TURNTABLE TIPS

Honeymoon Suite - Honeymoon Suite
- Warner
- New here we have a brand new Canadian 3-piece rock band, who make an undoubtedly strong debut with this album. It's a firm, new style hardrock, defintely melodic, with excellent vocals. Guitars seem to be the important instrument (there is a definite good player) but an equal part of influence to their approach and use of the harmonica. The standout track is "What's The Matter With You". Additions to the playlist: Sandy Marton: People From Ibiza, Bronski Beat: Why, Jermaine Jackson & Pia Zadora: When The Rain.

Kid Creole - Cre-Ole Island
- August Darnell whom we all know better as Kid Creole, founded his Dr. Buzzard Original Savannah Band in 1976, mixing Big Band Jazz with Calypso and adding weird funny lyrics. Additions to the playlist last week: vernonique jannot/Laurent Voulzy: Desir Desir, 3. Art Company: Susanna

Joyce Kennedy - Lookin' For Trouble
- A&M
- The first album for Joyce Kennedy the ex-singer of Mother's Finest. Joyce makes a move towards (adult) pop orientated material produced by legendary Jeffrey Osborne, while the other half of the album leans more towards funk and is produced by Solar architect Leon Sylvers. Recommended tracks in the first category are Watch My Body and a duet with Jeffrey Osborne The Last Time I Loved You. LONDON—A new Europe-wide Top 100 chart that combines the results of more than 80 local hit parades is proving a popular industry tool here, following its introduction by Dutch independent promoter Theo Roos in the spring.

The chart is contained in Eurotipsheet, a weekly publication put out by Roos' European Media Report organization and distributed to some 2,000 radio/tv producers, DJs and program directors in 17 countries for an annual subscription fee of $98. It is carried by 34 major radio stations in Europe, including Radio City and BMRB in Britain, RTL and NRJ in France, SWF Baden Baden, HR Frankfurt, BR Munchen and RTL in West Germany, SER in Spain, Radio Veronica in Holland and ERT I in Greece.

Satellite tv broadcaster Sky Channel bases a weekly program slot on Eurotipsheet, which is also used in programming put out by Britain's Music Box cable/satellite service and in a new weekly tv show for France, Germany and Belgium launched by RTL (Radio Tele Luxembourg). An increasing number of trade and consumer print publications throughout Europe also carry the Eurotipsheet chart, according to Roos.

Compilation involves a series of statistical manipulations. In countries such as Britain, Holland and West Germany where a single, authoritative national chart exists, that list is employed. In other territories the results of a variety of charts may be combined, as in France, where six are used: two from RTL, one from Europe No. 1 and three from leading rackjobbers.

The results from individual countries are then multiplied by a percentage figure reflecting the relative sizes of different sales markets, based on quarterly sales figures supplied by national and international groups such as the British Phonographic Industry, Deutsche Phonoverband and IFPI. The calculation is made separately for single and album sales.

Since unit sales in minor territories like Finland and Portugal may be so small that a No. 1 record there will make little or no impact on the overall European chart, Eurotipsheet carries an additional Top Three In Europe list giving chart-toppers by territory.

**ICKIE EE ONES**

Rickie Lee Jones - The Magazine - Warner

Her typical voice and way of songwriting have always evoked ambivalent reaction. With her third album for Warner Brothers I think the opinions will be divided as ever. The album is a collection of distinguished songs and lyrics in which her unique style shines again. With a delicate mix between uptempo songs (Juke Box Fury, It Must Be Love) and slow ballads listen to the beautiful 'Rorschachs': The Unsigned Painting and The Weird Rend) and a sophisticated co-production of James Newton Howard this album deserves your utmost attention.

