...congratulations to EMI for a bumper quality release week!...

The Country Festival was brilliant and I'm gonna make a whole radio special on Glen Campbell and Emmylou Harris. There was some fuzz going on when B.J. Thomas was on the stage, instead of Raindrops there were cola cans falling on his head, he sang too much gospel presumably.

There's a lot of action this week - we'll have the Montreux Festival from 9-18th of May...

Turntable Hits

Berlin - Love Life- Mercury

Terry Nunn’s boys are the perfect example that sound and lyrics can be very visual even without seeing it eye to eye (Pictures Of You). She switches from being the little innocent girl - to femme fatale - to being a street punk and all that just the way she’s singing the strong sexual influenced songs. For those who Runaway with the band; FALL in love with Berlin, you’ll need No More Words.

Bon Jovi - Bon Jovi- Mercury

For all those who’ve into firm hardrock. Bon Jovi’s album is the perfect catch. Waiting for only one existing track is a waste of time, for all their songs are really good. Love Lies is a Shot Through The Heart. Everyone will Runaway with their prove that hardrock can be melodic! Get Ready with Burning For Love, for Bon Jovi & his guys are not yet ready with your

Joe Jackson - Body And Soul- A&M

It’s always a surprise with what Joe will come up with this time. After the less successful soundtrack for the movie Mike’s Murder Joe continues in nearly the same sound as the magnificent Night And Day. The cover shows a big admiration for Sonny Rollins, and the music is indeed more jazz influenced than ever. Not Have, Not Now, Happy Endings and Cha Cha Loco are all perfect airplay tracks.

PROmO VIDEOS VERY EFFECTIVE IN EUROPE

The explosion of promo videos as seen during the last two years is, more and more becoming a very important promotion tool for the record companies in Europe. Each month there are new television programs added which are either totally dedicated to videos or at least using them in parts of their show. There is a string of national television shows all over Europe using videos and also an enormous amount of regional TV-shows totally committed to these videos. In fact there are now programs added each month and it is hard for any promotion director to keep track of his possibilities for exposure. For many television companies it is an easy way to obtain relatively cheap programs with a good quality. During the next few months, payment for the use of those clips by the television companies will certainly be one of the main topics in the international trade as costs for producing them are getting more and more expensive. Although record companies are very glad with promotion possibilities, they feel that it is only right that some form of payment is made by the TV-broadcasting companies and in various countries in Europe there are talks going on between the various organizations as to the amount to be paid.

PRACTICALLY BANNED

In Germany there is already an agreement which was made last February after a period of two months when videos were practically banned from TV. In England there is some nominal free television companies pay as a sort of "noonday time compensation" for general use of videos, but England is the country with the least possibilities for promo videos because of regulations mainly do to with the Musician Union. There are still some shows in the UK that use them of which the leader is of course Top Of The Pops, produced by Michael Hurst, which program generally features two or three videos, and is totally based on the UK charts. The BBC also has the Saturday Picture Show, which is on Saturday mornings and is produced by Tony Harrison from BBC Manchester. The program has replaced BBC 1 Superstore. They use a limited number of UK originated as well as foreign videos. The Top of the Pops veteran, the Old Grey Whistle Test has just finished as is Get Set, both programs featured videos. And for the more Rock oriented audience, the Old Grey Whistle Test has just finished as is Get Set, both programs featured videos. artists and therefore the big festivals which are sometimes broadcast on Eurovision still attract the highest ratings such as the Festival of Venezuela, Deltavision and Ban. In Spain there are some smaller shows with videos but the major show Tocata also uses them and it is produced by Mauricio Romero for RTVE. While in Portugal the sop program Estamos Nessa produced by Jaime Ferrandos has been finished for this season and used some videos. In Greece there is the weekly video show Musicorama produced by George Gioules which stops this year and will continue airing videos every friday evening.

LOOKING VERY GRIM

In the Northern European countries the picture for this summer is looking very grim indeed as most programs are off the air. In Sweden the Videobest Show with 30 minutes of video has finished, it was the only Scandinavian show totally committed to music videos. In Denmark Ekstradorton, which is produced by Jonas Mykkelsen is otherwise committed to Top Of The Pops and is showing a top 10 video list, but also this program has now finished for the summer.

Of all programs in Scandinavia, practically all other programs either use a very selected number of videos or none at all. Such as the Swedish Nogiess mumakoned produced by Lennert Andersson and Mandagabonsen produced by Laif Gunhild both shows which are finished for the summer as well as the Casino (produced Helko Kermak) in Finland. The Norwegian program Zik Zik Zaks (produced Odd Arvio Stromstad) uses videos from time to time and will be off the air very soon. In Ireland, RTE had just made the Green Apple productions to produce 16 hours of music videos each week, with video shows, which will be MT-UBSA, a format with resembles the MTU channel in the USA. The show will start regularly in October. There is a strong upsurge in cable network using videos of which Skychannel's Music Box is now quickly expanding the time given to music videos. Skychannel just the weekend received permission to broadcast in Holland and has already added Amsterdam as a very important new area to it's already existing audiences in England, Norway, Finland, Switzerland, West Germany and Austria. Early next year they plan to have a 24 hours a day TV music channel.

RTL Luxembourg has a number of video programs, basically aimed at the Belgium, Germany and Austria. Early next year they plan to have a 24 hours a day TV music channel.

This time of the year I'm specially hooked on slow songs and ballads, like Lionel Richie - Hello, and The Alan Parsons Project: Ammonia Avenue (album) and Crocodile Harris: Give Me The Good News (It's great!). What I really play also a lot is Making ME: Guardian Angel. A good album this week is Mezzoforte: Observations. Something from the past: Steve Forbert - All So Close And Yet So Far Away, and of course we're in to the Eurovision songscontest. I Predict that the Swedish contribution Herrey's - will be nr. 2 (they're damned good)
