RADIO CAROLINE
When we saw the latest JICRAR figures, we cracked open a bottle of bubbly!

We knew that we had improved, our advertising revenue is up - our clients are getting results - and now we have a MASSIVE 38% INCREASE in listening hours!

We've got it right!
NOW RADIO IS REGISTERED AS A NEWSPAPER AT THE
POST OFFICE

LATE NEWS: The opening ceremony for RADIO NOVA INTERNATIONAL
will now take place at 4 p.m. on Wednesday May 4th, and not 8
p.m. as previously announced by the station. Attendance is by
invitation only.

EDITORIAL COMMENT

It might be considered unfair to attempt to sway opinion, at the IBA, as
to who should receive the new ILR contract for Eastbourne/Hastings:
However, we are not alone in hoping that the people of this area will
receive a radio station which broadcasts from within, and not outside, the
community. If Eastbourne/Hastings receives a station operating from
outside the area, surely we can expect to hear some angry voices in the
near future.
One consolation is the fact that, by the end of the decade,
Eastbourne/Hastings will be able to have their very own radio station(s)
courtesy of The Radio Authority and stations that are local...

WHERE ARE THEY?? HUNT ON FOR CAROLINE STAFFERS

A major effort of research is starting aimed at locating every possible former member of the RADIO CAROLINE staff. Every DJ, news reader, programme producer, crew member, sales team person, secretary and assistant who has worked for RADIO CAROLINE since 1964 needs to be located by a team working on a special project aiming at marking the offshore stations 25th anniversary which happens next Easter. Former staff should contact NOW RADIO, and any readers with knowledge of the whereabouts of any ex-CAROLINE staffer should do the same.

NAT WEST SPONSOR CONCERT SERIES

The NATIONAL WESTMINSTER BANK are sponsoring a new 13-week concert series which is being syndicated by PPM, the PICCADILLY RADIO production arm. The programme is made at CAPITAL RADIO. The series is on offer to 22 stations, 11 are believed to have accepted the deal whereby £500,000 is being spent on sponsorship, spot commercials and also a telephone direct response campaign. Amongst the stations taking the NAT WEST series are CAPITAL RADIO (London), PICCADILLY RADIO (Manchester), BRMB (Birmingham) and Liverpool's RADIO CITY.

RED ROSE BRING BACK LINCOLN AS PROGRAMMER

RED ROSE RADIO have hired DAVE LINCOLN as Programme Controller. He was with RED ROSE from launch until two years ago when he joined RADIO CITY to host the breakfast programme. LINCOLN is also Manager-designate of the proposed second service which RED ROSE plans to open in Blackpool. He told NOW RADIO that he would be carefully researching what the station should programme on its second service, taking into account the recent increases in FM listening to ILR services. The second service would be waiting for agreement between AIRC and PPL over needletime allowances.

MCKENZIE HIRED BY RADIO CITY

TONY McKENZIE has joined RADIO CITY in Liverpool to host the afternoon 1300 - 1600 airshift. He joins after being with RADIO NOVA/ENERGY in Dublin. His first full-time broadcasting job was with RADIO CAROLINE. McKENZIE presented his first show for RADIO CITY on Saturday (April 24th).

RADIO NOVA UP-DATE

The opening ceremony for RADIO NOVA INTERNATIONAL will now take place at 4 p.m. on Wednesday May 4th, and not 8 p.m. as previously announced by the station. Attendance is by invitation only.
DEE LOSES 20,000 DISC COLLECTION

SIMON DEE, who has been working hard on his comeback with a weekly Saturday morning programme SOUNDS OF THE SIXTIES on BBC RADIO 2 has had his massive 20,000 strong record collection stolen or destroyed by thieves.

SIMON said he returned to his London flat to find the thieves had wrecked his home, stolen many of the discs and badly damaged those they didn't make off with.

CHANGE FOR RADIO-RADIO?

As the launch of RADIO NOVA INTERNATIONAL on May 1st draws closer there has been speculation that VIRGIN's RADIO-RADIO may turn from plans to offer itself as an overnight sustaining service for Independent Local Radio stations to a satellite-delivered full-time radio service. This would put it in direct competition with CHRIS CARY's RADIO NOVA INTERNATIONAL and also leave the ILR's to manage their own programming overnight.

ROB JONES of RADIO-RADIO this week said that details of which sales houses would represent RADIO-RADIO, and the final schedule, would be announced shortly. There were no indications that any changes were being made to the original intention of being an ILR-programme provider.

A list of stations taking the service will also be released shortly.

OCÉAN SOUND NEWS CHANGES

PETER SOLOMONS takes over as Head of News with OCÉAN SOUND on May 16. He joins from being deputy head of news at SWANSEA SOUND. He replaces CHRIS RIDER, who joins TVS at the end of April.

In the period between RIDER leaving and SOLOMONS taking over the Acting Head of News at OCÉAN SOUND will be OCÉAN SOUND WEST mid morning presenter MARK FLANNAGAN.

MCFARLANE MOVES TO AM DRIVE

PETER McFARLANE, the former deputy Programme Director of CAROLINE 558, (KEVIN TURNER), is moving to host the breakfast programme on OCÉAN SOUND NORTH from Monday May 2. He'll be broadcasting weekdays 0600 - 1000. He replaces DAVID BRADFORD who has moved to SOUTHERN SOUND in Brighton.

The evening show which had been presented by PETER McFARLANE will now be hosted by former WEST SOUND (Ayr) jock KENNY McALISTER. He will broadcast 1700 - 2100 Monday to Thursday and 1700 - 1830 Fridays.

EUROPE'S MOST POWERFUL FM'er

KISSL-FM, the Monaghan-based super-pirate beaming into Northern Ireland, is now operating on full power and around the clock.

As well as being on 1008kHz AM, KISS-FM is transmitting with 500kW e.r.p. making it the most powerful European FM station now broadcasting. Station Manager is TOM HARDY.
CAROLINE PD EXITS

PHILIPS JOINS KENT COMMERCIAL STATION

PETER PHILIPS has resigned as Programme Director of RADIO CAROLINE after three years with the station. He is joining Kent commercial operation INVICTA RADIO, which is programmed by another former CAROLINE DJ ROGER DAY.