**AZTEC CAMERA**

Aztec Camera - Knife - WEA

Group centered around Roddy Frame that debuted in 1983 with the acoustic based album High Land Hard Rain. In his songwriting Roddy Frame is very Dylan influenced and for this one he teamed up with Mark Knopfler, producer of Dylan's last album. Although the album will be hard to program on both pop and rock radio it definitely deserves a lot of airplay. Try Still On Fire (great single!) and The Backdoor To Heaven for daytime play while Backwards And Forwards and Knife are suited for romantic late hour play.

**KISS**

Kiss - Animalize - Casablanca

With throwing their make up overboard, many people thought they've given themselves the Kiss of death. But all of their old fans remained faithful to them and with this new album they may even enchant new ones too. It has been produced by Paul Stanley and shows a fully grown-up HM/Rock Band who certainly have to be taken seriously. No commitments towards commerciality, nor did the band hand in its original power & force. After their last gold status for Lick It Up, this one deserves a kiss for a kiss!

After her European smash Self Control, Laura Jacksons (see Alex’s News section this week) the unbelievable figures earned by The Jacksons’ Victory falls down to nr 6. The most recommended for European Rock-Format Radio:

1. Stevie Wonder - Just Called To Say I Love You (Motown)
2. Diana Ross - Touch (Motown)
3. George Michael - Careless Whisper (Epic)
4. Lionel Richie - Why (Motown)

Many hits in Europe are the result of big singles in the U.S. (see Chartsystems on page 23) It doesn’t happen often that a hit makes it to the European Top 10 without any chartpushing in Britain, but Oldfield reaches it with the help of top ten positions in France, Spain and Italy. Oldfield’s album is now nr 1 on the European Album Top 100 while last weeks frontrunner The Jacksons’ Victory falls down to nr 6. The top of the Euro Album chart has never shown stronger movements this week, with albums by Iron Maiden, Bob Marley and Stevie Wonder making good progress as they are now highly charted across Europe. Also in many other respects it is a delightful week for album programmers with the new Bowes- album Tonight (nr 1 in UK) as album of the week, closely followed by Mute act Depeche Mode - Kiss for the hardcore fans (see our review section) and Heaven 17, all entering on good positions in the European Top 100 Albums. And watch out for Paul McCartney – Blackbird Give My Regards To Broad Street, Joan Jett & The Blackhearts - Glorious Results Of A Miserable Youth, Big Country’s Steeltown, Madonna’s Like A Virgin, Toto – Isolation, Pat Benatar – (T-Tap), Barbra Streisand – Emotion all released in the near future as at Dublin Club (Waking Up With The House On Fire), by the way, their singles is available in different languages. Apart from the English one there will be Spanish and French versions on 7 and Cheekiness on 12 inch. There will also be very interesting album releases together with Meatloaf coming back strongly (The single Modern Girls on Arista is already a hit in England but needs more airplay) and the debut album of Julian Lennon – to be scheduled.

EMOTIONS IN FRANCE

Please pay attention to Chris De Burgh’s ballad single The Hand And The Heart, which could be huge (Germany)? If it gets enough airplay. After initial hearing you may think it difficult to program but, give it a few spins and you’ll hear the power of the song. In any case it’s the follow-up to High On Emotion which stays high in the airplay reports mainly due to French plays.

Speaking about (To) France, Mike Oldfield’s latest entered the European Top 10 (from 12) this week and is receiving continuous airplay all over the continent. Because of high percentages for general sales on singles in the U.K. (see Chartsystems on page 23) it doesn’t happen often that a hit makes it to the European Top 10 without any chartpushing in Britain, but Oldfield reaches it with the help of top ten positions in France, Spain, Italy and Austria.

For more difficulties to break, but slowly she seems to come through with a chart entry in England and improved airplay in most countries.

Another sleeper is Drive by The Cars- another sleeper is Drive by The Cars-

LONDON CALLING

By Howard Marks

New singles and albums from all the big names are being released within the next couple of days. Hot From The Hoots from Culture Club, and the War Song, comes a new single from Wham! The title of the single is Freedom and the album will be called Make It Big. The band is also going to be touring the UK to support the album promotion. Kim Wilde returned to recording, with a new record deal and a new single for MCA Records. The single is entitled The Second Time. Heaven 17 have their new single and album released soon too, the single is called This Is Mine, and the album title is How Men Are, and the single is being played more on Classic FM than anywhere else. 

