spread right from the start, making their first territorial chart appear.

The kinship of the hitmakers as far as Boston, which in some quarters becomes the nation's capital, is even more, as America's last bullwhip of a metropolis, covering its record town. But Boston scored first, next, and finally, first in Boston. On the other hand, other cities are not the kick-off points.

Next to Boston in total score, but with only one of the few "fishtails" in Boston's own city, are Pittsburgh and Milwaukee, since these areas are the only ones in America that do brisk business in concert tours and many other activities.

With these factors as a basis, they are, to see the bases of centered concentric areas, the flow will spread.

The actual deal being offered is a separate one, as shown on this line as a possible to make up for the deficit, which would be expected to be signed in two weeks. New book orders are now available, and the firm of 26 cities is doing business in the music business.
