## DIANNE JAMES

Twenty must be a great age if your ambitious and on your way to stardom, and if you meet Dianne James you'll see the picture of youthful success.

Dianne has many assets and among them are looks, personality and talent. She sings and writes a great deal of her own material. She started singing in front of groups in Edmonton and it was there that Don Eckess, an energetic Canadian starmaker, found Dianne and swept her off to Winnipeg for her first session. Arc Records saw Dianne's potential and her first release was a result, but it wasn't as easy as it sounds.

You recognize the James star quality as soon as you meet her. She's energetic and interested in everything around her. She finds this whole new business captivating and if hard work will help her make it, she'll give up sleeping and move at a mile a minute. Everywhere she goes, Dianne meets as many people as she can and these people can only fall in love with Canada's newest potential female great, and what an image for the singing gals across Canada to live up to. From the skiing, motorcycling, to all the outdoor sports Dianne is a winner. Indoors she cooks up a storm and really loves popular music. She resembles the consumer more than the product and the hits are her cup of tea.

Often she'll engross herself in conversation about records and forget that she's talking about her own contemporaries and become a fan.

If Dianne wasn't a singer, we're sure she'd be a television or radio personality or a fashion commentator. Whatever, she would do it well.

Her first outing for Arc took three weeks to take off and currently "The Time Has Come" is climbing charts all over Canada. This coincides with her cross-country tour with the "Shower of Stars" show and puts Dianne in the limelight with some of the top record acts in North America.

The ingredients for success in this story seems to be charm, talent and a sincere appreciation for people, places and things. Dianne James will be Canada's new female discovery and if you take your eyes off this gal, you'll miss seeing it happen.

**Dateline Montreal:** We received a picture card in the mail from Pierre Lalonde reading "Darling - Je vous aime beaucoup - forever, Pierre." A great promotion for an even greater talent. Pierre has always been one of our favorites and now that he has taken over as host of the Montreal CBC-TV "Music Hop" the show has improved.

From the Victor camp comes another success story for their teen scene. J.B. and the Playboys have released their third single (special picture sleeve) "My Delight" f/s "Don't Ask Me To Be True". This puts three of their discs on the market in a very short time . . . so big things should happen for the boys. The Big Town Boys, another Victor mover with "Put You Down" is being released in the US on RCA Victor. Plans are now being made for the Boys to cut a film for "Cine-box" the new TV juke box. And still with Victor comes news of the release of a single by The Mercy Brothers out of Toronto, "Her Name is Joanna" f/s "Little Devil Come Back" could put these popular guys back on the hit scene.

Hal Ross advises that "Land Of A Thousand Dances" by Cannibal and the Headhunters on the Rampart label and all stations should have their copies by now. Reaction to "Until You Do" by The Jury out of Winnipeg is starting to show on charts across Canada.

Boxer's back and probably the most popular radio personality in town. Dave recently made a trip to England and interviewed all the royalty of the English Sound including The Beatles, Dave Clark, Manfred Mann, Cliff Richard and many more. We also understand Dave brought back an exclusive arrangement for a mag on the greats of the tight little Isle.

**Dateline Belleville:** "The Crow's Nest", the city's first teenage nightclub opened to a capacity crowd. Co-owners, Phil and Joan Bennett plan to bring in many of the top names in Canadian pop music and did so for the opening with one of the most popular groups around, Robbie Lane and the Disciples. Host of the Saturday Night "Bang" is Dave Charles popular radio personality from CJBQ. Dave has a new dance called the "Crow" under way.

**Dateline Halifax:** Stephen Kimber sends news that Moncton's Playboys, frequent guests on CBC-TV "Frank's Bandstand" will be waxing "Too Blind To See", which has already been featured on the show and received "hit" raves. Also from the "Music Hop" realm is a prediction by Kimber that 16 year old Haligonian Roger Gray who along with Carl James penned "What Can You Do" will be the next Maritimer to make the disc market. Stephen also has news that the Rocktones have waxed two sides for Melbourne and will be releasing "I'm A Man" f/s "Bad Girl" shortly. "Schoolscope" is a new teen type show heard on CJCH and is fast becoming the talk of the Halifax school set. It features reports from local High school students who have been given a free hand and to the amazement of everyone have come up with some pretty well produced material including interviews with the school hero, etc.

**Dateline The Big Pineapple:** The Regents, featuring Dunc and Judy have released what could be the big one they are looking for. "Me and You" has already been placed on many play lists.

