TOP® ITALIA RADIO

This week we want to put the spotlight on Top Italia Radio (TIR), very loyal to Eurotipsheet.

At the moment there are more than 2,500 private radio stations in Italy. Most of the stations have an American way of programming with their programs filled with music, news and games. Heavy discussions have been going on in the media the last few months to reduce the number of private stations, but until now there is still no legislation controlling them. Top Italia Radio is the first radio circuit in Italy which ties together 100 private stations, but until now there is still no legislation controlling them.

In our Spotlight we’ll feature important radio or television personalities and their stations. One by one this will become a book of the top media people in Europe.

At the moment there are more than 2,500 private radio stations in Italy.

This week we want to put the spotlight on Top Italia Radio (TIR), very loyal to Eurotipsheet and is on the air every afternoon.

Gianni de Bernardini Program Director, divides his time between radio TIR and the private TV network Canale 5. Antonio De Viti is the animator for Gran Mattino. He used to be part of the cast of Radio and TV Montecarlo and further to that, he is a highly quoted journalist, speaker and dubber. Mauro Micheloni is one of the most known announcers for the national TV Rai (Deroguing). For the section Buongiorno there is the sparkling Nicoletta Zema and the Italian Parade is under the thumb of Maurizio Palmeri with his particular musical verve. Last but not least the p.r. man Guido Robustelli, who takes care of the contacts with the listener and with the vast selection of programs, to satisfy every type of person.

TURNTABLE TIPS

Jody's Private Luxury- Adtec
With a solid and professional backing band, coupled with sophisticated arrangements, the vocals of lead singer Jody make a lasting impression. Especially with the track Adtec this new Dutch band could do well abroad. Band operates in the traditional pop/rock tradition and Jody sounds like a cross-bred between Rastafact/Pat Benatar and Patty Smyth (Scanda). Other memorable tracks include State Of Mind, Stop and Private Luxury.

Lane Justice- Lone Justice- Geffen
Strong debut of this L.A. based band which got a lot of media excitement and are currently on tour with U2. Lead vocalist Maria McKeon fronts the group and has a strong and direct vocal power best exemplified in tracks like Ways To Be Wild (their strongest single candidate) the country-fingered Don't Tell Us Away. Sweet Sweet Baby and Soap, Soap And Salvation. Street level rock in its most exciting dimensions.

Miles Davis- You're Under Arrest- CBS
The main is 59 and still is the greatest innovator into today's jazz music. Just like his last album Decoy, this time he opts for funk, street music and maduous tracks and again crosses musical borders. Try the pulsating rhythms of the Talking Heads-like track You're Under Arrest or the atmospheric Something On Your Mind or his beautiful version of the Cyndi Lauper hit I Nine After Nine. The ultimate fusion of pop, funk, jazz and MOR.

MORE NEWS

CHRIS HUGHES, NEL HURD, SIMON HOUSE, ANNE DUDLEY and DAVID RHODES. Before this lp will be released, there's a single first, entitled Circus Ring. A week ago they supported TEARS FOR FEARS on their gig in Utrecht, Holland. JOE WALSH has come up with a new album which is called The Conformist and it's real good! Also just out is the new DON JOHNSON LP 7800 Degrees Fahrenheit, the just released single is called Only Lonely. But there is more, the band is currently on a European tour (see tourdates). Just a note aside, I'm pleased that some of my favorites are doing quite well. SURVIVOR with their current single The Search Is Over. ROBIN GEORGE with Heartline and his album, REO SPEEDWAGON with One Lonely Night. GIUFFRIA with Lonely In Love and the Ip, etc. You've probably guessed by now what kind of music I prefer (Please don't hold it against me, besides my taste of music I'm really nice, honestly! Ask my Boss) Okay, I've run out of news therefore you can all start with those signs of relief. Have a good week luv'

TURNTABLE TIPS

GIUFFRIA- Giuffria/Comet/VGA
The first time I've heard a song from this band, I was totally taken by the track Call To The Heart. Having heard the album I must say, there's a lot more to them than only a couple of strong pop songs. Batteau has worked for artists like Donna Summer, Chaka Khan and Michael Sembello and he sure knows how to write catchy melodies. We recommend titles such as Facts Of Life, Red Lipstick, Slave For Love and the title track.

