 15, 1946. A native of Wheeling, Bill and his attractive wife, Caryl, have three children, Caryl Leo, 11, Johnny Bill, 8 and Tommy Mike, 6.

EXECUTIVE VICE PRESIDENT

Lee B. Wailes joined the Fort Industry Company as General Manager in 1946 and on January 9, 1948, was made Executive Vice-President in charge of operations of all Fort Industry stations. He has had a wide and varied career in the radio broadcasting business and was formerly executive head of the Westinghouse Radio Stations, prior to which time he was an executive with National Broadcasting Company for 9 years. Mr. Wailes is faced with the thousands of problems that make up the business of broadcasting and has the responsibility of looking far into the future to formulate policies and plans for Fort Industry stations.

Left—Paul A. Myers, Program Director. Paul was on the station as an entertainer in 1931. He joined the staff in December, 1925 and on 940 on its return from the Navy became Program Director. Center—Ervin L. Keim, Chief Engineer, came to WWVA in 1931. Eddie succeeded Glenn Boundy as Chief Engineer in 1942. He is in charge of all engineering activities. Right—Paul J. Miller, Assistant Managing Director. Paul joined the staff in 1931. One of radio's old timers he dates his entry into broadcasting back to 1921 when crystal sets were just going out of style.
From 50 To 50,000 Watts

Here are pictured the various transmitters used by WWVA beginning with the first transmitter in 1926, pictured below. This was a 50-watt transmitter built by a Wheeling Pioneer, John Stroebel, and located in the basement of the Stroebel home.

Lower left, the 500-watt transmitter which replaced the original equipment a few years later and was also installed in the Stroebel home.

Center right, WWVA's first studio which was actually the living room of the Stroebel residence. In the picture at left is George Kossuth, one of the first persons to broadcast over WWVA and right, John Stroebel, builder and original owner of the station.

Lower right, 500-watt transmitter installed at West Liberty, West Virginia, in 1932.

Pictured in upper left is Glenn G. Boundy who was in charge of the WWVA Engineering Department from 1928 until he entered the Armed Forces as a Radio Specialist in World War II. Returning from service, he was made Chief Engineer of all Fort Industry stations.
The 50,000 watt transmitter shown above is one of the most modern in the nation. In the circle to the right is Bill McGlumphy, assistant Chief Engineer, at the controls. Bill is in charge of transmitter maintenance and it is his job to keep WWVA programs out on the air without interruption.

Below is an aerial view of the 163 acre WWVA transmitter site. Planted with over 35,000 pine trees as a soil conservation project the site is also a game refuge. At the right is an officer servicing one of the feeding stations.
HIGH SPOTS

Throughout the quarter century WWVA covered the top events as they happened in the Ohio Valley around Wheeling. Here are a few of the many events which found the WWVA microphone reporting.

Jack Supler is the Pioneer of the present WWVA staff. Born John A. Supler on a farm near Dallas, West Virginia, Jack was winding coils on oatmeal boxes and fiddling with crystal detectors before he was out of high school. When John Stroebel began experimenting in the transmission of voice and music, Jack's home was one of the listening posts. Some circumstance, not now remembered, kept Jack from attending the first transmission under the call letters WWVA, but he assures us he was on hand for the second WWVA broadcast ever made back in December, 1926.

For years Jack handled virtually all WWVA remote broadcasts and was familiar to Jamboree fans as the "man in the booth". He is now one of the engineering staff that operates the powerful 50,000 watt WWVA transmitter.

Jack is a veteran hunter and fisherman and widely known horseman. Just recently he was elected President of the Interstate Horse Show Association.

A special program commemorating WWVA's 25th Anniversary was broadcast from the stage of the Virginia Theatre in Wheeling, preceding a regular Jamboree Show. Upper left William E. Rine, WWVA Managing Director, is being congratulated by Charles J. Schuck, Mayor of Wheeling. Mayor Schuck, who was the first legal council for WWVA in the early days, is seen in upper right picture as he spoke on anniversary broadcast. Large picture is view of stage showing announcers, entertainers, and production men as show was being broadcast.
Salesmen Lew Dickey, Andy Hoffman and Howard Meagle. Howard is also Promotion Director.

Lucille Bock, Traffic Supervisor; Mildred Cogley, secretary to Mr. Rine; and Martha Donoghue, secretary to Mr. Miller. Miss Cogley joined WWVA officially in 1931 and also has the distinction of typing up the first license application back in 1926.

Jim Whitaker conducts the daily Telo-Test Show.

Every weekday afternoon: "Jamboree Matinee" features stars of the World's Original WWVA Jamboree.
Lew Clawson and "Elmer" the cuckoo are stars of The WWVA Musical Clock. Lew's TNT program of Time, News, Temperature and Music is one of WWVA's most popular local features.

Vivian Miller has been a featured organist on WWVA for almost 25 years. She first broadcast in 1927 and is the pioneer of our present day talent. Her prized possession is a record of a Jamboree Prologue made in England in 1934.

Jim Whitaker checks an old Edison cylinder for his "Antique Record Shoppe". He has a library of thousands of old records, many of which are collector's items.

Lee Moore, "the old night hawk", presides over Jamboree Party from 11:15 PM to 5:00 AM.

WWVA plays host to Jamboree stars and their families at a Christmas dinner.
15 Years of Farm Service

The Tri-State Farm and Home Program has been a daily public service over WWVA since 1936. More than 5,000 programs have been broadcast. County agents and agricultural authorities of many farm agencies have been a vital part of the service. Five of the pioneers who helped to originate the series and are still active today are pictured in the circles.

W. C. "Uncle Bill" Gist, county agent from Brooke County, dean of Farm Broadcasters. He was first chairman of Farm Broadcasters organization.

Robert Lang, county agent of Belmont County.

Jim Whitaker, WWVA Farm Director, conducts the daily farm programs. Pictured above with Whitaker is the "dinner bell" used in the first programs.

F. P. Taylor, county agent from Jefferson County.

The Tri-State Farm Broadcasters gather in conference to discuss current farm broadcasting problems.

R. S. Virtue, county agent from Marshall County.

Milton Bliss of the U. S. Dept. of Agriculture watches "Uncle Bill" Gist cut the 15th Anniversary cake.

Kathleen "Katie" Stephenson, home demonstration agent from Wetzel County, is present chairman of Farm Broadcasters.

In 1946, the 10th Anniversary Farm broadcast featured Kathleen Stephenson, Miriam Foltz, Jane Lyman, Paul J. Miller, R. S. Virtue, John Handlan, F. P. Taylor, V. G. Applegate, W. C. Gist and Ted Spears.
