THE FROST IS ON THE PUMPKIN!

by CHICK MADISON

As our annual pastime approaches, it is interesting to note the way the seasons of the year are depicted in the various songs we have come to associate with the different times of the year. Some of these songs have been written specifically for the season, while others have been adapted to fit the season. In any case, these songs are a part of our culture and help us to celebrate the changes that take place in nature.

A comparison between B.B.C. and Luxembourg

BY LEE CONWAY

Luxembourg

 Luxembourg is a country located in Western Europe, bordered by Belgium to the north, France to the east, and Germany to the northeast. It is a small country, but it has a rich cultural heritage and a unique history. Luxembourg was a sovereign state until 1867, when it became a duchy of the Holy Roman Empire. It then became a constitutional monarchy in 1849, and it was a member of the German Confederation until 1866. In 1867, it became a grand duchy and was a member of the German Empire until 1918. After World War I, it became an independent nation and has since maintained a neutral position in international affairs.
