FOREWORD

This is the third ZIGZAG Small Labels Catalogue, the first was produced in early 1978.

The implications of the growth in Small Labels during that period are now a music-press cliché, and hardly need reiterating here. Suffice to say, anybody interested in presenting their music to the teeming hordes and earning a living from it, now have a real choice of avenues open to them.

The phenomenon has made a definite impact on the economics and politics of the 'music business', perhaps now it's time to look further afield.

COMPILERS' NOTES

The aim of this catalogue is to provide both a source of reference and a historical record, listing the outpourings from the proliferation of Small Record Labels in the U.K.

Included is information on new labels and records released since the publication of the last ZIGZAG Small Labels Catalogue in November 1978, and where possible the updated complete catalogues of all currently active Small Labels. Obviously this means that some of the records listed may not still be available through normal channels, but the fanatic should be able to find copies somewhere.

In compiling the catalogue we had to tackle the emotive question of whether a label should be included if its status as an independent is besmirched by an association with a major company, be it taking advantage of finance or simply distribution facilities. We felt that, in order to provide a comprehensive service to the uninitiated seeking a record on a relatively obscure label, and to provide a historically complete picture, we should include anybody we felt appropriate. We have indicated where a label is associated in any way with a major company. On the other side of the coin, we have included some labels with pretty sizeable catalogues, simply because of their independent status or their place in the history of the growth of Small Labels.

FALLABILITY CLAUSE

Anybody embarking upon a task such as this catalogue, must accept from the outset that immediately after publication they will be beset by irate and emotional communications from labels and readers alike pointing out the omissions and cock ups. Worse still even as the thing goes to press, because of the dictates of producing an alphabetical (?) listing to a deadline, the compilers become painfully aware of shortcomings in the early pages before 'Z' gets its lick of Cow Gum. Then of course, there are those 'R's that somehow turn up in amongst the 'Y' pile - why indeed? The moral of this tale is CHECK THE STOP PRESS.

Every effort has been made to verify the information we have been supplied with, but inevitably the catalogue is susceptible to hoaxes and regurgitating pipe-dreams. Our answer to any purists who are feeling pious or disgruntled is, of course, compile your own catalogue.

If you know of a label that isn't here, or want to correct some detail, let us know quietly and gently - nerves get a bit frazzled by the time you've finished one of these efforts.

REGGAE

This time around it was felt that Reggae Labels should be the subject of a separate and comprehensive project. The groundwork for this was laid during the research for this catalogue and it is hoped that the final version will be available in the near future.

RIP 13 - ROD VERY - METAL LOVE

BELFAST ROCK - ROLP 1
A GREAT COMPILATION ALBUM

Demonstrated in New York on 27 July this "National Emergency Alarm Repeater" could, for an outlay of about \$10 a unit, be fitted to existing power supply to provide warning in individual homes less than one minute after an impending attack had been detected by the American military radar network.

RECORD COMPANIES, GROUPS AND ARTISTS!

HAVE YOU MADE YOUR OWN RECORDS?

We can help you promote them by
offering a promotional mailout service to
372 important retail outlets nationwide.
These outlets are well known for their
ability to break new acts. This will be
followed up by a mail out to all radio
stations in the U.K.

Finally we will personally call on the
six main radio stations in London for
airplay, Radio 1 and 2, Capital, L.B.C.
Radio London and Luxembourg.

We can also supply any promotion aids
you may need such as, badges, patches,
T. shirts etc., in almost any shape size
or form no matter how large or small
the quantity, at the best possible prices.

If you are interested in any of the above
give us a ring on:

WEST DRAYTON
(08954) 46425
or drop a line to:

H.H.C. Promotions Ltd.,
Dept. Z.

EXPOSE YOURSELF!

THE U.S. RECORD MARKET IS STILL THE MOST WIDE-OPEN AND PROFITABLE IN THE WORLD -- AND HAS NEVER BEEN HUNGRIER FOR TODAY'S NEW INTERNATIONAL MUSIC.