Reports that PETER PHILIPS was quitting the station first appeared in NOW RADIO several months ago, but up until this week he had remained silent on the issue. However his last stint aboard the radio ship was very short and indicated a job was on offer.

Before joining CAROLINE, PETER PHILIPS worked with THE VOICE OF PEACE followed by South West London station RADIO JACKIE. At INVICTA, PETER PHILIPS will be presenting the 2200 - 0200 airshift and the Sunday request programme which airs 1200 - 1500 hours.

"It's a real scoop!" said ROGER DAY. DAY explained when he first heard PETER PHILIPS on CAROLINE he was determined to have him on his team.

"It's good to know that The Lady can still produce talent these days..." he added. "I reckon there will be quite a few stations who will be envious of us at INVICTA. We really do have a great line up now." said DAY.

CAROLINE should be naming its new Programme Director in the coming few days, according to sources.

US RADIO REVENUE UP AGAIN

Network radio revenues through February were up 5.5% over January/February 1987, to $53.3 million, according to figures just released by the RADIO NETWORK ASSOCIATION.

January was up 11.1% over the same period last year, but income for February stayed level on last year's same period at $25.3 million.

GK

US RADIO'S BIG SPENDERS

SEARS ROEBUCK was the biggest spender on commercial radio in the USA in 1987. SEARS spent $73.9 million. The second biggest spender was ANHEUSER-BUSCH at $67 million, GENERAL MOTORS ($53.7 million), PHILIP MORRIS ($38.4 million) and FORD MOTORS ($34.6 million).

POWER HIKE FOR MERCIA

MERCIA SOUND is about to have a major power increase for its FM transmitter.

IBA Engineers have started work on the transmitter at Shilton, Warwickshire, and the station hopes that, by the end of May, the station's signal on 97.0 MHz will be up in power from the present 500 Watts to 2 kW.

The IBA have charged the station £24,000 for the power hike. "Using the IBA's official forecast of how it affects our reception area, we will now take Royal Leamington Spa into our FM primary service area for the first time." said STUART LINNELL, Managing Director and Programme Controller of the station.

"We should also have a significantly improved signal throughout Coventry, a significant chunk of Warwickshire and in South Leicestershire, well beyond Hinckley." MERCIA SOUND's AM transmissions on 1359 kHz will remain at the present power output.
RADIO NOVA INTERNATIONAL AIMS FOR 30,000,000 LISTENERS

RADIO NOVA INTERNATIONAL, Britain's first-ever commercial radio station to broadcast via satellite, launches Sunday May 1st. RADIO NOVA INTERNATIONAL will broadcast from hi-technology studios in Camberley, Surrey. The studios incorporate the latest state-of-the-art equipment. RNI will be a more-music service and keep talk to an absolute minimum. It will programme the hottest hits, 24 hours per day. The signal will be stereo and available to audiences throughout Europe. The potential audience on cable systems will be around 30 million.

RADIO NOVA INTERNATIONAL also hopes to be re-broadcast in major markets of Europe via terrestrial radio stations. Its target age group will be 15 - 39 years.

The operation is the brainchild of CHRIS CARY - a name synonymous with innovations in the broadcast field. His career to date includes being a DJ with RADIO CAROLINE and the late RADIO NORDSEE INTERNATIONAL, Station Manager at RADIO LUXEMBOURG and as founder and manager of the hugely successful RADIO NOVA in Dublin, Ireland. The past two years have been occupied establishing a major satellite design, manufacture and sales company in Surrey.

RADIO NOVA INTERNATIONAL will broadcast via INTELSAT VA F11. Programmes will be beamed from transponder 63 on sub-carrier frequencies 7.38 and 7.56 Mhz. The station will make extensive use of computerised music programming - an entire software package has been especially commissioned to format the station. Amongst the DJs signed up for RADIO NOVA INTERNATIONAL will be TONY BLACKBURN. He will continue his work for BBC RADIO LONDON and SKY CHANNEL, whilst being heard on NOVA 1800 - 2100 every Tuesday evening. He will also present NOVA's prestigious EUROPEAN TOP 40 between 1200 - 1600 each Saturday.

PAUL BURNETT, who began his radio career with Yorkshire offshore station RADIO 270 then went on to MANX RADIO and RADIO LUXEMBOURG has recently been broadcasting with ILR after a long stint with RADIO 1. His ILR service includes VIKING RADIO and of late CAPITAL RADIO in London. Paul will host the weekday 1000 - 1300 airshift on NOVA. TIMMY MALLETT of TV-AM WIDE AWAKE CLUB will bring his show to NOVA each Sunday morning from 1000 - 1300 hours.

TONY PRINCE, who since leaving RADIO LUXEMBOURG, has established the DISCO MIX CLUB, is to host NOVA's disco night on Wednesday's from 1800 - 2100 hours.

MARK WESLEY, who after leaving RADIO LUXEMBOURG, moved to ILR as both a presenter and producer of jingles, will present weekend shows for NOVA at 1600 - 2000 Saturday and 1900 - 2200 on Sundays. TIMOTHY RENTON, MP, Minister of State for Broadcasting will officially open RADIO NOVA INTERNATIONAL at 8pm on Wednesday May 4th.
ROGER EAMES
DEPARTING
RADIO LEICESTER
AFTER 19 YEARS

ROGER EAMES, Programme Organiser at BBC RADIO LEICESTER, is leaving the station at the end of May after a massive 19-year stint with the station. ROGER is 48 this year and has decided to take early retirement in order to take up opportunities in freelance broadcasting and music.

Whilst at RADIO LEICESTER he has served as deputy manager to no less than six station managers. His BBC career started in 1962 as a Studio Manager, working with the NORTHERN DANCE ORCHESTRA in Manchester. A year later he became a Producer in London. After briefly transferring to RADIO NOTTINGHAM as music producer, he became RADIO LEICESTER's Programme Organiser in 1969. He was given the brief, after the station, the first of the BBC local radio network, to consolidate and professionalise the programme output while building up a new broadcasting team. His expertise in 'live' music, which started with the BBC in London when he was a producer, became evident from his interest in local brass bands, chirs and jazz.

