OLYMPICS SHOW THAT WASN'T GAVE LONG JOHN 'MEXICO' GAVE LONG JOHN 'MEXICO'

The line-up for the London Olympic Games was revealed this week, and it's fair to say that the event didn't go quite as expected. The American team, led by John, the American swimmer, was the favorite, but John, the Mexican swimmer, pulled off a stunning upset, setting a new world record in the 100m freestyle.

Beetles DOUBLE-LP IN FULL

The Brilliant, the Bad and the Ugly

REGARD the forthcoming Beatles double albums as one of the most significant events in pop recording history. They represent a new approach to the double album. It is not the same as a double record, to be sure, but both bear the stamp of genius. The Beatles have taken the best of their past and created something even more innovative. This is music for the ages, music that will stand the test of time. The album is a journey into the mind of the Beatles, and it is a journey well worth taking.

I MISS MICK'S BATH SCENE

The surprising possibility of seeing Jagger with his pants down while involved in a passionate love scene with Anita Visotzky, or his nude bath scene with James Fox, have memed to the stars. The film is set off London Square, an old street near the river. The film's title, "That's All," refers to the movie industry's tendency to scratch the surface of the real world.

Jagger recently released his new single, "Missed You," which is expected to become a hit. The song was written by Jagger and his bandmates, The Rolling Stones.

Moral in film?

The film explores themes of love, loyalty, and the complexities of relationships. It is a biting satire on the entertainment industry, with references to famous personalities.

Inside the mask

Jagger, in character, reveals the struggles he faces in maintaining his public persona. He talks about the pressures of fame and the impact it has on his personal life.

Lots of delight

The film is filled with moments of humor and delight, showcasing Jagger's versatility as an actor. It is a must-see for fans of his music and acting career.

Who's Where

Jagger's friends and acquaintances from the film industry, including famous musicians and actors, are interviewed about their experiences working with him.

MAMA CASS DREAMS A NIGHTMARE!

MAMA CASS. *California Earthquakes (Stonebridge).* A complete contrast to Mama Cass' first effort, it is a little dream, but on this record it's more of a nightmare. It shows the softness of her voice and the Paul York song. It has a powerful rhythm backing and a big, strong sound. The title song is excellent.

Incredible Harris

RICK HARRIS. *The Yardbirds.* In a style different from the Yardbirds' usual fare, this is an album of good songs. He has a lot of talent and a good voice.

Impressive follow up from Vanity Fare

VANITY FARE. *Reaching the Other Side.* A very good album from a band that is growing in popularity. The songs are well written and the production is excellent.

A great follow up to "I LIVE FOR THE SUN" "(I REMEMBER) SUMMER MORNING" POFO 100

Paul sounding like Price

ROBERT PRICE. *I'm Here.* This album is a great example of the talent of Robert Price. His singing is very good and the songs are well written.