NOMO- The Great Unknown - Alco
Davo Bateau fronts this new American band who make their debut with a collection of strong pop songs. Bateau has worked for artists like Donna Summer, Chaka Khan and Michael Sembello and he sure knows how to write catchy melodies. We recommend titles such as Facts Of Life, Red Lipstick, Slave For Love and the title track.

UTHA Heep- Evaluator- Portrait/Epic
After a bit of absence, Heep are back. Different than before, lots bunging, more sophisticated, with an album well worth all the attention it gets. The tracks are excellent, it only listen to Poor Little Rich Girl and Lost One Love. But also worth mentioning are the bit rougher songs, such as Poor Little Rich Girl and Partytime, Produced by Tony Platt.

GOSPEL-TINGED DISCO

This week's hottest additions to the European Airplay Top 50 are Paul Hardcastle (who's single '19' was our Sure Hit last week) and Steve Arribando. Feel So Real is the first single of the ex-Slave member that breaks in Europe. First only available through import until Atlantic picked it up. The single is already a hit in the UK and is now spreading to the Benelux and Italy as well. This gospel-tinged disco song has a very danceable beat and was already for weeks at the top of our Maxi Route. We recommend you to check out his album Dancing in the Key Of Life (thank you, Stevie Wonder?!, with other favourites such as Gussie, and the Harlesters. Other Hot Radio Addes are Billy's new single, Modern Talking latest You Can Win If You Want and our favourite record, Marcella Bailey by Rita Mitsouko (no, we will not stop asking about them!). A View To A Kill is Duran Duran's latest single, the theme song to the forthcoming James Bond movie of the same name. This commercial medium-tempo song has a very memorable chorus and was composed by the group together with long-time band musician John Bany, who also produced the instrumental G-Side. This group now join other renowned international talents, including Shirley Bassey, Tom Jones, Paul McCartney & The Wings, Sheena Easton, Erika Credicke and Barry Simmons, who have all contributed to 007 Soundtracks over the past 23 years. Supernatural have a new single out entitled Cannonball, a slow rocky tune, not quite like their earlier works and France was the first country to report on this one. Go West's latest Call Me has all the chances of becoming the second European hit for them, a superb single!

YEARNING TO FALL IN LOVE

The songwriting team of Status Quo, Francis Rossi and Bernard Frost, have teamed up to record their own single called Modern Romance and although they are the world's oldest 12 bar rockers, they're still yearning to fall in love. Jules Shear (also-the-producer of the defunct formation The Polar Bears) goes 'Steady' with Cyndi Lauper, who co-wrote this beautiful single. Other Sure Hits for He-Flex (another militant and powerful single following last year's hit The Politics Of Dancing). Joni Walsh (the ex-Eagles of a very row and old fashioned band, David Cassidy (another good and sold love song with Jane Rinke-like vocals on the end) and Depeche Mode's latest Shake The Disease. Our Maxi Route has some new good 12 inches, the most significant one by Nile Rodgers, his single Let's Go Out Tonight catchy, very danceable and contains some interesting rhythmic vocal duets.

A GROWING PROGRAMMING PHENOMENON

The terrific boom in compact discs sales around the world in 1984 has led to a strong interest from the European media experts. Obviously there are a great number of advantages to compact disc and they are certainly not limited to the better sound quality alone. During the first years of CD-existence record companies mainly pushed this "quality-sound" factor in all their marketing and advertisement campaigns. But lately more and more emphasis switched to the many other advantages of CD. The worldwide sales of CD's could have been almost double already, if production capacities would have been sufficient, but no one could foresee the immediate impact on the public. Although during the first year of CD, sales mainly came from classical music, this picture is now drastically changing as the major labels succeed in releasing albums, cassettes and CD's of their major artists simultaneously. With the growing number of Eurostations using CD, we have decided to have a special CD section in the "Radio and Television" section. With this strategy we hope to inform you about the progress of CD programming on radio and television. We will give you a background on the technical development of CD hardware and spotlight good new CD products. As you can see we also print a recommendation list for CD's in popular music. The choices we make for that list are not too adventurous. This is because various European countries will only have their CD's a few weeks later than the major territories due to the production problems.