Dianne James and her manager Don Eckess dropped out to our retreat on the weekend (Feb.14) and never never never underestimate the power of a woman. If her record doesn't impress you her refreshing and beautiful attitude toward the business will. Dianne is the greatest ambassador of Canadian western hospitality we have met. Her single "Time Has Come" (Arc) is now showing up on many charts across

the country.

Here's an SOS from Ken Stanley of Arc Records. Would the Program Manager named Harvey who recently returned a questionnaire to Arc please supply Arc with your call letters.

*on the air*

**Dateline Peace River:** CKYL, under the direction of Chuck Benson has arranged to audition submitted tapes by talent from the Peace area. If, in the opinion of the station personnel, the tapes are good enough they will be sent along to interested record companies.

**Dateline Winnipeg:** The 4th annual convention of the North American Broadcasters Idea Bank is to be held at the Greentree Inn in Sandusky, Ohio, May 20, 21, and 22. The Idea Bank (founded by CKY 4 years ago) has no dues or assessments.

It is simply a co-operative venture between idea-conscious broadcasters. Radio stations interested in participating in this organization known throughout Canada, Australia and the US can obtain application forms by writing to Dave Lyman, Moffat Broadcasting Ltd., 432 Main St., Winnipeg 2, Canada.

**Dateline Sudbury:** Ray Bye along with the rest of the Good-Guys at CKSO are having a busy time auditioning area bands for on air competition. Groups who meet the standards will be taped and played through the week on the radio and appear on the CKSO-TV Teen Show. Viewers and listeners will be asked to vote and winner will audition for a National Network Teen Television Show. (Competition will take six weeks). Ray also reminds us that CKSO is still maintaining 10% Canadian content on their chart. "Weepin' Willow Tree" by Ray Griff just showing up on some charts has been on the 'SO chart for 4 weeks.

## ON THE MOVE!

# LUCIO AGOSTINI

SPOTLIGHTING COMPOSITIONS

BY LEADING CANADIAN  
COMPOSERS!

CAPITOL RECORDS OF CANADA, LTD.

Johnny Loweth at CHNO finds "So Many Other Boys" by the Esquires is still receiving many requests followed by Terry Black's "Say It Again" with Ronnie Hawkins "Didley Didley Daddy" punching in as 3rd most popular. Coming up strong are "Put You Down" by the Big Town Boys and "It's About Time" by Bobby Curtola. A popular local group the Beau Keys have been packing the crowds in at area hops.

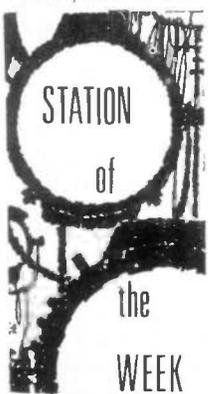

**Dateline Calgary:** Marion Lawrence and Bernie Bishop have found that with all the Canadian talent available on wax the best way to expose this talent is by creating a Canadian talent show (Feb.17) on CFAC. This will take up a portion of Bernie Bishop's show (8-MN) and the audience will be asked to comment on the discs. (Note: All record companies should make sure CFAC is on the mailing list for Canadian records).

**Dateline Amherst:** Gary Crowell and Mike Duffy from the "Twin Station" coverage area of CKDH and CKCL report that due to the promotion by their radio personalities the Red Cross Blood Donor Clinics surpassed the old record of "pints of life" received. To help with the promotion, every radio personality gave a pint of blood. A precedent was set, in that local teens for the first time were permitted to donate. Louis Armstrong played the Halifax Forum during the Winter Carnival drawing six thousand, beating the record of 5,000 for the Beavers last May. Gene "Duke of Earl" Chandler was also in the Port City for a seven niter at a local theatre. His new release "Sweet On Susie" has been released in the US and looks like a big one. Columbia's Clancy Bros. with Tommy Makem made several appearances in the area at Mount Allison University's Winter Carnival and interviews with Mike Duffy for the "Twin Station" area. Top of the Honourary Canadian Top Ten is "Put You Down" by the Big Town Boys.

**Dateline The Bigland:** Quality Records presented the Canadian Talent Broadcasting Awards to six Canadian Radio Stations for promoting Canadian recording artists. Recipients were; CKYL Peace River, CHAB, Moose Jaw, CKOM Saskatoon, CHSJ, Saint John, CHEX Peterborough, CHOK Sarnia. (Congratulations to Quality for this great tribute to progressive radio stations and to the noted radio stations for their leading the way. Next year, who knows there may be fifty such awards. Let's hope so).

