from countries where you normally wouldn't get the information from. It might improve the knowledge of your people on which kind of songs are popular on a European basis.

MUSIC-VIDEO-PRODUCERS: in our regular contacts with many video producers we always hear that they hardly ever know where their productions are being shown and what the broadcasting format is of the TV shows in the different countries. You can now learn both by reading EUROTIPSHEET.

MANAGER'S: Follow your artist's international career on a week-to-week basis and understand more about the way promotion should be done in the sometimes "very different" markets of Europe.

OUR FUTURE PLANS
In this first issue you can read our most important "regular" features. Please bear in mind that we haven't yet established the best communication-line with each correspondent, so that some are not yet, in this issue, but they'll be in next time. We are planning a number of other improvements already:

There will be special marks on the EUROPEAN TOP 100 (Singles/Albums) for sales of over 1, 2 and 3 million copies. We are planning regular "SPOTLIGHTS" on major TV and radio stations and their personalities. From time to time we'll be giving highlights of the AUSTRALIAN charts (thanks to Kent Report).

There will be SPECIAL ARTICLES on the way radio is structured in the different European countries. And we will closely follow the development of National Governments Television and the growth of Cable and Satellite programs. Our magazine is sent to you each Friday. You can get the EUROPEAN TOP 100 by telex on Thursdays. In a few weeks you'll be able to instantly read our highlights and charts per computer-mailbox via Telecom Gold.

EUROTIPSHEET is a young enthusiastic team of people and we are anxiously awaiting your ideas, criticism and support.

We'll be publishing WEEKLY (50 issues per year) but you'll have to wait 2 weeks for the second issue in order for us to receive your subscriptions and reactions. And now... let the music play!......

Best regards,

Theo Roos - Publisher

ABOUT THE CHARTS.....

THE EUROPEAN TOP 100 (SINGLES/ALBUMS): In many European countries one chart is recognised by the music industry as the "OFFICIAL" hitparade and is therefore used for the compilation of the EUROPEAN TOP 100. However there are other countries where various charts are in existence and often equally important. For these countries we have compiled a number of these charts into one representing the sales in that market. Each chart position for every country then receives, relevant to that position, an equal points rating which is in turn multiplied by a factor determined through the latest known sales percentage of total singles (or album) sales which that country holds in relation to the rest of Europe. There are different percentages for singles and albums. These figures are kindly provided on a regular basis by the industry organisations such as IFPI - BPI - GALLUP - DEUTSCHE PHONOGRAPH etc.

A EUROPEAN CHART-COMMITTEE WITH EXPERTS FROM A NUMBER OF THESE INDUSTRY-ORGANISATIONS WILL OVERLOOK THE CALCULATION SYSTEM AND WILL DECIDE ON IMPROVEMENTS, CHANGES AND UPDATES.

For the EUROPEAN TOP 100 SINGLES, 25 charts are used from 16 countries. For the EUROPEAN TOP 100 ALBUMS, 20 charts are used from 15 countries. Since the sales percentages of a few countries are too small to get their hits into the EUROPEAN TOP 100 (provided these records are not charted in any other territory), we are also printing a TOP 3 IN EUROPE list each week. Labels shown are the 'original' publishers as known by EUROTIPSHEET or the labels owning rights for Europe.

In the near future there will also be special marks on both charts for sales of over 1, 2, or 3 million copies. Special Nr. 1 Awards are available for singles and albums reaching the nr. 1 position on the charts.

THE EUROPEAN AIRPLAY TOP 60: This EUROPEAN AIRPLAY TOP 60 is compiled through all our correspondents tips received this week. (*)(Records of the week receive extra points. The airplay lists of the airplay report organisations within some of the European countries are also used in the calculations, as well as playlists of the major radio stations. (*)(Please note that not all received tips appear in EUROTIPSHEET but these are all used for the calculation of the Airplay Top 60)

THE EUROCLIPS LIST: This shows the music-videos most aired on television throughout Europe in the week prior to publication. It includes video TV programs and other TV shows partly using video's from our 14 European correspondents.

For more detailed information on any of the chart-systems please contact the Chart department.

NEW RELEASES

MODERN ENGLISH - RICOCHET DAYS - 4AD.
This third album produced by Hugh Jones deserves a lot of radioplay. Album features pure well structured popsongs with the guitars playing a dominant role. Group well known in the USA. Recommended tracks: Chapter 12, Machines, Hands across the sea.

DIRE STRAITS - ALCHEMY - PHONOGRAM.
The group's last album 'Private Investigations' was a million seller. This one will not disappoint the fans, 'Love over gold' and 'Solid rock' have been released on a double-A-sided single. Album gives the typical warm and intimate atmosphere the group is known for.

ROGER DALTREY - PARTING SHOULD BE PAINLESS - WEA. The ex-Who singer is in the middle of doing an extensive promotour through Europe. Album is a typical sleeper which needs some extra plays. But once you get started... Favourites tracks: Leaving the superman behind, Would a stranger do. Going strong and One day.