START OF A NEW SOUND ON RADIO

Various European radio stations were pioneers in programming CD's. Probably the most successful CD program every week is Radio Monte Stefano, a chain of 50 stations. Alberto Cricca, who was then head of the programming department, introduced the new sound carrier to the Italian public and since then various other Italian stations have followed. Another major station which was concentrating on CD at an early stage was Radio Levy, still today they present a weekly CD program. There is no doubt that many other countries have followed and we will inform you not only who has jumped on the CD band wagon but also how they use CD's, what special tracks they are playing and what kind of shows they present to the audience of this new medium.

SPONSORING DIRE STRAITS

Philips has been the biggest force to push CD, like in the old days they did with cassettes. Not only they have developed popular hardware and also developed excellent machines for professional use by radio stations (see separate story). Due to their close link with various production facilities they have been able to maximize sales through the availability of a wide range of repertoire. While last year Philips was busy with the TROS, Holland, still today they present a special CD section. The twenty most recommended CD's for radio programming this month.

search dial.

One of the major requirements of the professional CD system is the ability to locate any desired part of a recording precisely and very quickly. The point to be accessed can be defined in terms of track number, time from track start or time to track end, and is then found to an accuracy of within 13.3 millisecond.

Information is displayed to show the operator the exact status of both CD drives, including absolute time, absolute time left, the ISRC code number of the music, the catalogue number of the disc and a contents list of the disc.

Using the search dial on the keyboard, an entire disc can be scanned in either fast or slow modes, both forwards and backwards, to allow any desired cueing points to be selected. Pre-programming of operation is also possible, through which any tracks or parts of tracks can be played in any sequence. To do this, the appropriate commands are simply entered into the system's memory via the control keyboard. This new professional CD reproduction system provides outstanding editing and replay facilities for broadcast and recording studios, as well as other professional users of the CD system. The CD drives and control system can also be rack-mounted.

A tip for the future: Liverpool Express are back with a good ballad called: If You're Out There.

BRMB - Birmingham - Robin Valk - progr. dir. Record of the week: Go West - Call Me. Additions: DeBarge - Rhyme Of The Night; Philip Bailey - Walking On A Chinese Wall; Dan Hartman - 2nd Nature; Loose Ends - Magic Touch; Steve Norman - You Love; Stylistics - Give A Little Love For Love; Imagination - Found My Girl; Kool & The Gang - Cherry; Marvin Gaye - Sanctified Lady; Jimmy Nail - Love Don't Live Here Anymore; Powerstation - Get It On; Go West - Call Me; Curtis Harding - Turn Up; Work Like A Man; Depeche Mode - Shake The Disease; Big Heat - Watch Me Catch Fire. Album: Eurythmics - Be Yourself Tonight.

RADIO CLYDE - Glasgow - Richard Park - music controller. Believe that former Capital Radio producer and DJ Kerry Juby has joined Invicta Radio which serves various areas of Kent, has also had some problems recently too. There have been some staff changes, and I do believe that former Capital Radio producer and DJ Kerry Juby has joined the station. Former Capital man Duncan Johnson remains with the station too.

Over at Capital Radio, Gary Crowley has recently played host to some new bands playing live on his show: The Fruits Of Passion - Alone Again Oh; Jimmy Jimmy - name band name too. Gary has also played host recently to such names as Paul Weller & Mick Talbot of Style Council, and Simon & Garfunkel. Also at Capital, Dave and Anne of the Eurythmics came in for a chat about their new album. They also had a look out about themselves too.

