

More soundtracks have come to life over an Altec system, so...

it makes sense they come alive best over an Altec system in your home. The famed Altec Voice of Theatre speaker system is used in nine out of ten movie houses. From this granddaddy of all speakers has emerged the new Altec 891A, shown below.

The 891A bookshelf speaker offers clear, balanced

highs and lows. Full dynamics so you hear more music. More than you've ever heard before.

The Altec 891A sells for only \$125 each speaker. Your Altec dealer will turn it on for you.

Or write Altec, 1515 S. Manchester Avenue, Anaheim, California 92803.

ALTEC

A DIVISION OF ALTEC CORPORATION

When music becomes more than just something to listen to, Altec is involved.
