

THE RIGHT ANSWER TO THE BACKUP QUESTION

NOW IT'S EASY, FAST, AND AUTOMATIC

The software in Genoa's Galaxy™ tape system makes backup easy and fast. Just choose your options from the menu, press a few keys, and four minutes later your 20 MB hard disk is all backed up.

SMART, AUTOMATIC

You can set your Genoa Galaxy to backup automatically on a regular basis—like once a day. (That's smart!) If you're working on your computer when it's time to backup, the Galaxy will remind you it's time to take a five-minute break. Or, you can tell Galaxy to backup automatically after hours.

And, while the Galaxy backs up your data, it will display an on-screen status report.

NETWORK UPGRADEABLE

Add Genoa's GenWare™ software to your Galaxy tape backup system,

Inquiry 118

and you can backup the data in your Novell network quickly and automatically. You can also easily exchange data between your stand-alone Galaxy units and your network units.

Genoa has the answer to the backup question: a whole family of tape backup units, from 20 to 120 MB, that are easy, automatic, and fast.
