LONDON CALLING
by Howard Marks

Well here we are just a couple of weeks away from autumn, and still the sun refuses to shine for more than twenty minutes a day. There are very few records being released that are worth mentioning. Fundraising gigs that are worth going to, and everyone that I try to telephone seems to be on holiday in Greece for the next three weeks.

However, on the brighter side of things, it's nice to know that Madness have their new single out, and so do The Dream Academy. Likewise Billy Ocean and Whitney Houston and the Comsat Angels after seven years of trying, look set to have their first top 40 record via Jive Records.

Jaki Graham re-releases her Heaven Knows single and The Village People release their mega hit on one single via Epic Records. No doubt, the leather trousers, and moustaches will be throbbing to that one down at 'heaven'! David Cassidy has a new single out, and his previously mentioned, will be here for closer examination.

The U.K. charts here have been dominated by Madonna, as have the American charts. It's been great fun in the offices recently watching the three piece suit and brass band style popping a copy of Penthouse in between the Financial Times. The most important news of the last week or two has been the separation of Stiff/Records/Islands/Records. Dave Robinson taking his staff to pastures new. Also the joining together of RCA and Arista is a much debated issue.

Malcolm McLaren, that well known scourge of rock, was very entertaining on TV-Am recently, he was also scheduled to co-host the Tube special on August 16, however it was cancelled due to an industrial dispute. He now lives in Los Angeles and has some funny stories to tell of the place.

Simon Le Bon made the news headline recently by saying 'I was in a cab'. His boat overturned, and is in a sorry state. Simon told you it's far safer to play with them in the bath. Virgin boss Richard Branson has also been in the news with his boating adventures. Congratualtions to Richard and his lady by the way, it's their second child.

EMI Records threw a showcase/party for Belouis Some, and the man himself played a wonderful set. He was on 'No Limit' recently, and has received much media attention recently. It's only a matter of time before this boy happens. You listen to your uncle Howie, he knows these things you know!!

American superstars雹ames are going for it in a big way in the UK. They are to base themselves over here in London for a couple of months. One of the tours is producing some tracktapes. Madness, of course, are doing the rounds of clubs, press, radio, TV etc. to really establish themselves.

Due to holidays, everyone has been sitting in for everyone at Radio One, Capital, and Radio London. Too numerous to mention, but nice to hear some jocks that are normally stuck away in the small hours or at weekends.

That shifty and retiring boy about town, George 0 Dowd, has recorded a version of "I Saw The Light" for the records. Meanwhile George was interviewed in Smash Hits recently.

What with Wham! preparing for a tour across the water, Culture Club already touring there, Duran Duran doing nothing at the moment, and Frankie Goes To Hollywood doing nothing, life seems very dull. However I'm sure that we can rely on favourites the Jesus And Mary Chain to release a triple live album. Heaven forbid....Continued on Page 18

CREEPING UP

The first 25 positions of the European Top 100 Albums show hardly any movement apart from Springsteen, Madonna, Propaganda and Billy Joel creeping up a few notches. More excitement however in the middle part: Laura Branigan, the lady with a preference for European productions, moves up to 39 (from 51) due to new positions in the UK and Switzerland and further chart positions in Germany, Denmark and France. The Mad Max Soundtrack is close by (40-54) and is solar charted in Germany, Holland and Denmark. Mot Special is third best runner, strong sales increase in Germany leads to a gain of no less than 42 places (45-87). Stiff's pride The Pogues are lying very well in the UK with their Elvis Costello-produced Piss, Sodomy and The Lash. Although they make a pleasant mix of country, punk and Irish folk it remains to be seen if the rest of Europe is willing to accept such a cross-breed.

Aretha Franklin is in its 3rd week up to number 56 (from 75). Although the album attracts a lot of airplay (best played album in Europe at the moment) sales stay a bit behind. The other Arista artist, Whitney Houston is very popular in the US and it took Arista quite some time to establish her on the Continent. Solar only the Benelux charted her debut single All At Once but now finally Germany gives in and consequently the album is highest new entry this week (68). Heavy rock singer Dio follows at 60. English band Colourbox have their debut album out on AAD/Virgin and it is a very intriguing mix of Doo-wop, 6T's pop and steady electro beats. The vocals of Loreta, Grahame sound very soulful and the style of the band is best exemplified in tracks like The Moon Is Blue (the single), Say You And Just Give 'Em Whiskey. The cover of the Supremes song You Keep Me Hanging On is good but a bit superfluous. Other interesting albums for The Motels, Cheap Trick and Jimmy Cliff.

