Western Electric 1126C PROGRAM AMPLIFIER

Back in '37, Western Electric brought out the famous 110A Program Amplifier, an early peak limiter developed for broadcasting. It was followed by the improved 1126A, 1126B and now the 1126C for ever better performance as a program-operated gain control to prevent overmodulation in AM or FM. For full details, write Graybar Electric Co., 420 Lexington Ave., New York 17, N. Y., or...
