ANOTHER NEXT NEWS CORNER
CULTURE CLUB will be doing a major Canadian tour in 1985. This week, LYDIA MURDOCK released her new single which is entitled Love On The Line. HOLLAND released a single entitled All The Magic Is Gone (yeah! What then? I wouldn’t know!) RATT released their new albums, entitled Out Of The Cellar. KROKUS have released their latest album The Ritz. It was produced by KINGSFOOT- FARRAR (known for his work for LOVERBOY). At the end of this year, the band will be touring Europe and for the first time come to Holland as well (surely that’ll be the headbangers over there) THE FALL released their second single last week called Creep/Pat Trip Dispenser. It was produced by JOHN LECIE. The 12" version comes in a creepy green colour. NAZARETH have finished their 18th album. This new one is entitled The Catch. It’s due to be released on 21st September. The new single will be called Party Down. The band starts a 28 date UK tour October 2nd, and 22 shows through Norway, Sweden, Germany, Italy, Luxembourg and France. I already announced the title of the new SPECIAL AKA single, but I like it so much, I have to do it again, it’s: What I Like Most About You Is Your Girlfriend. It has an absolutely hilarious video clip to accompany it. As JERRY DAMMERS plays a visitor from Mars he does, honestly! I.Q. is going on tour in September in the UK, then off to Sweden, Germany, France and Holland. To coincide with this tour, their new single will be released. In case you didn’t know by now, it happened EDDY VAN HALEN made a guest appearance on Beat It, one of THE JACKSONS gigs. It’s a pity The Jacksons will only tour the States EDDY will also furnish the music for his second film scoring project The Wild Life (of course you all know what his 1st one was? Well, of course it was The Seduction Of Christ) Here’s something new. THE ZOMBIA GROUP of companies as Martin Birch, Tim Frese-Greene, Mike Howard, Matt Large producing artists like ACO, Def Lapparal, Black Sabbath, Foreigner, Iron Maiden etc. have opened a European office in Hoversum, Holland. The office is headed by JOHN BRILEY, a very experienced British Record Industry executive. Lots of success and good luck!
With a new member in their line-up, the YELLOW JACKETS will begin recording their new album late this summer, after which they’ll embark on an extensive international tour through the spring of 1985. On stage, they will be joined by famed percussionist PAUL UNO DA COSTA, who will also furnish the music for his second film scoring project The Wild Life. TURNTABLE TIPS

The Fixx - Phantoms- MCA
With their 2nd album Reach The Beach, The Fixx broke the American market last year. Both their singles from it One Thing Leads To Another and Saved By Zero were fixed for the charts. Despite a lot of media attention they never achieved such a status in Europe. Their style is hard to pinpoint. They combine sparse swinging parts with sophisticated imaginative arrangements. With Jamie West-Oram’s raw guitar sound, Cy Queer’s distinctive vocals and lyrics plus an inventive production of Rupert Hine, this album is a logical extension to their last one.

Peter Wolf - Lights Out- EMI-America
For his first solo effort former J. Geils Band singer Peter Wolf collaborates with Michael Johnson, leader of the electro street funk band Jonunst Crew (hit: Puck Jam). Quite an unexpected combination but it definitely works. The marriage of hard funk with hot R & R and B comes off without compromise to either side. From Top (Do-Ee-Od-0d-0d-0d) to Motown (I Baby Please Don’t Let Me Go) to a rendition of Billy Holiday’s Going Home (with a beautiful solo of Adam Bricks). Even Mick Jagger shines on a track called Pretty Lady. A very comercial cross-over album appealing to both pop/rock fans as fans of the modern funk genre.

Herbie Hancock - Sound-System- CBS
The area of musical styles that Herbie Hancock has touched upon is impressive. Started as keyboardist with Miles Davis, Hancock later applied himself to fusion, disco, funk & rock. His most recent explorations are into the urban contemporary street music and although the opening track Rockit continues in a similar vein to the smash Rockit, Hancock has enough maturity to prevent himself from mere repetition. Apart from hard electro funk (Sound System, Metta Beat), he flirts with Brazilian and Japanese music (Karabeli vs Junku), while People Are Changing is a standout soulful dance track aimed at Top 40 format.