**METAL FAVES**

**Heavy Pettin' - Rock Ain't Dead - Polydor**
Listed release from that very young band (produced by Mark Deansley), who are well on their way to become big real soon, as the current single Sioux Survivor already is. Harries' vocal is rumoured to take over Rod Stewart's crown. The album contains good solid rock songs, the ballad Dreamtime has a beautiful intro and at the tracks have great hooks. Throw A Party and Heart Attack are the typical hardrock songs.

**Motley Crue - Theatre Of Pain- Elektra**
Second album from the American Heavy Glam Rock band, produced by Tom Werman and a very good one. It's clear that the Crue has developed. Home sweet home is a great emotional ballad and Oh Baby is the best from the current single. Smokin' In The Boys Room, the current single, is surely on it's way to become a hit. If you like your music loud, raw & fast, get this album quick!

**Tarzen - Tarzen - Valenbro Records/Atco**
This is an exciting release from a relatively unknown band, kicking off powerful with Taboo. Even though it times it does remind a bit of the Def Leppard style, these are good musicians who know how to bring it -3earmin guitars, but never bend solos from a gifted axeman, great vocalist, hammering bass, keyboards, all ingredients for a solid hardrock sound. It would be surprising if this was the last we hear of that band.

**VIDEO FAVOURITE**

The most aired music video clips throughout Europe in the week prior to publication. It includes more than 50 video-tv programs and other tv shows partly using videos from 14 European countries.

**THE NEW CLIPS**

The effectiveness of quite simple videos is showing again on the JAGGER & BOWIE duet and it is always refreshing to see clips just supporting the unique talents of superstars, rather than using overly arranged video techniques. No doubt this clip will compete heavily with MADONNA for the Video Favourite Spot. What other new videos attract our eyes? A very special clip is FREDDIE MERCUY's for his new track Made In Heaven, which has been dedicated to his cat Jerry and as it deal, to all the colossions in the world. quote, "Screw the rest". This clip takes you literally through "Heaven & Hell" with Freddie in the starring role as Lucifer. It is already on heavy rotation. Another great one is Kings & Angels in gold, with ANNE LEONNOX as the sweet angel and all that, of course, including the "BURY-THE-VOX's new one to the single There Must Be An Angel". The vocals are really stunning. OMD - had their video album released on VIRGIN VIDEO. It's called Crush- The Movie and features six all ten tracks from the album. Plus an insight into the making of it, rehearsals, mixing and the actual recordings. This video has a total running time of 70 minutes. HEAVY PETTIN' - came out with a new LP and a clip to the single Sire Survivors. That single is quite good looking and so is the girl featured in the clip. Talking 'bout girls, FIONA, the new wonderlady had a single from her recently released debut album released entitled Talk To Me. The clip to that track is a great, particularly the scene where she smashes the phone right into the, of course, breaking mirror! It's shot in brownish colours, that means it's colour without being too colourful. BON JOVI - OnlyLonely hard to stop writing about that band with a frontman looking like that. Have you seen that latest drama? Gorgeous - newly shot, changing from drama into sublime love scenes, love footage of the band in concert. THE SCORPIONS have a new video out, a whole concert on tape recorded at 24 concerts on 4 continents. 'The Movie - Scorpions World Wide Live' might be worth visiting as the album is still doing marvelous. SCORPIONS - had a new video clip which has been shot in Paris for the single Perfect Way, 'tis very handsome indeed! Check it out. Just seen the new Y & T video to their single Summertime Girls, it's hilarious at some points. The basic story - the Y & T boys, on the beach lots a girls including four leather macho chicks, boys few attractive at the box, through the whole little film they never quite seem to make it! There's a particularly funny scene, when one of the boys, totally disappointed tries to hit (with a ball) a painted clowns nose at a fancy fair in order to win a teddy bear. Obviously it doesn't work so he grabs a bazooka and shoots the whole joint down (that'll do the trick). A very funny clip to a very good track. DOLBY'S new clip has already been on the box, it's nicely done, a bit weird though. Have ya seen the new clip of MOTLEY CRUE Smokin' In The Boys Room? Sink ya eyes in it! X - a new band have a clip available to their single Burning House Of Love. That band did get some great reactions and created quite a buzz in the biz, so better watch them! Hot Shot, the new video of JIMMY CLIFF is ready and available. As this year has been declared the year of Youth and Music, one of the Dutch bands ROBERTO JACKETTI & THE SCOOTERS went to Moscow to perform. While there they shot a video clip for the new single Make Me Smile. It shows in the background some parts of Moscow and the young boys being funny when abroad like you young lads do. A nice clip and the song has a typical summer feel. ROBIN GEORGE, the new wonderman of British rock, has a new clip released for the newly re-recorded track Don't Turn Away. That particular clip has been taken from a specially staged concert for a one hour live concert video which in its whole will be released later this year.