Thanks to Johnny Onn at CJME we now know that "Ouille De Douie" by the Marrs Five on Amato is distributed in Manitoba and Saskatchewan by Laurel Records of Winnipeg and the rest of Canada by Canadian Music Sales, Toronto.

**Dateline St. Catharines:** Rick Paul who holds forth on "Nightwatch" at CKTB has found time to host a few local hops and has worked with a weird looking group with a great sound called the "Morticians" soon to be heard on record.

Each week there is a station in Canada making a significant contribution to furthering the cause of domestic music. Last week we instigated a policy of making mention of these ambitious stations and this week we take our hat off to Radio Station CHUM in Toronto whose current chart lists SIX fully qualified Canadian content records and two partly Canadian records. Five of the six are CanCut. This is a great achievement and the first time CHUM (one of Canada's leading hitmakers) has listed this many records of domestic origin. This is truly the Canadian Content Station Of The Week.

CHUM's Dave Johnson is one of the biggest hypers of Canadian Content recordings (and a member of RPM's Sounding Board) and this is the kind of hyping we're in favor of.

While CHUM's chart is a standout, Dave is having great success with another CanCut single that is winning by big margins over Gene Pitney, Jan and Dean, Nashville Teens, The Supremes and others. The strange aspect of this story is that "Baby Ruth" wasn't cut to be a hit. It was written as a promo for a candy bar, and the hit part came about as an afterthought.

## Editorial

"LIVE MUSIC IS BEST" says the Establishment at Thorncliffe Park. BUT ... taped music by foreign musicians seems to be better. Anytime a Canadian musician walks into a restaurant, hotel or rest room, he can expect to be entertained by taped music. It is the feeling of many that it is time to make sure that some of this "piped in" music is Canadian. It might be the first move of the Establishment to put some of this money in the pockets of their Canadian members.

The recording industry is here to stay and like the printed book or film that documents history, the record will leave behind the music of our day. What a pleasure it is to hear the old recordings of Paderewski or Caruso. The very idea of not documenting Glenn Gould's or Paul Brodie's artistry makes no sense at all.

In every country the record business flourishes, and Canada should be no exception. If "LIVE MUSIC IS BEST" we might stop and think and ALWAYS add, "but recordings allow the melody to linger on."

The union, providing concerts in the parks with money from the trust fund may bring enjoyment to few, should look into using this money to preserve the artistry of their members many of whom will be forgotten in ten years. Canadian record companies are most anxious to promote Canadian musicians and if the trust fund monies were used by the union to produce Canadians playing Canadian music perhaps the ultimate goal of the MUSIC industry could be achieved and the day might soon come when every recording studio in Canada would be recording 16 to 24 hours a day providing work for many musicians and stardom in recordings, concerts, and motion pictures for the talented.

This is the time for everyone in the music business whether union or record company or radio station to build and create an industry and beware of those that might curtail the progress that the industry has made in this last year.

Let's encourage our musicians young and old to work together to encourage RECORDING IN CANADA. Too many dollars have been spent in other recording centres that should have been spent in Canada. It would distress anyone to hear that one spokesman for the union has views regarding recording in Canada that might insult some of the hard working people who are laying the ground work for fame and fortune for the Canadian musician. Let us tread very lightly sir!

The industry is looking for cooperation and support from the musicians and musicians union in Canada. It is the time to work together, and the word union should reflect our attitude toward the future because the past must be forgotten by a few to make the future better for many. We must make our own decisions in Canada about where Canada's place will be in the music picture in the 1960's and "LIVE MUSIC IS BEST" but full scale employment and world acceptance in the music business is one hundred times BETTER. Let 1965 be the year of the new thinking and progress and the hell with dramatics and tempests in tea pots Sir!

Damita Jo back in the hit sweepstakes with a big Epic album and a new Veejay single, "Hurt a Fool."

Canada's Percy Faith plays Latin themes "For Young Lovers" on new Columbia LP. Drink to the "Kahlua" cut, folks - it's got it . . . Hank Levine, the gifted arranger-composer, inked by Columbia to cut a teen chorus. It's a non-exclusive deal. Fact is, arranger Levine arranged H. B. Barnum's first deal for Capitol last week. Barnum, a fine arranger in his own right, vocalized on this session and preferred not to do his own arranging.