He and his wife, CHRISTINE, formed the RADIO LEICESTER BIG BAND in 1976. They won the RADIO 2 Top Senior Band Trophy twice, in 1981 and 1985. They also won a variety of other awards.

As well as the Big Band, ROGER EAMES also presented the RADIO LEICESTER weekly jazz programme. His future plans include Big Band concerts and promotion of a 3-piece jazz group - THE MANFRED TRIO. He will also be undertaking freelance engagements as a musician, broadcaster, teacher and lecturer.

ATLANTIC RECORDS
STORY FOR RADIO 1

RADIO 1 is running THE ATLANTIC RECORDS story each Saturday at 1400 from April 30th, with a repeat broadcast on AM only, each Thursday at 2100 hours.

ANDY PEEBLES will introduce the programme which marks the 40th anniversary of the label. The programme took 6 months to produce. The series includes a one-hour programme on ARETHA FRANKLIN.

CD STATION
RETURNS TO
LONDON
AIRWAVES

London's first unlicensed Compact Disc station CD 10/24 has resumed broadcasting as a stand-alone facility and identifying as CD93 on 93.2 FM.

The station currently aims to provide a service each Saturday from 0600-1400 hours. CD93 has brought former JFM jock BRIAN ANTHONY out of 'retirement' to be amongst its line up of presenters. The format is of contemporary pop and rock - and all music is broadcast from Compact Discs.
THE IBA has received three applications for the Eastbourne ILR franchise. COAST-FM, owned by RADIO MERCURY, the Crawley ILR contractor had made a bid for the franchise along with SOUTHERN SOUND, the Brighton contractor and SOUTHDOWN RADIO. Almost at the last minute it became known that COUNTY SOUND, the Guildford ILR contractor had joined the SOUTHDOWN RADIO bid. Thus no total newcomers to commercial radio were to be in the running for the franchise.

The EASTBOURNE franchise also offers a relay at Hastings. It is an FM only service, for which the IBA will be charging as much as £160,000 'forward-funding' for the transmitters. The annual rental payment from the successful contractor to the IBA will amount to £21,000.

The franchise was advertised by the IBA in December last year; the closing date was last Wednesday April 20.

A Public Meeting will be held in the Elizabeth Room, de la Warr Pavillion, Bexhill-on-Sea at 2000 on Tuesday May 3rd. This is designed to give local people an opportunity to comment on the published applications, question the applicants about their proposals, and give their views about the local radio requirements of the area. Admission is free and no tickets will be required to gain admission. Individuals and organisations are also invited to send written comments on any aspect of the proposals to the IBA's Director of Radio.

Interviews with the applicant groups will take place at the IBA towards the end of May, and the Authority hopes to announce who will run the service during June.

The contract will provisionally be offered for the period up to December 1994, when the last of the IBA's existing ILR contracts expires. It is expected that new legislation affecting ILR will be brought into effect before that date, and the contractual arrangements for the new ILR contractors, as for existing contractors, may need to be adapted as a result.

SOUTHDOWN RADIO

SOUTHDOWN RADIO's authorised share capital at present is 2,000,000 Ordinary Shares of £1 each. The issued share capital will be £780,000 Ordinary shares of £1 fully paid, with COUNTY SOUND PLC holding 49% of all issued share capital.

As well as COUNTY SOUND's 390,000 £1 shares, RICHARD YEOWART, managing director of SOUTHERN VIDEO Ltd, will have 10,000 £1 shares as a founder. Other Founders with 10,000 shares will be GARETH ROGERS, a former BBC RADIO SUSSEX Producer, and currently promoter of EASTBOURNE EAGLES SPEEDWAY team.

Local private investors will be Rt Hon JULIAN FANE (3,000 shares), D JONES (2,000), Dr. R WATSON (35,100) and S TINDELL (39,000).

Local businesses YEOWART
STEEL will have 25,000 shares and SUSSEX NEWSPAPERS will hold 39,000 shares. Other investors will include HAYMARKET PUBLISHING with around 20% stake (156,000 shares) and LAING & CRUIKSHANK with 93,600 shares. This firm will advertise these shares locally and underwrite them.

SOUTHDOWN RADIO forcasts a profit of £126,000 before taxation in the 20 months to September 30, 1990. SOUTHDOWN says it will use some of the most sophisticated computerised music programming technology and with a wide range of music styles hopes to appeal to all ages. "The accent will be on melody and familiarity..." says its application to the IBA.

SOUTHDOWN RADIO plans to broadcast between 0500 - 2200 hours on weekdays, and 0600 - 2200 at weekends. It promises at least one Outside Broadcast per week. It also promises an extended lunchtime news and a 60-minute current affairs programme each weekday evening.

The company says it hopes it could be ready to commence broadcasting no later that 1st February, 1989. The proposed Directors will be IAIN SUTHERLAND (Chairman). He is conductor of the WREN ORCHESTRA, which is sponsored by CAPITAL RADIO.

DERRICK STANSBY, financial director and Company Secretary of SHAPE ADVERTISING in Essex.

RICHARD YEOWART, managing director of SOUTHERN VIDEO Ltd.

GARETH ROGERS, the broadcaster.

J NORMAN CUNNINGHAM, Chairman of COUNTY SOUND of Guildford.

MIKE POWELL, Managing Director of COUNTY SOUND.

SIMON TINDALL, managing director of HAYMARKET PUBLISHING.

DR RAYMOND WATSON, chairman of NATURAL VITALITY Ltd., and MURIEL MARGETSON, Vice-President of the BUSINESS & PROFESSIONAL WOMEN's CLUB of Hastings.

COAST-FM

COAST-FM, which plans to have studios in both Eastbourne and Hastings says all peak time programmes will be produced and presented locally. It says, because of the population profile, it will aim its programming at older listeners (55-plus) who represent a third of the population, whilst at the same time attempting to appeal to the 'younger groups' as well.