**EUROVIDEO**

The RockAmerica Video Music Seminar this year again carried a lot of interesting discussions. Most talked about was the rising problem of censorship, but more about that in our next column. The other major subject was the "tuning" of video clubs. These so called pools are a major success in the USA and they attract large crowds.

However, there is an Consumers' difference between the big-city rooms and the atmosphere in smaller towns. Talking about club Televisions unveiled an unique new video art called IPM (images per minute video). These 30 minutes edited will feature a beats per minute of 116. The audio track has been designed to enable DJs to mix record selections over IPM's audio portion. This effect creates layers of sound" that are perfectly synchronized to special video edits, and is especially useful to mix with hot new record releases that have not generated a promo video clip. At the Berlin Video and Audio Fair a new video program system (VPS) might be introduced. With VPS, a recorder can be programmed to record a certain show and will switch itself on and off automatically at the right times, thanks to a sub-channel signal, sent by German TV networks. With most European countries not keeping those exact timing for their TV shows this could become a much-in-demand tool.

A steady rock tune in a superb production by American disco-producer Mmcure (pronounced as Emm Too).

HALF MAN - HALF WOMAN

Other new product for Bananarama (Do Not Disturb) will catch like a disco-comedy). Madness (Yesterday's Man) wonder if it will make impact outside the UK and the wonderful Dusty Springfield back with Sometimes Like Butterflies.

While Duran Duran's Bond theme remains steady at no. 3 in the European Top 10 Singles (in its 15th week), the 12" re-release of the same song by the German 2 piece band DJ's Factory is picking up a lot of sales at the moment in Germany (Rush Records). Probably due to the fact that Duran did not release a 12" version of their song, this (disco) remake somehow is a must for those that are in need of an extended version of this popular song. Other 12" inches new in our weekly Maxi Route: the Minneapolis based band The Family (part of the Prince clan) with The Screams of Passion, the Half man - Half woman singer Amanda Lear with No Credit Card (she doesn't need one) and Shirley Lites (Slip Away).

UNITED KINGDOM
As expected Madonna remains the Lucky Star, Groove is still best played single with UB40 and Nik Kershaw (with the for Continentals almost unpronounceable Don Quixote) to come behind. Although Kate Bush was UK's highest entry last week the single stayed very much behind. The situation now is more balanced and Hill is fifth best played single. Best played new singles include King, Thomson Twins (Doctor Dream) and Comsat Angels. Other popular records: Bryan Ferry (Don't Stop The Dance), Jaki Graham with the re-released Heaven Knows, Madness Yesterday?, Van Morrison Sleep with the follow up to Frankie Jangang On The Jaggod Edge, Dream Academy (The Love Parade) and Huey Lewis. Could it be that the UK as last quarter in Europe makes a hit of the Dutch production video ‘Kiddo? Woodpeckers From Space’? The single reached a highest position of no. 30 earlier this year and had good positions in Germany, Spain, Austria, Sweden, Switzerland and Portugal. Saleswise Groove is also no. 1 followed by I Got You Baby and Holiday. Kate Bush and The Cars are continuing their moves to the top (5-8; 4-9) and King and Lisa Lisa & Cult Jam With Full Force (somewhere we prefer shorter arist names) are this weeks prime movers. Looking at other movers, the dominance of dance product again strikes; D-Train (17-27), Total Contrast (22-40), Armin Stuewer with the re-released Knock On Wood Light My Fire and Odyssey (51-61) all make quite significant jumps. New entries for Marc Almond (34; see also page 3), Dan Hartman (40), Bananarama (45) and Sting (53). At the moment 4 European productions are charted in the UK, including Opus, Baltimore (11-33), Mai Tai (Body & Soul; 36-41) and German singer, though born in America, Jennifer Rush (43-44).

GERMANY
Tina has still the best played single in Germany (90) plays with Falco and UB40 to come after. Most notable increases in airplay receive the Strandjungs with Koffenbraun (on Teldec), Mr. Workaholic himself Phil Collins (Number), the Swiss Paul Carmen with his Dire Straits-like On My Way L.A. (very suitable for crossover), Prince (René), Marillion and Kate Bush. Rubbling under the Airplay charts this moment are The Cars, Christina Bach (Alten Auf Einem Stern) and the Thompson Twins (Dr. Dream). On the Album front, American singer Whitney Houston finally makes impact in the German market with her debut album (at 32). Other entries for Dio and Jeff Beck.