Eddie Davis is a discoverer of talent. He's just come up with a hot group, Cannibal and The Headhunters, sizzling with "Land of 1,000 Dances." Eddie is also showcasing on wax two more groups - The Jaguars, with "Where Lovers Go"; and The Atlantics, with "Fine, Fine, Fine" on Rampart . . . ## NEW YORK DATELINE

by Harriet Wasser

No words could ever express the great sorrow felt by all of us in the music business at the loss of NAT "King" COLE. Many tears will be shed in the years to come as we ask ourselves, "Why?". Nat was too young.

The closing of "Kelly" after one performance on Broadway must have come as a great disappointment to Canadian Don Franks. However, upon listening to his Kapp LP, "Lost... and Alone", I feel this is only a temporary set-back. Don sings with a deep understanding of the lyric. The timbre of his voice should make him big not

only in pop circles but in jazz circles as well. No Canadian should be without this great LP.

Troy Seals is a ruggedly handsome young man with a deep understanding of the blues. I had the pleasure of meeting him this past week, at which time he told me Atlantic Records would be releasing a single by him besides a new disc by Jo-Ann and Troy.

Jimmy Roselli is about to open at the Copacabana. It is just possible that this booking could be the break Jimmy needs to start selling records in volume... Billy Eckstine who deserves a hit record, is said to be talking to the people at Tamla-Motown.

Tin Pan Alley is talking about the "choice" booking of Cilla Black into the Plaza Hotel's Perisian Room on July 26th.

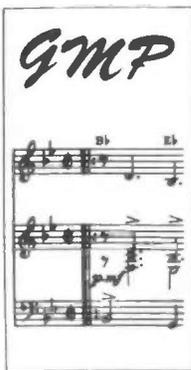

It could be a little early to tell, but so far "The Bostella" has not created any real excitement. The version being played is by Esperanza Gustino. As for "For Mama", it had looked as though the Jerry Vale record would be the one to make the charts. However, MGM rushed out their version by Connie Francis so now the race is really on. This might end up being Connie's biggest record since "Mama".

Waiting to break big on the charts we have "Do The Clam" by Elvis and a record by a brand new artist, Roddie Joy, called "Come Back Baby". "The Race Is On" is different for Jack Jones, but it is catchy and could hit big.

Before leaving N.Y. to tape the first Dick Clark "Special" for CBS, Bob Gaudio of The 4 Seasons told me they are waiting to receive a script from Columbia Pictures for their first movie. The boys will have a new album released very soon.

There is speculation as to whether Ringo's popularity will suffer because of his marriage.

NOTES OF INTEREST - Robert Goulet hosts "The Hollywood Palace" the night of March 10th. Lorne Greene appears on "The Jack Paar Show" on April 2nd. Red Birds Records will be releasing an LP of their hits shortly after just being in business a little over a year. Fans of Ringo Starr will soon be able to buy a book of photos he snapped. Trumpeter, Bobby Hackett, joins Tony Bennett on the road.

Ed Preston, Musical Director at CHML Hamilton reports great reaction to the ninety minute tribute (sans commercials) to Nat King Cole. This took place on the R.O. Horning show. R.O. called Mel Torme in New York for his comments and found that Mel hadn't heard of the death, having finished a late evening show and was roused the next morning by R.O. with the shocking news. Nat Cole had made a hit of "Xmas Song" which was written by Torme. R.O. then called Nelson Riddle in California for his tribute and then Geoff Racine of Capitol Records. It was the greatest tribute

any radio station could pay to one of the finest performers in the business. The switchboard lit up with requests for the songs Nat Cole had made famous. A good percentage of the calls came from the Big Pineapple where CHML is regarded as the best GMP station in the area. The day of our new flag was also done up imaginatively and with much effect by CHML. Johnny Wayne's "Charlottetown" and the Travellers "Something To Sing About" started the day off on Paul Hanover's morning show along with tributes to the Canadian people etc. for having achieved their own flag.

Kirk Northcott at CJOB Winnipeg reports that it was CJOB that instituted the first programming show in Winnipeg. It was in 1962 when a telephone discussion show on topics of local and national concern which has since blossomed to include the opinions of controversial and respected citizens. This Show "Beeline" is hosted by George McCloy and aired weekday mornings following the 9 AM news.

## SOUNDING BOARD

**FRANK CAMERON**

**Hobo**

"Instrumentals are a dime a dozen and I think this is no exceptional tune. Run of the mill guitar and drum instrumentals are being released by every rock and roll group from here to Australia. It's well done, and should be a favorite at hops, but doubt if air play will be sufficient to chart it. COULD."