In my opinion, two of the best new singles out at the moment, are released on labels licensed to or distributed through Virgin Records. The first is on Charisma/Virgin, Julian Lennon, makes his debut with his song entitled Too Late For Goodbyes. The record is picking up strong airplay from Radio One and should do well chart wise during the coming weeks. The other single via Virgin is on the new label formed by Madness, after 5 years with Stiff, they have formed Zinzuzu and the first single to be released is a cover of U2’s song, this one having been covered several times before. 

Capital Radio man about town and friend of the stars, Gary Crowley was recently spotted by a bug, which kept him away from the radio for a week. The wonderful Wham! boys set in as dj’s for one of his shows and Culture Club’s John Moss sets in for another. Gary is now back in his chair for his regular “Red Hot Club Show”. Johnnie has also taken Radio One new dj Bruno Brooks off the air for a week. Richard Skinner has been sitting in, new dj for Radio One taking over the Saturday evening slot which Janice Long vacated, is a gentleman named Ian Brass, also known as “Brasso”, a dj who used to work for Radio Luxembourg in the past.

After 17 years with Radio One, Tony Blackburn has officially left the station. He will continue with his daily Radio London Soul Music Show, and also his Sky channel cable music TV show. Former Capital Radio dj Peter Young, can now be found at the new Capital Radio, where he will broadcast. The chart will be based on sales and radio play, and should be an interesting alternative.

Welcome to our first European Dance Report! During the next few months we will expand this regular dance charts from England (with thanks to Courtesy MRIB London). We will print highlights from the major disco/dance section and we will highlight dance records and disco campaigns from the different European countries. This marks a strong expansion for EUROTIP SHEET as we will be serving to the elite of the European clubs.

To let you fully understand what this section means, we should immediately point at the diversity of danceable records as they appear on different European Disco charts. This is mainly due to the variety of clubs existing in the major countries. In general the U.K. is the dance scene with the most progressive records while e.g. in Germany disco sounds are for a good part conservative because of the majority of "conservative" clubs in that country. France gives a mix of these two, good disco hits can however continue to be played for a long time in that country. In France as well as in the southern countries Italy and Spain disco lists change drastically during the summer period when millions of Central and North Europeans are spending their holidays in this region.

We will spotlight specific countries and trendsetting clubs on a regular basis. We will also start to select correspondents amongst the deejays from the Euro topclubs.

THE CHARTS

We will print highlights from the major disco/dance charts from England (with thanks to Courtesy MRIB London), Germany (DDQ, France [RTL Clubs] and Holland [Stichting Nederlandse Top 40]). There will be special features on personalities as well as local disco artists. Dance records are competing most of the sales charts around Europe and although a lot of radio deejays are seldom visiting discos, they realise that many hits are born in these clubs and that record companies are finding the disco circuit a healthy ground for breaking new talent. They have disco promotion teams, but as there are more than 6000 clubs in Europe and it is almost impossible to cut them in categories, the labels find it hard to select and prepare valuable lists. They often change their way of club promotion. This is also the result of the frequent changing of deejays. In general clubs in big cities are much more progressive than the discos in the smaller villages although the latter are often attended by hugh number of youngsters during the weekends. EUROTIP SHEET will point at these differences and we hope to be able to fully expand the space given to the European Disco Scene.

The single is to believed to be even better than Maneater. MEATLOAF is back again, a bit lighter (no pun intended) but still strong. His new single is entitled Modern Girl from his forthcoming album Bad Attitude (which was mixed by MACK of Queen Fame). MEAT will be touring the UK November/December, followed by dates in - and around Europe before Christmas. But before doing all this, Mr. Maat will be doing an extensive promotour in October.