FRANCE
The Top 3 best sold singles remain/ the same with the exception of Baltimore new at 3 (from 6). Saleswise one of the strongest movers is Paradise M Amore from Lune De Miel. Other local products moving up; Marc Lavoine (Ele Le Yoix Revolver), Thierry Pastor (Musiques Norois) and Etienne Daho, the French new wave rocker on Virgin. International products making strong chart impact this week for Al Corley, Alphaville (France is the only country still charting Forever Young) and together with Italy and Portugal the French are still reaching strong on the Dary Hall pinned Every Time You Go Away (If Paul’s follow-up Tomb will happen in Europe still remains to be seen). Although Jean-Jacques Goldman still is best played single (with the exception of AM where Rita Mitsouko is at top), the sales on Je Marche Soul are not yet established single is currently at 37 in the combined French charts as compiled by Eurotipcharts. Not so many radio adds on the FM stations; some increases in airplay for Jean-Pierre Mader (Un Pied Devant L’Autre) and Matt Bianco (More Than I Can Bear). Although not yet added to the top 20 (best played singles, records like those of Kool & The Gang are now no longer played), Phil Carmen and Kate Bush are favourite new additions among our correspondents. The situation for the AM-station looks nearly the same with Jean-Pierre Mader getting strong increases in airplay and some new international additions like Phil Collins (Night), Chaz Jankel (Number 14), France is the only market reacting favourably on this one, and Bryan Ferry (Slave). Best played new local single: J.J.Lavon with Jaim P De Papier.

HOLLAND
The most striking moves in the Dutch hitparada for Madonna, Eurythmics, Dutch singer Andre Hazes, Kate Bush and new entries for Propaganda (P. Machinary), Freddy Jackson (Finally...), The Cure, the Belgian production What’s Your Name by Zinno and Simply Red. Chart entries expected next week for Bowie & Jagger, Springsteen (Glory) and the Dutch friends band Normal with a live version of their anthem Oerend Hard. Dutch remixer Ben Liewards made an interesting 12" version of the old Tavares hit Heaven Must Be Missing An Angel. Due to heavy demands EMI Holland released the 7" last week and it looks like becoming a big hit in the Benuex. With the continuous campaigns in the Dutch media the last few months to increase airplay on local products, it is good to see the Dutch singer Benny Neyman at no. 1 (with a remake of a song from Greece: An Aridi Tin Cordia, Mou).

SOUTHERN EUROPE
Exactly 3 records are charted in all Southern territories (Spain, Italy, Portugal and Greece), the USA charity single, 19 and A View To A Kill. The market is not so fast in accepting new trends and records. Records like Some Like It Hot, You Spin Me Round, One Night in Bangkok, So Far Away and Imagination are still having considerable success. In Spain the best sold single comes from Opus while Baltimore is at 2. Other Euro product represented by Madonna with the single Take A Chance on Me. The International sellers in Spain last week are the Dutch band On Air with Movies are Top 5 in Spain and Portugal. The single has already been successful in the Northern territories (Spain, Italy, Austria and Belgium). In Portugal the Biggest international moves for 19 and Lime (Unexpected Lovers). Best sold albums: Dire Straits, USA and Lime (Unexpected Lovers). Best sold singles: Dire Straits, USA and Lime (Unexpected Lovers).
The EUROPEAN AIRPLAY TOP 50 is compiled through all our correspondents' tips received this week. (*) Records of the week receive extra points. **ALEXANDRA'S NEWS CORNER**

