TURNTABLE TIPS

Chicago - 17 - Full Moon/Warner
 Together with Blood, Sweat & Tears, Chicago
 integrated the horns into the popmusic. Their
 first album, Chicago Transit Authority, is still a
 classic album and should belong into every
 record collection. After 14 albums success
 decreased. Nr. 17 brings them back on the
 map. A solid production and some very good
 appealing songs. The album has the typically
 American sound, but with a lot of cross over
 potential. Hitsingles apart from the single
 (Smash!) Stay The Night, are: We Can Stop
 The Hurtin', Prima Donna, Along Comes A
 Woman.

Crusaders - Ghetto Blaster - MCA
 The Jazz Crusaders made a lot of jazz records
 in the sixties, from 1970 on the prefix 'jazz' was
 dropped and the band specialized themselves
 in instrumental jazz funk. They played on a lot
 of records as session musicians and had a big
 hit with Ms. Crawford's Streelife. For this
 album 2 different vocalists are featured: Jessica
 Williams on the disco tune Night Ladies, Gwen
 Evans on (the single?) New Moves. The sound
 is what we're used to, hot funky stuff with jazz
 instrumentations. Probably the best track on
 the album is the irresistible Zalai'E' Mini.

Echo & The Bunnymen - Ocean Rain -
 Korova
 With their fourth album, Liverpudlian band
 Echo & The Bunnymen have established
 themselves as the Doors of the eighties. Not
 only do the vocals of Ian Mc Cullock remind
 one of Jim Morrison, but the music leans more
 than ever on the American psychedelica of the
 late 60's. The production is quite obscure
 though fascinating with all its strings and
 acoustic walls. After the debut Crocodiles,
 definitely their best with great tormented
 songs like Nocturnal Me, Ocean Rain and
 Killing Moon.

ABOUT THE CHARTS....

THE EUROPEAN TOP 100 (SINGLES/ALBUMS):
In many European countries one chart is recognised by the
music industry as the "OFFICIAL" one and is therefore
used for the compilation of the EUROPEAN TOP 100. However
there are other countries where various charts are in existence
and often equally important. For these countries we have
compiled a number of these charts into one representing the
sales in that market.

Each chart position for every country then receives, relevant to
that position, an equal points rating which is in turn multiplied
by a factor determined through the latest known sales
percentage of total singles (or album) sales which that country
holds in relation to the rest of Europe. These figures are different
percentages for singles and albums. These figures are kindly
provided on a regular basis by the industry-organisations such
as IFPI-BPI- Gallup-Deutsche Phonoverband etc.A European
Chart-Committee, with experts from a number of these
industry-organisations will overlook the calculation system and
will decide on improvements, changes and updates.

For the EUROPEAN TOP 100 SINGLES 25 charts are used
from 16 countries, for the EUROPEAN TOP 100 ALBUMS 20
charts are used from 15 countries. Since the sales
percentages of a few countries are too small to get their hits
into the EUROPEAN TOP 100 (provided these records are not
charted in any other territory), we are also printing a TOP 3 IN
EUROPE list each week.

The EUROPEAN AIRPLAY TOP 60 is compiled through all our
correspondents tips received this week. (*)Records of the week
receive extra points. The airplay lists of the airplay report
organisations within some of the European countries are also
used in the calculations, as well as playlists of major radio
stations. (**)Please note that not all received tips appear in
Eurotipsheet but they are all used for the calculation of the
Airplay Top 60.

THE EUROCLIPS LIST shows the music-videos most aired on
television throughout Europe in the week prior to publication. It
includes video-t.v. programs and other t.v.shows partly using
video's from 14 European countries.
For more detailed information on any of the chart-systems
please contact our chart department.

NEW MUSIC ON THE MOVE.

For a few years we could read articles in a number of trade papers from industry leaders complaining about the lack of New Music and talking about a crisis in pop music. Although it is very hard to define what is New Music we could say that many refreshing sounds are generated lately, with England showing the way for innovative pop mainly the synth pop and the High Energy (High NRG) dance explosion. A lot of those are breaking via the Club circuit. On the other side of the Atlantic the U.S.A. is teaching us all to (break)dance again. After the enormous success of Dance Films like Saturday Night Fever and Grease we had a new film wave with Flashdance, Fame and Footloose and now we will be flooded by Breakin' and Beat Street. (any nostalgia for Porgy & Bess and West Side Story?) A good opportunity to talk about the new developments in music will be the fifth annual New Music Seminar which will be held this year at the New York Hilton August 6, 7, and 8 and again is organised by Mark Josephson, Joel Webber and Tom Silverman. For the first time this year, the Seminar will be three days long. Last year no less than 2800 people attended the seminar making it the largest music meeting in America. Showcases will be maintained, providing a music festival in the evening, as is the Seminar's tradition, featuring the best and most important bands rising internationally. A special showcase this year will be devoted to leading unsigned bands. Among the additional events will be focuses on video and the use of microcomputer technology. Eurotipsheet will be one of the attendees this year and we will have our own stand. If you want more information about the Seminar you can contact us.

TELLY FLOPS

Mediacontrol, the German company checking airplay nationwide on records as requested by companies (and which Top 20 Airplay list we print every week) has made some interesting statistics on the influence of 16 German TV music programs in the period of January - March 1984. 61 music titles were broadcast in total, of which only 8,2 percent became new entries in the German top 75; 65,6 percent weren't showing at all in the Top 75 after being aired. 11,5 percent of all the titles were already charted and showed some movement in the charts after being aired. The programs with the greatest influence in that period were the weekly Formel Eins (Formula 1), 25 titles aired, 4 new entries followed by Flashlight, 7 titles aired with 2 entries.

