NOEL REDDING EXPERIENCE

T is very unlikely that the Editor will send me to Morris to cover this year's NME or that I shall be asked to cover a Michael Heseltine speech at Hammersmith. But either of these might be regarded as a pretty good alternative to interviewing Noel Redding.

The criticism that Redding must be grossly overrated or be grossly under-rated or be grossly bored or be grossly effectual is not really an issue. The formidable fact is that he is a formidable figure and that his primary job is to make music. And he's good at it.

Of course he might be a bit of a maniac, but he's not a maniac. He's a musician.

HOLLIES BIG FRIDAY: 23 HOURS OF IT!

On Friday, September 27, the Hollies were back in Britain. They played a mini-concert at the Hammersmith Odeon, where they stayed only an hour. But they played on for another 23 hours.

In the meantime, they were invited to the NME offices. They played in the studio, and then they played on the NME charts at No. 27 this week.

SOUNDS SENSATIONAL!
NEWS OF LATEST ELVIS
RELEASE PLUS OTHER
TOP U.S. SINGLES
AND LPS.

Here's the single release we've all been waiting for! The latest from Elvis, "You'll Never Walk Alone". And, by the sound of it, it's bound to be his biggest hit yet. Remember "It's Now or Never"? Well, this is even better than that—Elvis in his old, instant-able great ballad style. Hear him on RCA 7479.

There's a brand new record out by Chodagh Rodgers—the girl who caused a sensation at the Greek Song Festival earlier this year. "Rhythm of Love" on RCA 7481 is called and you'll just love this girl's rhythm! No wonder she's chosen to represent Britain at the Barc-eu-fons Song Festival.

Whoever heard of a song without words? Roger Webb obviously has because that's what he has in his latest release on RCA 7485. And there are no words to describe the atmosphere of this moody instrumental—Roger's own composition incidentally. Just listen to that piano and orchestras on "Song Without Words" and there's a good chance you'll be speechless, too.

What's new on the LP scene

The Jefferson Airplane's grand finale to their London trip is a sensational new LP, "Crown of Creation". Unusual revolutionary tracks include Clashinghams: Ice Cream Phoenix; and The House At Poona Corners. RCA SP-9796 or RDK796.

"Born to Be Wild" which was top of the Stateside charts recently is just one of the wild numbers on Steppenwolf's latest LP, simply called Steppenwolf RCA RD 7974. Other tracks from the group who say they innovate, create and function in an always moving, futuristic world include: The Pointer: A Girl I Knew and Take What You Need.

Catch the Johnny Artych Orchestra on RCA SP-9795 swinging to the Golden Songs of Donovan. Numbers like Catch the Wind, Yellow Jacket and Jennifer Juniper, impeccably performed as only the Johnny Artych Orchestra know how.

“Top Man” (Columbia)

A new single from the established chartpper... this time from Don McLean. Out now that handsome young singer and his crew of 5 star vocals to complement his own music. And even though he’s only featured on one side piece about a girl who wants her man back... he can still win over the crowds and play.