Hill Wave, wavel! Hope you're all sititin' comfortably, not much to do, with a nice drink, or for the less fortunate ones who are working right now a strong cuppa. Talking to my English friend last week I was told that there's probably be a festival about to happen in Belgium (Zonhoven). While being on the subject of live gigs, 31st of August a Festival called Festivalcatraz is about to happen in Belgium (Contoverhe) with some good
names on the bill: THE FAITH SISTERS, CLAUW BOYS CLAW, (very good Dutch Garage Rock band - exciting to see, both) PREFAB SPROUT, SHRIEKBACK, THE COLOUR FIELD, WORKING WEEK and CHRIS REA. After the gigs there'll be a free of entrance night party. If you're around try not to miss it! (*) THE ADVENTURES are supporting TEARS FOR FEARS on their tour in America and Canada, the kick off is on August 24th until 28th of September; EAST OF JAVA the Leeds band who recently supported WHAM! in China on their UK tour released a new single on RCA called FREEZE. It's a good album for those who are into Raw Music! (*). Just out titled Midnite Dynamite. The 3rd and has been produced by ROBERT PLANT released his new single last week, called Little By Little, this track has also been taken from his last LP Shaken 'N Stirred. After the gigs there'll be a free of entrance night party. If you're around try not to miss it! (*)
tracks as "Love In The Top Age" and the beautiful "Painted Desert" (by the way, why wasn't this track never released as a single) this pressing means your consideration as well. Simultaneously other albums from Pat Benatar's catalogue are being released ("Presence Time And Crimes Of Passion"). Of the older CD recordings Bryan Ferry, Dire Straits and Alan Parsons Project remain our Top 3 favours.

Recent new CD releases include the whole catalogue of Bruce Springsteen (7 albums), Beverly Hills Cop (MCA), Nile Kinnakew ("Human Racing And The Riddle-MCA"), "Everything But The Girl ("Love Not Money"), The Doors (Waiting For The Sun" the latter both on WEA), Chris Rea's Shamrock Diaries (Magna/Arloa).

**HARDWARE**

A lot of new technology is used with the introduction of CD players as well as combined CD/Laser vision and video disc hardware. Philips, Sansui, Sony, Teac, Alpine are just some of the companies fighting for a healthy peace of the turnover. Future sound and video systems will look totally different. Although Philips just withdrew its Laservision Optical Video Disc System in Germany, other systems will tackle. Manufacturers of turntable launched a counter attack, also using laser to greatly increase their sound quality. Such players could give excellent sound quality to old and used recordings. Hopefully the major US/ Japanese and European manufacturers will find one format for each new system so consumers will not get too confused. But for the moment CD gets all the attention.

Jan Timmer, president of Polygram International, not only predicted that approx. 2 million CD players will be sold in '85 but 100 million by '90. More interesting even is the expectation that sales of CD players in '86 will surpass sales on normal turntables.

**BROADCAST PLAYER**

Meanwhile, more and more emphasis is put on quality professional CD reproducing systems needed by the broadcasting studios. Philips just introduced a new LH1-2000 system. The professional CD reproduction system uses up to three "CD drives" or players, connected to a modular control unit in the form of a separate, low-profile keyboard. This incorporates a function module, linked to up to three command modules (one for each player). Using this simple-to-operate keyboard, in conjunction with large, built-in LED displays on each module, the music presenter or program maker has very fast access to the time code information contained in the P and Q sub-code track.

The digital signal is build up of long strings of ones and zeros (1001, 1100, 11101, etc.)

The Compact Disc Digital Audio system, meanwhile enjoys the unreserved and enthusiastic approval of all artists in a tape. The enthusiasm of classical musicians is certainly shared by the popular artists. A topical example is Mark Knopfler with his Dire Straits, whose 1985 world tour has Compact Disc for its theme. Their album "Brothers in Arms" was released in May, has set a new billboard record with over 100,000 Compact Discs sold worldwide per late August.

**PROBLEMS OF DELIVERY**

The fact that an average Western household acquires between three and four LP's per year.

In this section we will spotlight the most important CD releases and try to make a judgement of their quality contents and sales potential. We wrote CD this month definitely is Sting's solo album "The Dream Of The Blue Turtles" on A&M. It's high quality recording, the fine musicianship (guitar player Branford Marsalis sounds superb) and a balanced set of compositions all contribute to a very commercial and highly recommendable CD. Best tracks include "We Work The Black Seam", "Dream Into Action" (MCA).

The command module’s LED display gives a countdown of the time-to-stop cue, plus an indication of system status - which may be edit, ready, on-line or on-air modes. The function module provides the extensive search and programming facilities for setting up start and stop cues for each CD player. These cues can be set at the beginning or end of a track, at any point of emphasis, in the pause between tracks or at any point during succeeding tracks. The selected piece is displayed in the form of a cue-to-cue time. While the selection is being played, an automatic countdown displays the time left as a time-to-stop cue. Programming can be carried out with extreme accuracy using the keypad and its associated displays, and where necessary the search dial. A shift key permits an additional range of user-selectable functions to be chosen.

FUNK-FAIR
The famous Berlin audio/video fair, which is held this week, will also be the site for many new hardware launches including more 8 mm software from Sony. A new double CD deck from Toshiba only has 1 laser built in, precluding fading or mixing.
