

Domsat shows for Anaheim. If everything works, delegates to this week's convention of the National Cable Television Association will get an eyeful of satellite interconnection.

Teleprompter has installed a portable earth station at Convention Center, Anaheim, Calif., for several planned demonstrations, the first to originate from Washington at 10:30-11 a.m., Pacific daylight time, today (June 18), fed by land line to an American Satellite Corp. earth station at Germantown, Md., then to the Canadian Anik satellite and from it to Anaheim.

At 7-8 p.m., PDT, tonight, the heavyweight championship bout between Jimmy Ellis and Earnie Shavers from New York's Madison Square Garden will be the first sports event to be transmitted across the U.S. via domestic satellite. Home Box Office Inc., which is producing the cablecast, said last week the transmission will travel by land line from the Garden to Germantown and from there by the Amsat-Anik route to Anaheim.

From the Teleprompter earth station, the program will be relayed by Theta-Com Corp.'s amplitude modulation link (AML) short-haul microwave to the Disneyland hotel closed-circuit system and to a pay-TV test at Teleprompter's San Bernardino, Calif., CATV system. Home Box Office is also delivering the event to 12,000 payable subscribers in Pennsylvania via ordinary telephone.

On Tuesday morning Teleprompter will import a CBC French-language program to the NCTA convention and that night it will pick up CBC news.