Making a big noise for himself at the moment is Edwin Starr. He has been living in the U.K. for some time now, and has a great new single on release. He was on Southend recently, and also won the peoples choice vote on Capital Radio. Gary Crowley also interviewed him too. Lots of good concerts coming up in London over the next month or so. Unless you can get your name on the guest list, it will be an expensive time ahead. We have Mr. So here again, James Brown doing concerts. I don't think that I will watching too much television over the next short period.

Over at Sky TV recently they had a live third birthday party show, if you looked very closely you may have seen yours truly in the studio taking to Gary Davis. Some guests popped for in the show. Coognote's were there, too too was Jonnie, and David Gates. Some people in live, and I do believe that Dan Hartman was there too.

The new single from Go West is just brilliant. It's called Call Me, and it must surely be a future no 1 record. The same swept back fashion. Poor old Dusty, she will start recording soon. Steve Norman of Spandau came back to London recently after busting his leg on stage in The States, various concerts have had to be postponed in Europe.

Gosh, I just realised that I have completed a whole London Calling without one mention of John Sachs at Capital, or one mention of Culture Club. This must be a first. Before I go, please spare a thought for the journalist on news at ten recently, when reporting on a Russian news item, he had trouble with the names, and was heard to say quite clearly: "Oh shit". Always remember the golden rule of broadcasting, make sure that your mike is switched off when you use those naughty words!

LONDON CALLING

by Howard Marks

As mentioned in the last column, the record industry held a party for former Radio One man Derek Chinnery. The party was at the "gardens" in London, and there were people such as Emi Brown of Hot Chocolate, and various Radio One jockeys Mike Read, Jimmy Savile, Bruno Brooks, Peter Powell, Gary Davies, Janice Long Simon Black. There were some very important people from the record companies too. I spoke Michael Levy of Magnet Records, Derek Green and Bob Grace from China Records/Music were also there. Maurice Oberstein made a speech, and I presented a recording to Derek and Mrs. Chinnery. The evening was a great success.

It was sad to hear the other day of the recent death of D.J. Jerry Floyd. He was a great success.

People spied Michael Larry/of Magnet Records. Derek Green and Bob Grace from China Records/Music were also there. Maurice Oberstein made a speech, and I presented a recording to Derek and Mrs. Chinnery. The evening was a great success.

**NEWS CORNER**

Hi out there, how's life? Here at the front it's alright. Not really what one could call a spectacular week but it had its charms. Mind you, it'll be better soon with all these festivals and good gigs coming up. Will tell you all about it plus all my moves, afterwards, if it was worth mentioning anyway. (And that's not necessarily guaranteed!)

Now, let's move to the States, that is with that little finger on the map. Things have been a bit quiet, I must admit. But there was a great performance by SIMON at the Hammersmith Odeon. It was stunning, the telex said and I quote: Simon gave a performance that had the girls in the audience going wild and it sounds. Motown has a team of people stand-by worldwide, who are just waiting for the word GO to release that album. It will be Mr. Wonder's first album in a long, long time if one does not count the Soundtrack Woman orF Fears (Mercury) orF Fears (Mercury) orF Fears (Mercury) orF Fears (Mercury)." He's the producer of ART OF NOISE."

Talking about PAUL HARDCASTLE, he's doing marvellous with his new single, entitled The Gospel, which actually was written by PAUL HARDCASTLE, CHAZ JANKEL, STEVE WHITE and the DYNAMIC DUO Brass section. He's the producer of ART OF NOISE."

Yet another parallel playing around with the opening celebrations of the Acropolis, Nice, on May 14th. This is the first act of a series of three acts: JULIETTE LECLERC, JULIETTE LECLERC, JULIETTE LECLERC, JULIETTE LECLERC."

Still Loving You (Space) * If you're around first Ip in a long, long time if one does not count the Soundtrack Woman orF Fears (Mercury) orF Fears (Mercury) orF Fears (Mercury)."
