

YOUR COMPUTER BUYER'S GUIDE

In this special publication, we take a look at the art of choosing a micro or printer, as well as letting our reviewers loose on the top machines in the market. You'll find reviews of the latest microcomputer systems such as the ACT Sirius 1, Apple III, BBC Micro, Commodore 64 and ZX Spectrum, and we'll also be taking a look at some of the old favourites such as the Apple II,

VIC-20 and TI-99/4A, to see how they fare in the modern marketplace. In addition, you'll find up-to-the-minute reviews of various printers.

If you're at all confused by the wide range of microcomputer systems available, you'll need Micro Choice — the magazine that helps you make the right choice!