Music would range from one extreme to the other; the current top forty through pop oldies (they name Beatles, Eagles, Queen, Buddy Holly, etc) and including middle-of-the-road music (Andy Williams, Frank Sinatra and Barbara Streisand)

COAST-FM, mainly owned by RADIO MERCURY, will provide hourly news bulletins (local) from 0600 - 1800. They also propose a headline service on the half-hour at 0630, 0730, 0830, 1230, 1630 and 1730. They plan a half-hour news programme each weekday evening.

At weekends COAST-FM would only offer two news bulletins locally produced: at 0900 and 1300. It proposes a weekly
round-up of local news on Sunday at 0830.
Chairman of COAST-FM will be W A (Bill) HONEY, a chartered accountant who lives in Eastbourne.
Managing director will be JOHN AUMONIER, who is managing director of RADIO MERCURY.
Other directors are DAN BARRATT director of a large firm of builders in Eastbourne, REGINALD J HARRIS, JP, MRS FRANCES FERGUSON (prop of four hostels for the mentally handicapped), KENNETH JONES (a Solicitor and Chairman of RADIO MERCURY), DAVID LAMBIRD (managing director of DEAN MOTORING CENTRE), ERIC EPSON (a Dentist and Director of RADIO MERCURY), and ALAN CAFFYN (Chairman and Chief Executive of CAFFYNS PLC - a large motor dealership.
Authorised share capital is £1,000,000 and the proposed issued share capital is £600,000.
COAST-FM believes it will make a nett profit (before taxation) of £150,318 in its first year.

SOUTHERN SOUND

If SOUTHERN SOUND is awarded the franchise, it would not only see its service area extended, but would take on board two new directors to represent the interests of the additional area. They would be PETER KENT, managing director of the NOBO GROUP PLC and BILL UTTLEY-MOORE, managing director of COMPUTING DEVICES.
To cover capital expenditure of £400,000 SOUTHERN SOUND intends to offer unissued ordinary voting shares.
SOUTHERN SOUND would appoint a Manager to be based at Eastbourne who would be responsible for day-to-day operations and managing ten people who would be hired to work there.
SOUTHERN SOUND claims it would have the Eastbourne operation in a profit situation in its second full year of broadcasting. The station says "a significant amount" of programming would be produced locally, whilst 'off-peak' hours would come from the Brighton studio base.
A nightly, one-hour news programme is proposed.
"Studios and a back-up studio, together with engineering maintenance support and administration, already exist at SOUTHERN SOUND for the general presentation of the music programming for Eastbourne and Hastings. Local news, features and information would be presented from Eastbourne." says the application.

ADDRESSES

COAST-FM - RADIO MERCURY, Broadfield House, Brighton Road, Crawley, West Sussex, (0293) 519161, Contact: JOHN AUMONIER, or care of HONEY BARRETT & CO, 55, Gildredge Road, Eastbourne, East Sussex. Contact: BILL HONEY (0323) 35951.

SOUTHERN SOUND RADIO - PO Box 1323, Brighton, East Sussex, BN4 2SS. Contact: RORY McLEOD (0273) 422288.
AIRC DEMANDS AMENDMENTS, DESPITE INVESTIGATION

LORD YOUNG, Trade and Industry Secretary, has received a letter from the ASSOCIATION OF INDEPENDENT RADIO CONTRACTORS demanding that the Copyright Bill should still be amended - even though the MONOPOLIES & MERGERS COMMISSION has launched an investigation into the problems of needletime restrictions. AIRC is claiming in its communication that there are other problems beside the monopoly held by the copyright bodies and the overall situation of PHONOGRAPHIC PERFORMANCE that need to be dealt with.

The Government seemed to be thinking the whole issue of needletime, PPL and related issues raised by AIRC could effectively be put on the shelf until after the M&MC had reported later in the year, and after the Copyright Bill had passed through all its Parliamentary stages. Having failed to get amendments made to the Bill whilst it was at the Lords' stage, the ILR stations then began approaches through the Dti.

As reported last week by NOW RADIO, AIRC has no plans for any further meetings with PPL over the thorny needletime issue. Meanwhile a number of ILR stations are continuing to plan new split-frequency services, with COUNTY SOUND leading the way with a June 1, start-up date for its GOLD AM and PREMIER FM.

IRN IN SATELLITE NEWS BID

INDEPENDENT RADIO NEWS could be preparing to bid as the provider of news services to BSB’s NOW channel. The contract could be worth around £30,000,000 to the successful bidder. The bid would be made together with CROWN, which merges with CHALFORD COMMUNICATIONS in June. At present CHALFORD owns 58% of LBC. LBC owns 40% of INDEPENDENT RADIO NEWS. A third party would also be involved in the news bid.

CROWN GETTING IN LINE FOR RADIO AUTHORITY 6-STATION RULE

As soon as the merger of CHALFORD COMMUNICATIONS and CROWN TELEVISION is completed in June, the new company, CROWN COMMUNICATIONS, under Chairman CHRISTOPHER CHATAWAY will begin to bring its interests in commercial radio into line with expected RADIO AUTHORITY rules on ownership. The RADIO AUTHORITY is to rule that no one company, organisation or individual may own more than six local commercial or community radio stations.

At present there are 18 ILR stations in which the group has interests. CROWN will whittle this down to six, which CHATAWAY is claiming CROWN would become sole-owners of. It would sell-off its interests in the non-wholly owned stations to bring itself in line with the new regulations which will be in the new Radio Bill.
AUSSIE RADIO COMPANIES PREPARE TO BUY OUT NEW ZEALAND STATIONS

The Government of New Zealand is preparing to sell off some 30 RADIO NEW ZEALAND owned local radio stations.
Indications in that country are that foreign interests will not be barred from ownership and as a result a number of major Australian radio companies are preparing to make bids for the stations.