**DAVE LAFAVE**

**Easy Come Easy Go**

"Great reaction already! What more can I say, except that it should make the top ten in Halifax. It's certainly got the sound and beat! Congratulations Barry for a great Canadian record!! SHOULD."

**DAVE JOHNSON**

**Hobo**

"It seems to me that there is a smaller market for instrumentals than for vocals. This means the song without words has to be strong. This is. A great beat for dancing, and I'll be playing it at my hop. I think it's also worthy of air exposure. COULD."

**SANDY GARDINER**

**Hobo**

"Wes is certainly barking up the bit parade tree with this outing. At first listen it doesn't exactly strike you but it has an infectious appeal that will grow if the air men give it a push. SHOULD."

**Don't Go**

"Dianne demonstrates vocal talent galore on this release and her self-penned effort could quite easily happen. The arrangement is straight forward but easy on the ear and this cute number deserves the spins. COULD."

**BOB WOOD**

**Hobo**

"The group's first effort with Capitol really swings out. Already charted on the 'Top '62'. It's destined for the top 30 at least. This band could get 'The' break with this hit & go 'Big Time USA'. SURE."

**CHUM Toronto**

**Wes Dakus**

**CHUCK BENSON**

**Say Baby**

"Dee and the Yeomen have the arrangement to make a hit. Whether it makes the top 10 or not, remains to be seen. According to the attractive sleeve, it seems these boys hail from across the pond?? In more Canadian discs, the organ is becoming the solo instrument. Let's hope they switch to a big band soon! COULD."

### COUNTRY

BMI Canada's monthly newsletter takes on a new format with the next issue, reports Harold Moon, bossman at 16 Gould Street, and Canada's radio personnel will be the new editors. The more interesting your news is, so will be the newsletter, so be sure to keep in touch with the news around your station. While this is in the country music column it does not necessarily refer only to the country stations, but to all Canadian outlets. And while you're writing why not drop a line to RPM too? ■ A note from the Rainvilles, Maurice and Dot, inform they are now in the Niagara Peninsula

area after just finishing a three year TV'er in Sudbury called "C.K. Ranch Party" (at CKSO of course). They live in St. Catharines and are currently appearing in the Niagara Lounge at Niagara-on-the-Lake. ■ Bill Anderson has a new syndicated TV show originating at WSM-TV, Nashville, aired every Saturday over a network of stations. Show stars Anderson Jean Shepard, Grandpa Jones and Jimmy Gately along with Anderson's band, the Po' Boys. ■ CFOX, Montreal has set Sonny James for a single niter in the big city in March but an exact date is not yet available. Sonny's Capitol hit "You're The World I Know" can't go any higher on the national C & W charts and is heading in the same direction on the pop charts too. ■ Toronto country-folk artist Gord Lightfoot has his song "For Loving Me" on a Warner Brothers outing by Peter, Paul and Mary which is showing strong reaction. ■ Wayne Petrie pens that his station, CKEC, New Glasgow, N.S., has increased its country music time and they are most anxious to devote more time to spinning Canadian C & W wax IF they could get the records. How about that, distribs? Wayne would also like to hear from live Canadian C & W talent interested in participating in their live show. ■ That's it for now, but don't forget to keep in touch.

An estimated 6,000 Country fans jammed Massey Hall (2 shows) Feb. 15 to watch and obviously enjoy CFGM's Country Show starring Johnny Cash, David Houston, Sandy Selsie, Cy Anders and others. It was a great show and another CFGM success. But...Ralph Thomas of the Toronto Star panned the show. Thomas, it would appear doesn't appreciate country music. He pans all country shows. We suggest he tread lightly when it comes to being too critical of greats like Johnny Cash and others. Country fans are known to be the most loyal in the world, and an angry mob of them marching on the Star building would be a little frightening.

In view of the obvious disinterest in RPM's Country column by Country stations and jocks we have decided to discontinue this column. Perhaps we were a little too premature in believing that country influenced stations would welcome the chance of having their own Canadian column in which to air their views etc. We will, however, maintain the Country chart and hope that our action will stir up a little mail interest and perhaps we can re-activate the column in the not too distant future.

"If I Ruled  
the World" c/w  
"Take the Moment"  
on Columbia 4-43220  
Records

"Take the Moment," necessary to play this new release and I'm sure you will enjoy it as much as, "I Left My Heart in San Francisco."

Thanks,  
Tony