EXPOSURE IN THE U.S. OVER THE LAST TWO YEARS HAS RESULTED IN SALES FOR ARTISTS WHO WOULD'VE BEEN IGNORED BEFORE.

BUT -- THE MEANS OF GAINING CRITICAL RADIO EXPOSURE MAY STILL BE A MYSTERY TO YOU. THE SECRET IS PROPER REPRESENTATION BY A TRUSTED, EXPERIENCED INDEPENDENT PROMOTION REPRESENTATIVE.

THE ALL-IMPORTANT NORTHEASTERN UNITED STATES -- BOSTON, PHILADELPHIA, NEW YORK, BALTIMORE-WASHINGTON -- IS NOW THE BAROMETER FOR AMERICA'S MUSIC INDUSTRY. TESTING YOUR RECORD AT RADIO AND RETAIL OUTLETS IN THESE CITIES IS THE KEY TO SECURING MAJOR LABEL DISTRIBUTION IN AMERICA.

BAN electromusic

39/47 ST. JOHN STREET,
LONDON EC1M 4AB

TELEPHONE
01-253 9410/9079
TELEX 25960 BANMUS

BAN was formed four years ago as a PA Hire Company. Since that time the field of operation has been continually expanded to encompass many other services allied to the practical aspects of the performing arts. We are essentially a complete Electromusical Service.

SERVICING AND REPAIRS

Our well-equipped Technical Workshop is a prerequisite for maintaining our own Hire Department, with the ability to repair anything from the powerful Yamaha P2200 power amplifiers to our JBL loud-speakers which we can recone from stock within a few hours.

When undertaking customer repairs we apply the same rigorous standards, not forgetting that whilst a customer's regular hardware is under repair, a temporary replacement can usually be provided at discounted rates.

SALES

Our Professional Sales Department provides for most requirements plus full in-house service facilities and an Installation Service which is second to none.

We have trade links with most Professional Equipment Manufacturers and are distributors of the YAMAHA Pro Range and AHB products. Thus, we are able to offer equipment and instruments to Professional Musicians and Organisations at realistic prices. In addition, we can undertake to rectify any faults, wherever possible under guarantee, unlike many suppliers who are obliged, due to their lack of facilities, to return equipment to manufacturers.

HIRE.....AND HIRE!

Professional Electromusical Equipment is not cheaply produced and consequently some hire companies grossly over-rate their systems or use semi-professional substitutes in a ploy to attract custom by cheap quotations. BAN uses only recognised products which are regularly checked and maintained, thus minimising the risk of failure in use. We make it our business to ensure that you, the customer, are not inconvenienced by faults attributable to an inadequate sound system.

We always rate our systems in accordance with RMS speaker power, our loudspeakers being JBL and Gauss throughout. Power amps are the well-proven Yamaha Pro Range and mixing boards are by Yamaha Midas and Gelf, with effects and processing by Urei, Yamaha, Roland and Kelsey, amongst others.

We provide concert sound systems of up to

6,000 WATTS 'OFF THE SHELF'

larger rigs for outside performances etc. can be supplied by special arrangement. Our Hire Service also includes crews and trucking as required.

A comprehensive equipment is available either in conjunction with, or separately from the PA service. In addition, small 'take-away' PA's are available up to 500 watts in a do it yourself form.

REHEARSALS AND RECORDING

The 700 sq. ft. Rehearsal Studio at BAN ELECTROMUSIC comprises a full PA system complete with microphones etc. Four and eight track recording facilities are available either in the studio or at live performances at only relatively small extra cost.

CUSTOM DESIGN AND MANUFACTURE

Ban custom stage cabinets are designed and built in-house to exactly suit musicians' requirements. Although expensive to manufacture, as in any fully professional equipment, cabinets such as these are built to stand up to and function reliably during the most rigorous touring.