NEW WORLD AT ONE PRESENTER NAMED

JAMES NAUGHTIE, 36, Chief political correspondent of THE GUARDIAN has been named as the new presenter for RADIO 4's WORLD AT ONE.
He will succeed SIR ROBIN DAY in September.

NEW ZEALAND DJ RECORD

"I'm very tired, but I have a day off to catch up with sleep," said RADIO SCENICLAND DJ JEOFF BARRACLOUGH, as he extended the New Zealand record for continuous broadcasting to 78 hours in Christchurch.
During his long spell at the mic he took quick showers to help drive the sleep away.
A sports goods shop lent him an exercise cycle which was parked against the broadcast desk. BARRACLOUGH used it between records and links.
He also raised more than $500 for the WORLD VISION appeal by playing paid-for dedications.

RADIO INNOCENCE, SEX AND RAUNESS ARE VITAL ELEMENTS TO PROGRAMME PLAN

MERCIA SOUND is planning a new style breakfast show as part of changes brought about by the departure of PAUL ROBINSON to CHILTERN.
JEFF HARRIS has already moved into the breakfast show, from afternoon's and he will be joined by an 18-year old newcomer to radio, JENNIFER COSTELLO who has been recruited from hospital radio.
Until now JENNY has been restricted to overnight shifts.
"She's still at a very early part of the learning curve, but it's that very rawness - let's call it 'radio innocence' - that I hope we can capture. By putting JENNY in harness with JEFF HARRIS I'm looking for the sexual chemistry notion that TV-AM made so much fuss about with ANNE DIAMOND and NICK OWEN," said STUART LINNELL, managing director and Programme Controller of the Coventry commercial station.
"In fact, I think it will work better on radio than it ever did on television because the relationship between the two if left more to the imagination of the listener." he added.
The team will air for the first time next Tuesday, May 3rd, when the new style show is launched.
MERCIA SOUND broadcasts 24-hours per day on 1359kHz and 97.0 MHz FM.
See also our report on an increase in FM transmitter power for MERCIA (Page 6).
RADIO SCOTLAND DROPS WORLD AT ONE

BBC RADIO SCOTLAND has dropped the London-produced WORLD AT ONE from its schedules to broadcast its own news sequence in the latest move by the Head of Radio, NEIL FRASER, to provide listeners with a better service than before.

The new programme, THE ONE O'CLOCK NEWS, will be presented by MIKE RUSSELL and will run from 1300 - 1330. Programme Editor, JACK REGAN, says: "The programme will be more akin to tv's SIX O'CLOCK NEWS, starting with the main headlines and then dealing in-depth with the main story of the day. It will provide world coverage of events from Scotland as well as dealing with events from home. The ONE O'CLOCK NEWS will also replace BBC RADIO SCOTLAND's LUNCHTIME REPORT news programme. It ran from 1230 - 1300 and concentrated on Scottish news. To fill the 1200 - 1300 slot each weekday there will be a mix of feature, documentary and music programmes. On Monday a new series MEET YE MONDAY is presented by ROBBIE SHEPPARD, with requests, dedications and music of a Scottish nature. This will be followed by TRAVEL TIME with the latest news on the travel front. Tuesdays programmes consist of feature programmes and on Wednesday another new series: THE McCALMANS & FRIENDS will precede a repeat of Sunday's PORTRAIT documentary programme. Another two new series runs Thursdays: NORTH EAST NOOK, with ROBBIE SHEPPARD, featuring characters and music from the North East of Scotland and following that will be MONEYLINE presented by former MP GERRY MALONE who'll be giving advice on all aspects of personal finance.

In another move MACGREGORS GATHERING with JIMMY MACGREGOR has reverted back to its old time slot of 1100 Tuesdays and Thursdays.

MACK IN FESTIVAL SHIFT

JIMMY MACK has taken up residence in a new studio at the GLASGOW GARDEN FESTIVAL and will present his daily afternoon programme for 108 broadcasts starting tomorrow, April 28.

The 120-acre Festival site on the South Bank of the River Clyde will be the single biggest tourist attraction staged in Scotland for over fifty years.

JIMMY MACK AT THE FESTIVAL will be broadcast live on RADIO SCOTLAND at 1330 each weekday throughout the summer. The producer is MIKE STANGER.

RADIO 2 AT FESTIVAL

To mark the opening of the GLASGOW GARDEN FESTIVAL, gardening expert, ALAN TITCHMARSH, will be making contributions to BBC RADIO 2 programmes throughout this Friday (April 29).

In the morning he will tell DEREK JAMIESON's listeners what the festival is all about and why it's being staged in Glasgow.

Between 1100 - 1300 when ANNE ROBINSON is sitting in for JIMMY YOUNG, ALAN will be interviewing the chief executive of the festival, GEORGE CHESWORTH.

In the afternoon, GLORIA HUNNIFORD will hand over to him to talk to some of the celebrities visiting the festival, and, during JOHN DUNN's show, he will look at some of the more unusual stands and the water festivities.

JOHN GURNETT will be the RADIO 2 producer looking after the day's output from the Garden Festival.

June 20 – 24. RADIO ADVERTISING BUREAU. Sales Managers School. Wharton School of University of Pennsylvania, Philadelphia.

Sept 14 – 17. RADIO '88. Sponsored by the NATIONAL ASSOCIATION OF BROADCASTERS (NAB) Washington, D.C.

Any radio buffs who saw BILL FORSYTH's COMFORT & JOY (Channel 4, 4/4/88) about a Glasgow radio DJ who becomes involved in a local ice-cream war between feuding Italian Scots must have had a laugh at BILL PATTERSON's portrayal of the DJ with a social conscience. He walked into the office of the managing director (unless of course it was the Programme Controller, but as he was wearing a white shirt and mid-70's knotted tie, I suspect not) and declared that he's reached a time in his life when he wanted to do something more useful than just play records. He was going to make a documentary! "Can I borrow a tape recorder from the newsroom?" he enquired innocently as the MD rolled his eyes heavenwards. Our hero had been dragged into the whole sorrid mess because the McABES who ran an ice cream business had their patch encroached upon and wanted to use him as a mediator. After all, he was a respected figure of society wasn't he, being on the radio and all that. (Don't snigger). And so it came to be that the Glaswegian DJ was suspended from his show because he kept on passing messages from one side to the other via the airwaves. He just wanted to get the rivals to sit down and talk. (A DJ who encourages communication - now there's a thing).