CHECKING THE AIRPLAY

Our airplay reports from the various countries are being received with great enthusiasm by the industry. We are making a number of improvements so that you will all get an even better picture of what's happening on European Radio. First of all we introduce the new airplay reports from Media Control France, a company closely linked to Media Control Germany. On page 5 you will find their first contributions and as of next week they will be on their regular spot starting the Correspondents France column. Radio in France is strongly divided between the so-called Radios Peripheriques or the AM Stations including the well-known RTL, and Europe 1. And on the other hand, the FM Radios, a separate list including the highly popular NRJ and 95,2 FM.

In Holland, Stichting Top 40 is checking all airplay on Hilversum 3, the pop channel and they are also featured on page 5. From next week on they will be opening the Benelux Correspondents Corner. Obviously we can only give the highlights of the airplay reports from both Media Control and Stichting Top 40, so if you want complete up-to-date reports please contact the respective organisations. Dutch broadcasting foundation NOS is planning to start as soon as possible a 'European Satellite TV program' consisting of a regular format of sports, shows, news, light entertainment and a total of 20 minutes commercials. Approximately around 1988 the program should be able to finance itself, until now the financing of the program is not yet finalised.

At the same time, Thorn EMI, wants to increase the broadcasting time on the Dutch cable from the now existing 10 hours to 24 hours a day.

The last few days we have added some new correspondents to our list of media people working with Eurotipsheet. We like to welcome Rainer Cabanis, producer of SWF, Sud West Funk, in Baden Baden. From the UK the popular station in the Bedford area, Chiltern Radio. And from Up North, Kaj Kindvall, dj/producer for Sveriges Riksradio in Norrköping who was added to our media list already last week. Kaj is replacing Leif Wiwatt until July and was known through his connection with the Poporama radio show and the Videobeat program. This week first appearing in the magazine is Guy de Pre, dj/producer for Belgium national radio BRT-Brabant. Welcome also to Jill St. Clair, she's producer of the popular UK TV show Pop Quiz with a lot of famous pop stars appearing as guests in the program. You will find the list of artists on page 14. From Germany comes the TV cable RTL PLUS existing in its present form from January '84. RTL PLUS sends five to seven hours a day consisting of mainly pop music, films and news blocks. Their most aired video clip list can be found in our magazine from now on every week. Since a few weeks Munich based cable program KMP Musicbox (no connections with Sky Channel's Musicbox) has a regular feature in our magazine. In any case music video programs will rise in importance during the next few months, not in the least since a great number of National TV Popshows are going off the air for their summer break.

We're very glad to welcome our new correspondent for the Australian scene, Amanda Pelman. She will have a regular column in our magazine called "Amanda Down Under". The first contribution from 'Amanda The Panda' can be found on page 4.

Those of you reading this EUROTIPSHEET who have not yet subscribed, (and are no correspondents) please subscribe now!!! Full subscription rates are on this page. Basic subscription is US dollars 98 per year (50 issues) but please add postage which amount you can find on this page.

AMANDA DOWN UNDER

Welcome to Australian music....

There has been so much chart movement around Europe and the U.S. this week for Australian music, that every few weeks I am going to fill you in on what is happening with these artists from the Aussie end, and introduce you to new and upcoming artists.

There is a wealth of talent in this country, much of which is never seen or heard beyond these shores. Thanks to intensified media attention over the past few years with such bands as **Little River Band**, **Air Supply**, **AC/DC** and **Man At Work**, the world is slowly realizing there must be more where they came from.

In each column I will approach different areas of the Australian music industry - insight into particular bands, a look at Aussie music video and music press, and analysis of the Australian music scene for European/American acts (from Kent Report details).

By law I am a music publicist in Melbourne and ironically this gives me an unique oversight into all facets of this business - attitudes of artists and their record companies, as well as a pleasant relationship with the media. So I will be able to provide you with good reading in the weeks to come - not all serious and analytical, but some light-hearted and amusing information too.

Keep your eyes on the charts because that's where the truth lies...

Here is some interesting chart movement this week: - **Pat Wilson**, wife of **Mondo Rock's** Ross Wilson, has jumped from 73 to 35, with her second single **Strong Love** - the follow up to her smash hit debut single **Pop Girl**. A 10" lp, **The Pop Girl**, featuring Pat with her daddy Ross, will follow soon.

- **Redgum**, one of Australia's most outspoken and interesting bands, are enjoying great success with **I've Been To Bali Too** (up to 16 from 20, 6th week in). After their first chart success last year, **I Was Only 19**, a stunning album, **Frontline**, will be released in July.

- **Icehouse** held their place at 36 this week with the release of **Sidewalk** album only a week away. Look out for a great video. **Iva Davies**, the group's leader, was the composer of the outstanding musical score for the exhilarating new Aussie film **Razorback**, directed by clip-maker **Russell Mulcahy**.

Australian Top 5 Singles:

1. **Kenny Loggins-** Footloose
2. **Lionel Richie-** Hello
3. **Phil Collins-** Against All Odds
4. **J. Iglesias & W. Nelson-** To All The Girls
5. **Mel Brooks-** To Be Or Not To Be

Australian Top 5 Albums:

1. **Throbbin' 84-** Various Artists
2. **1984 The Beat-** Various Artists
3. **Lionel Richie-** Can't Slow Down
4. **Foster And Allen-** I Will Love You All My Life
5. **INXS-** The Swing