A totally ludicrous situation, of course. It would never happen in real life - more's the pity. Imagine, if you will, a DJ who uses the radio to rid the world of injustice, gets involved in the real world outside the studio, and ignores all codes of conduct, written or otherwise. It would make flippin' good radio. SIMON BATES does it sometimes of course, though his booming voice belies the fact that he is stepping ever-so-carefully, and local radio phone-in hosts have strong opinions - or pretend to while playing devils advocate - about what's going on in their area. But wouldn't it be good if DJs would grass instead of just grouse. Name names instead of vaguely vouferating. Get involved with the good, the bad and the ugly of the world, as well as the "good" music. After all, in a radio station, of all places, you get to hear the gossip. Which lst Division Manager has a taste for Cocaine? I could tell you down the tele (but not the micro-) phone. OK, one might degenerate into the realms of tabloidism here, though of course many broadcasters use the popular press as a source of 'information' anyway, but it would be interesting if the no-man's land between new and music was breached. Perhaps the reason why it's not is because the world of pop music and the world of news are at opposing ends of a spectrum which places
everyday life somewhere in between. The Odd News item might directly affect your life, say about plans to build a swimming pool at the end of your street, and so might the odd record (though I doubt SINITTA wailing about her baby and "where his big red GTO goes he must go" affected many of us) but the two remain poles apart.

When RADIO 1's MIKE SMITH reads the news headlines on the hour to the backdrop of funky bass guita, then one does perhaps feel a little disconcerted. "What's he doing talking about Northern Ireland? Isn't he supposed to be a DJ?" One might think. This, no doubt, is a legacy of our broadcasting heritage - and after all, how many newsreaders would pass comment on the latest 5 STAR single? Well, probably quite a few, given half the chance. RICHARD SKINNER made the crossover from news team to music very successfully at RADIO 1.

Bringing journalism and music closer together has already worked on TV. THE TUBE dabbled in it, CHANNEL 4's NETWORK 7 did it, and WIRED, the TUBE's successor, is going to try it. With the benefit of visuals, however, it is easier to mix the two entities. PAUL HARDCASTLE's "19" was entertaining, but would hardly have been so thought-provoking as well had it not been accompanied by a video showing the horrors of the Vietnam war. In radio, things aren't so easy. If a DJ does talk about the news he lays himself open to criticisms of bias. We have to assume, for reasons of practicality if nothing else, that a newsreader is presenting a story, fairly and squarely. Anyway - which DJ wants to taint his ideal world of music and fun with horrible irritations? The presenters on one ILR station treat the COMMUNITY SERVICE VOLUNTEERS attached to the station (sponsored by MSC - most stations have one...) with contempt. I know that for a fact because I was told by the team leader at an interview. When I worked in France the news team and the presenters lived in two separate worlds, each considering his or her own patch to be the most important contribution to the well-being of humanity. In BBC local radio the distinctions are broken down somewhat. But how many presenters treble - up as 'personality' jocks, are reporters and musical experts? A good blend of all 3 is a joy to hear. I assume.

To return to the programme COMFORT & JOY, being a comedy turned out fine in the end. The DJs BMW got repaired, the two sides got together, and it ended without hero, having returned to the air, presenting his Christmas Day show while drinking a bottle of whisky, and far away from the real world of radio where presenters get carpeted for attacking Fergie's dress sense, everyone lived happily ever after. The DJ remained just that: He never needed to make that documentary expose in the end. No news is good news - for the DJ anyway.
LOOSE ENDS

MUST GO: It's not often the NOW RADIO 'phone rings and a Programme Controller says: "I want to get rid of one of my presenters... can we send him to the VOICE OF PEACE?!" Happened last week......

MORNING, GIRLS!: ANDY ARCHER has moved from breakfast to mid-morning airshift on RADIO ORWELL......

MERIKE: NOW RADIO correspondent and broadcaster STEVE MERIKE is currently on a fact-finding visit to Australia. He returns to the United Kingdom in early May and will then be filing a major analysis of the Australian radio industry for NOW RADIO...........

POWER: CAROLINE are only producing around 3kW transmitter output on 558kHz - but reception is being reported as very good from a wide area of the country. We've even heard from one person who can hear it clearly in the Channel Isles........

RED ROSE: Expect DAVE LINCOLN (see report in news section) to join RED ROSE as Programme Controller by July........

APRS: The 1988 APRS (Association of Professional Recording Studios) exhibition will be on 22-24 June at Olympia in London. Further details from HAZEL SPIVEY on (0923) 772907.......

CITY: With the departure soon from RADIO CITY of DAVE LINCOLN we should assume a vacancy will exist there for a new daytime presenter. Out with those aircheck tapes, JICRAR figures and your up-to-date CV's.............

These franchises will bring to a total of 4.4 million the homes covered by cable franchises. This is around 20% of the homes in the country. More areas for cable franchises are likely to be announced by THE CABLE AUTHORITY in the next few months.

JON DAVEY, Director General of THE CABLE AUTHORITY, said: "This is the first time that we have advertised six franchises at the same time. It reflects the acceleration in our franchising programme arising from strengthening interest in the future of cable.

"Already this year we have awarded two new franchises (Kensington and Chelsea, and Andover), have one other (East Lancashire) under consideration and have called for applications for one of the largest cable franchises in Europe (Birmingham and Solihull)."

The number of homes receiving cable television (and radio) on January 1st was 254,506, representing 18.7% of the homes to which cable could be made available.

The Authority is looking for applications which demonstrate the best prospect of exploiting the enormous potential that broadband cable offers, not only for multichannel choice of television and radio but for interactive services and the competitive provision of telecommunications services.

Of the 23 franchises so far awarded, only 11 have switched on, and none of those has completed the construction of the system. Decisions on the franchises now being advertised are likely to be announced by the CABLE AUTHORITY during November and December this year. Details from CABLE AUTHORITY (01) 821 6161.

COMPLETE & RETURN THIS BOOKING FORM TO:
NOW RADIO, Boat Trip, PO Box 45, Kettering, Northants, NN16 0NW.

NAME: ......................

ADDRESS: ......................

POSTCODE: ......................

TELEPHONE: ......................

I wish to fully book ___ place(s) on the NOW RADIO trip to see RADIO CAROLINE on Saturday May 14, 1988.

Please find enclosed £______.

prices: Tickets £25 each.
MBI TO LAUNCH
BUDGET COMMUNITY
RADIO DESK

MBI BROADCAST SYSTEMS has made several important announcements relating to its operations and the launch of a brand-new budget priced broadcast mixer designed to appeal to prospective operators of local commercial, community and neighbourhood radio stations.

The Brighton-based group has also launched a new company: MBI CONSULTING AND COMMISSIONING. MBI BROADCAST SYSTEMS specialises in the design, installation and commissioning of radio stations throughout the world. It has just completed studios for NOS/Network 3 in The Netherlands - its fiftieth radio station.

Other projects in the past year have included the supply of OB equipment to the voice of Kenya in Nairobi, completion of BBC studios in London, Scotland and the West, the construction of Radio Vest in Norway, a new on-air studio for capital radio, the IRN feed for ILR stations coast-to-coast, and the supply of studio equipment for a number of local stations in Denmark.

MBI CONSULTING AND COMMISSIONING will, according to managing director MICHAEL FABRICATION: "be exploring areas of operation not currently within the remit of the main group."

He added, "As well as technical expertise, it has long been apparent that we can offer operational advice to broadcasters. We are shareholders in a number of stations and have a good overview as to what makes a successful radio station. It's mad if we don't apply this knowledge to other stations."

The new broadcast mixer will be launched at APRS in June. It will be known as the Series 16, and have many of the features of its big brother, the Series 24B which is already in wide use in radio stations world-wide.

Detailed spec of the new mixer is being kept under wraps by MBI, but it is known that it will be fully moduler, have mono and stereo inputs, all the metering, monitoring, routing systems, muting, and remotes that would be expected of a more expensive mixer. It will also have clean feeds for telephone calls and optional eq on all input modules. The mixer will be fitted with PENNY & GILES faders, though an alternative will be available for still cheaper options.

Until now there has been a common belief that MBI BROADCAST SYSTEMS only produce expensive consoles. "This just isn't so," said MICHAEL FABRICATION. "The world wide sales of our Series 24 consoles prove this and virtually all the recent British independent radio stations have equipped with MBI. But we recognise that with the introduction of community radio in Britain and with our involvement with neighbourhood radio in Scandinavia, we had to produce a mixer that would have all the versatility, systems, and ergonomics of all MBI mixers, but at relatively low cost."

MBI, 69 Ship Street, Brighton, BN1 1AE. (0273) 24928.

The eighth in a series of on-going articles looking at issues involved in preparing for applications for licences for local commercial and community radio services under the new Radio Authority.

"Should we not wait for the new radio bill to go through Parliament, before we even begin to plan our station?" That was a question asked recently by one NOW RADIO reader, and one question I wish to deal with this week.

You could certainly 'down tools' and wait for the radio bill to pass through Parliament. You could even wait for the new Radio Authority to be officially established and wait for it to advertise for the first applications for licences before you do anything whatsoever.

But, if you do, you'll discover that everyone else has used the period, probably a year or so, to do a great deal of groundwork. They'll have much more than a simple headstart over you and your organisation. They'll probably also have a few of your prospective staff!

Whilst you don't particularly need to go to vast expense, there are many jobs that can, and should, be done now. We have already outlined a number of these in past issues of NOW RADIO.

One area where you should be devoting considerable time to is that of programme research. With one ILR after another having a real headstart over you, and pressing ahead with their split-frequency plans, you may need to re-assess some of your original plans. If you were planning to run golden oldies, and the near-by ILR is about to do that on AM, what will you do now? You could still do an oldies format, but you should look carefully into what the ILR is doing, and where the gaps are that you and your station could fill, and win an audience to sell to your advertisers. It is possible to counter-programme with the same format, but with some slight alterations (known in the business as 'fine-tuning') which could result in (a) stealing all their audience (b) winning some, or (c) both stations failing.

You'll also have to beware of formats that, whilst appeal to you, personally, will not work in your market. A Hot Hits station might work in the near-by city or large town, but not in an area full of retired people. That's where you should investigate something like Easy Listening, or Middle of the Road, or even Beautiful Music. What about Religious Music, or Jazz, or Lush Strings and things...

No. Whatever you may think, or feel, don't waste any of the time available between now and this time next year. Use it for careful planning, and don't leave it until the very last minute.
VACANCIES

RADIO FORTH has a vacancy for a JOURNALIST (JLR1) to join its busy news department. Applications should be sent to DAVID JOHNSTONE, RADIO FORTH, Forth House, Forth Street, Edinburgh, Scotland, EH1 3LF......

PRICE £6.50

PRICES INCLUDE POSTAGE AND PACKING. PAYMENT MAY BE MADE BY CHEQUE/POSTAL ORDERS, OR BY TELEPHONE OR POST USING A CURRENT, VALID ACCESS OR VISA CARD ON (0536) 51 44 37.

Mike Powell, Managing Director, County Sound Radio, explains...

County Sound Radio is one of the UK's most successful radio stations. Our listeners have more choice of radio services than anywhere else in the country. Despite that, we are the market leader, reaching more people than any station within our transmission area. By age, our appeal is virtually universal. We have a 43% weekly reach among the 15-24s; 45% among the 25-34s and 41% among the 35-54s. We broadcast to the wealthiest, most up-market part of Britain and a majority of our listeners are ABC1s. We were one of the very first stations to conduct major research to back our lunch that most of our listeners use FM — and therefore, our new alternative service should be on AM.

As you may have already read in the Industry Press, we now want to be one of the very first stations in the UK to offer a full seven day a week split programme service.

Both stations will continue under the County Sound Radio banner. Our existing winning brand of programming will remain on FM and will be styled The PREMIER FM. Our exciting new all-ages station will be styled The GOLD AM. To stay within current needlemike restrictions County Sound GOLD will operate initially from Saturday to Thursday, seven days a week. We will have its own team of Presenters and its own distinct style.

Despite our universal audience success, there is obviously still a scramble, winnable group of people aged 35 and over who listen to other services. We think we can win a lot of them over to the County Sound GOLD Service. Oh, and before you ask, yes, GOLD will carry news, travel news and report the County Sound commitment to public service.

County Sound Radio is already very effective and cost-effective medium for advertisers. From 1st June with County Sound GOLD and County Sound PREMIER, our audience penetration of Britain's wealthiest market place is going to be even better.

CAPITAL RADIO plc and MANSFIELD TELEVISION HOLDINGS have formed a new company, MAC TV Ltd, to develop opportunities in the field of TV production. CAPITAL have a 50% stake in the new company.

NAME CHANGE FOR LEEDS PIRATE

HORIZON FM, a Leeds-based unlicensed station, has undergone a name-change and is now identifying as PEOPLES FM. A spokesman for MCR told NOW RADIO this week that the city's three regular pirate stations are organising a series of joint promotions in the summer.

LONDON COUNT

The number of regularly heard unlicensed radio stations operating in the London region has not decreased. Recent count showed some 30 stations broadcasting.

POPPY PIRATE OUSTED BY PICCADILLY

SAM BROWN has been ousted by Manchester's PICCADILLY RADIO, where he was an overnight presenter, because he continued to broadcast over an unlicensed station in the Moss Side area.

ROSE'S RAMBLINGS

Not much space left this week, so a few mumblings and that's that! First of all there is some concern over what may happen on CAROLINE now that PETER PHILIPS has departed for the newly revamped (under the expert hands and ears of ROGER DAY) INVICTA RADIO. I can only say that the departure of PETER PHILIPS, even if only shortly after the exit of KEVIN TURNER, should not cause too much concern. The station will continue to use the PHILIPS' format until somebody else is appointed. Whoever that person is, you can bet your bottom dollar (won on LOTTO 6/49) that the management will instruct that person to maintain the figures, or increase them. Not lose them. It should be an interesting time - but perhaps more about that next time.

The BBC last year covered the SONY RADIO AWARDS on RADIO 4 and did an excellent job. It was thus more than disappointing to hear the poor coverage given this year on the GLORIA HUNNIFORD show on RADIO 2. The intrusion of records at vital moments in the awards, and the unnecessary interview with SARAH GREEN were just two points against next years' broadcast being made on this particular network.

A sad point was the number of winners not at the event "due to their commitments in television..." Finally, whoever took SIMON DEE's 20,000 records - please, please return them....

See you next week! HGR

THE TECHNICAL TRILOGY

NOTES BY NORMAN MCLEOD

Last week we looked at the broad principles behind radio regulation. Let's turn now to how standards can be set and maintained in practice.

We'll look at two quite different approaches: the 'proactive' principle, and the 'reactive' system.

PROACTIVE PRINCIPLE

This way of working specifies in great detail every possible aspect of the station's performance, and sends out an official or two, armed with a spec. sheet and a Range Rover full of test equipment, to make sure that everything complies with the specification before it's allowed on the air.

This is the approach favoured by the IBA, since it creates well-paid jobs for their engineers to do. It has the advantage that poor quality is ruthlessly removed from the system from the word go, so that — for example — no-one in the ILR system would shock the world by putting out stereo crosstalk less than 45dB down at mid-band, for fear of arousing the wrath of their masters.

So it leads to a lot of fuss about things which no-one outside the IBA cares a tuppence about.

It also costs the earth.

It also runs contrary to the whole ethos of a 'light touch', which the Government is keen on applying to the Radio Authority's affairs.

The alternative approach is called the 'reactive' principle, and it will be quite a novel experience for our technical regulators.

THE REACTIVE PRINCIPLE

This works in quite the opposite way. Specifications may be issued, but they are in effect only guidelines, and absolutely nothing is done about anyone's conduct unless and until someone complains about it.

This approach is cheap, easy-going and flexible. But if it becomes too lax and laissez faire, there's a risk that officials could be involved in as much work solving problems reactively as they would have been preventing them proactively. And the fact that a problem has occurred means that someone, somewhere, has been upset.

No-one wants to be associated with aggro: neither the Authority, nor the stations, to be sure.

The best answer may be neither wholly proactive, nor wholly reactive, but exploits the most useful aspects of each approach. A wise attitude would take into account the power, and therefore the interference risks, of the station's transmitter.

It is more important that the high-power transmitters be carefully supervised, because their interference potential is greater. So a more proactive approach is taken with high-power transmitters, and the lower the power, the less fuss is made, until stations like student or hospital outfits enjoy a wholly reactive technical regime.

Enforceable specifications should cover only the vital 'safety' parameters: POWER, FREQUENCY, BANDWIDTH and PURITY. Everything else should be for guidance only, but no less specific, and capable of test and demonstration.

ADVERTISE YOUR BUSINESS IN THESE PAGES...
Wireless Workshop

Special Event Radio

Our mobile caravans, complete with transmitter and aerial equipment, are available for hire for Special Event stations anywhere in the UK.

Wireless Workshop are pioneers of this kind of service, and our equipment is designed to produce first class results.

Audio Processing Equipment

Without Audio Processing, signals sound weak and lacking in clarity.

We can put a punch into your signal that will make it stand out on the dial. Our Audio Processors produce professional results at an affordable price.

Inductive Loop Radio Systems

Our MF inductive loop system provides a performance that is second to none.

Ten stations already use Wireless Workshop equipment for their transmission systems. We have many years' experience of designing and installing broadcasting networks for student and hospital radio.

Contact us now for more details and a free estimate of costs for your site.
